Social Work Practice:

Social Work Practice in Health Care Settings Michael J. Holosko, Patricia A. Taylor, 1992 Social Work Practice in Health Care Settings is written by social work practitioners for colleagues in health care settings. It is aimed at teaching social workers how to survive in a rapidly changing health care system. The text emphasizes the role of the social worker in a variety of health care settings with a variety of unique patient disease groups. From community health centres to hospitals and from cancer patients to Alzheimer's victims, this book brings together for the first time the special expertise of social work in responding to various health care needs. One unique feature of this text is the emphasis on the potential for social work role development in each of the particular areas covered. With each article written in a standardized format, it is appropriate for both undergraduate and graduate courses in schools of social work as well as for social work practitioners in the field and allied health professionals.

Techniques and Guidelines for Social Work Practice Bradford W. Sheafor, Charles R. Horejsi, 2006 0205446175 Sheafor Techniques and Guidelines for Social Work Practice 7e. The latest edition of this classic book continues to provide students and practitioners of social work with a one-of-a-kind resource designed to emphasize the different techniques needed for successful practice. Carefully updated to provide social workers with easy access to the most current information on professional techniques and guidelines and organized to support a generalist practice perspective, Techniques and Guidelines for Social Work Practice illustrates multiple ways in which both direct and indirect intervention activities are a part of the social worker's repertoire. Touching upon everything from cultural competence to macro practice, the content of this text is so widely applicable it is an invaluable aid in making the transition to a professional career in social work and a staple of professional social work libraries. In a classroom, it is ideal for use in advanced practice capstone and field work courses. Parts I and II summarize the essential foundation elements of social work practice, while Parts III through V set out 157 clearly described techniques and guidelines that can be used by students and new practitioners. The latest edition includes many changes that make it just as essential as previous editions. Techniques deleted from prior editions due to space restrictions are now available at www.ablongman.com/sheafor7e. New techniques include guidelines for assessing small group functioning, family group conferencing, and building mentoring relationships, as well as addressing client concerns related to spirituality and religion and serving the client or community experiencing an emergency or disaster. Following the lessons of 9/11, new content is included to prepare social workers to deal with a client or community emergency. Information is included on family group conferencing, a new approach based on the principles of restorative justice about which social workers should be knowledgeable. New guidelines for using mentoring relationships in which senior practitioners without direct administrative responsibilities support and nurture developing social workers are included in this edition, along with new guidelines for assessing small group functioning as a means of strengthening subsequent intervention activities with groups. Chapter 14 now includes a straightforward description of techniques for
