Social Policy And Discourse Analysis:

Social Policy and Discourse Analysis Greg Marston, 2004 Despite the fact that policy is increasingly led by the mass media social policy research has so far focused on variables and quantitative measurement rather than cultural meanings and moral welfare debates Taking a critical examination of social policy on public housing by way of illustration this book demonstrates how critical discourse theory can be used in applied research It shows how the theory and method of critical discourse analysis can be worked together in an intricate and accessible way *Understanding Research for Social Policy and Social Work* Saul Becker, Alan Bryman, Harry Ferguson, Thomas Harold Ferguson, 2012-03-14 Thoroughly revised and expanded this new edition of *Understanding Research for Social Policy and Social Work* shows readers the importance of research how to interpret it and how to effectively carry out and report research of their own This landmark textbook is an essential guide to the methods approaches and debates that are required knowledge for students policymakers and practitioners

Understanding Research for Social Policy and Social Work (Second Edition) Saul Becker, Alan Bryman, Harry Ferguson, 2012-03-14 0 *Social Policy* Paul Spicker, 2014-03-01 The second edition of this leading international text introduces students to the concepts and methods of social policy *Framing Welfare Recipients in Political Discourse* Lenka Kisoová, 2021-07-08 This book explores the shift towards individual responsibility that is increasingly evident in welfare systems across the world The book will be of interest to students and scholars across sociology social policy and political science with a particular focus on migration minorities political discourse securitisation social justice and human rights This book offers a compelling read analysing how welfare is legitimated in the Central European context through the innovative metaphor of political farming The analytical framework brings together several distinct streams of theorizing critical discourse studies critical security studies governmentality boundary making and the dynamics of ethnic relations seamlessly and effectively Through a very nuanced discursive analysis Kisoová shows how the poor the offenders and the unadaptable categories policymakers use to talk about material need recipients are linked pathologically with criminality abuse of the system and other negative perceptions This is a must read text for anyone interested in how political actors justify questionable legislation that cements inequality in today's neoliberal milieu B Nadya Jaworsky Associate Professor Sociology Masaryk University Czech Republic Lenka Kisoová's book is clearly written and carefully researched Her interdisciplinary insight and discursive analysis of parliamentary debates on Slovak welfare policies illustrates the deliberate precise and politicized collocation of Roma marginalization and economic disadvantage in a manner that starkly illustrates systemic racism dressed up as morally necessary regulatory reform Moreover her research has broader comparative and methodological relevance given how she layers in and utilizes governmentality securitization and legitimation theory unmasking how neoliberal economic assumptions and dog whistle politics woven into the speech of politicians works to demonize recipients as real or potential cheats and criminals enact further social exclusion and heighten inequality and fear

while not so subtly promoting existing prejudices Her overarching metaphor that of parliamentarians engaging in political farming where their ideas seed and take root in fertile soil of the national landscape resulting in regulatory products effectively demonstrates how social reality generally and state regulation specifically can be constructed divorced from actual evidence a process beyond her specific case and critically relevant to our times Barbara J Falk Professor Department of Defence Studies Canadian Forces College Royal Military College of Canada Fellow Centre for European Russian and Eurasian Studies University of Toronto Canada

Analysing Social Policy Greg Marston, Catherine McDonald, 2006-01-01 This book brings together leading international researchers to discuss governmental approaches to analysing social policies *Analysing Social Policy* expands the scope of social policy analysis using the insights from post Foucauldian scholarship on the art of governing in liberal democracies One of the main conclusions reached is that policy researchers need to pay much greater attention to the minutiae of policy reform and to the discursive and material ways in which power operates in policy change The chapters comprising this book are purposefully written in a clear accessible and reflective manner with each of the contributions empirically grounded drawing on social policy problems and practices in many countries ranging from North America to Europe to Australasia The editors address key concerns of both policy analysts as well as academic researchers attempting to locate appropriate theoretical frameworks to make sense of welfare state restructuring in the 21st century This book will appeal to researchers and research students in political science social policy social work and sociology through its demonstration of how to apply contemporary social theory to research problems It will also be of interest to policy scholars around the world who are involved in analysing the intersections of power politics and policy

Analysing Social Policy Concepts and Language Daniel Béland, Klaus Petersen, 2015-10-07 Social policy scholars and practitioners work with concepts such as welfare state and social security but where do these concepts come from and how has their meaning changed over time Which are the dominant social policy concepts and how are they contested What characterises social policy language in specific countries and regions of the world and how do social concepts travel between countries Addressing such questions in a systematic manner for the first time this edited collection written by a cross disciplinary group of leading social policy researchers analyses the concepts and language used to make sense of contemporary social policy The volume focuses on OECD countries located on four different continents Asia Australasia Europe and North America Combining detailed chapters on particular countries with broader comparative chapters the book strikes a rare balance between case studies and transnational perspectives It will be of interest to academics and students in social policy social work political science sociology history and public administration as well as practitioners and policy makers
