

What Is Social Learning Theory?

A Behaviorist + Cognitive Hybrid Model

Observation

A stimulus is given attention and/or observed. This can be in real-time, reflection, predictive, or imagined.

Internalization

Initial meaning is created in the mind of the observer.

Definition: Social learning theory is a behavioral theory that posits that new behaviors can be learned by observing and imitating others.

Imitation

Some form of imitation of that behavior--in part or its entirety--occurs. This reproduction deepens internalization and elicits evaluation by imitator.

Feedback

Feedback loop: ongoing motivation is decided by reflection and perceived relative 'success' (e.g., the effects) of the behavior.

Dance-Play and Drawing-Telling as Semiotic Tools for Young Children's Learning Jan Deans, Susan Wright, 2018-02-15 Investigating children's learning through dance and drawing telling Dance Play and Drawing Telling as Semiotic Tools for Young Children's Learning provides a unique insight into how these activities can help children to critically reflect on their own learning Promoting the concept of dance and drawing telling as highly effective semiotic tools for meaning making the book enlivens thinking about the extraordinary capacities of young children and argues for the incorporation of dance and drawing in mainstream early childhood curriculum Throughout the book numerous practice examples show how children use movement sound images props and language to imaginatively re conceptualize their everyday experiences into bodily kinesthetic and spatial temporal concepts These examples illustrate children's competence when given the opportunity to learn through dance and drawing telling as well as the important role that teachers play in scaffolding children's learning Based on award winning research this insightful and informative book makes a sought after contribution to the field of dance education and seeks to reaffirm dance as a powerful learning modality that supports young children's expressive non verbal communication Encouraging the reader to consider the significance of multi modal teaching and learning it is essential reading for researchers in the dance drawing and education spheres postgraduate students taking courses in early childhood play and dance therapists and all early childhood teachers who have a specific interest in arts education

Young Children Learning Through Schemas Katey Mairs, 2013 This creative and highly engaging text describes how young children learn through exploring repeated patterns in their actions known as schemas and how they can help inform planning for children's learning

Doing Research About Education Geoffrey Walford, 2003-09-02 This book brings together semi autobiographical accounts from major educationalists about their influential research focusing on the practical and personal aspects of the research process The collection reflects the great changes that have occurred within educational research since the 1980s and deals with the issues and situations of the late 1990s It includes accounts that cover the various stages of the research process a sampling of topics the diversity of methodologies used in educational research and a range of theoretical perspectives There is coverage of qualitative and quantitative methodologies and of large and smaller scale research Also discussed are ESRC programme research contract

research and theoretical research Transitions and Learning Through the Lifecourse Kathryn Ecclestone, Gert Biesta, Martin Hughes, 2009-10-16 Transition has numerous everyday and conceptual meanings yet while certain transitions are unsettling and difficult for some people risk challenge and even difficulty might also be important factors in successful transitions for others *How Shall We School Our Children?* Colin Richards, Philip Taylor, 2005-06-23 A team of highly regarded contributors were invited to take a rational look at the future of primary schools particularly during the first 20 years of the next millennium They were asked to consider many questions including What are the roots of primary education What is the justification for a radical agenda How well is the system working and in what ways could it further optimize its effectiveness in the interests of the participants What is a primary school and what purpose does it serve and what ends does it have in view Are these ends appropriate for the future This book then represents the thinking of key scholars and researchers working in the area of primary education and will be essential reading for those involved with the education of primary aged children Social Processes in Children's Learning Paul Light, Karen Littleton, 1999 This book first published in 2000 is about children's learning and problem solving behaviour It reflects the increasingly close integration seen in recent years between social and cognitive approaches to researching the learning process In particular Paul Light and Karen Littleton examine the ways in which interactions between children influence learning outcomes They begin by placing this topic in a broad theoretical and empirical context and go on to present a substantial series of their own experimental studies which focus on children of late primary and early secondary school age These investigations address peer facilitation of problem solving social comparison effects on learning and social context effects upon the interpretation of tasks Many of the studies involve computer based learning but the findings have implications both for classroom practice and the understanding of the learning process This book will be a valuable tool for researchers teachers and practitioners interested in the social processes of children's learning **Thinking Children: Learning About Schemas** Meade, Anne, Cubey, Pam, 2008-08-01 Forlagets beskrivelse This book explores the frequently observed schemas of young children patterns of behaviour from which understanding and growth is derived and draws out the nature of this learning Assessing Children's Learning (Classic Edition) Mary Jane Drummond, 2011-10-21 Now featuring a brand new foreword by Sue Swaffield this classic text *Assessing Children's Learning* examines some of the vital questions that teachers and other educators ask themselves as they assess children's learning across the curriculum Autism and the Social World of Childhood Carmel Conn, 2014-03-05 A key issue for researchers and practitioners is how to support the social engagement of children with autism in ordinary everyday social processes that are transactional in nature and involve mixed groups of children with and without autism in rich and varied relationships *Autism and the Social World of Childhood* brings together current understandings about the social engagement of children with autism gained from psychology based research into autism with well established ideas about children's everyday social worlds gained from sociocultural theories of childhood It

describes the experiences of interaction friendship and play from children's own point of view as a way of giving insight into children's lives as they are lived and understood by them Such an understanding serves to inform educational practice and aids the provision of more effective learning environments Autism and the Social World of Childhood includes sections on the nature of play social interaction and friendship in autism the nature of children's ordinary social worlds including children's cultures of communication and variation in children's play research approaches to investigating the social engagement of children with and without autism in natural contexts educational approaches to supporting the integration of children with autism within a school setting the importance of assessment in autism education Autism and the Social World of Childhood includes real life descriptions of children's social experiences taken from ethnographic research into the play and interaction of children with and without autism Practical guidance is provided on educational approaches to supporting the inclusion of children with autism within the ordinary social worlds of childhood

Understanding Children's Learning Claire Alfrey, 2013-08-21 First Published in 2004 [Contemporary Perspectives on Social Learning in Early Childhood Education](#) Olivia Saracho, Bernard Spodek, 2007-06-01 Social epistemology is a broad set of approaches to the study of knowledge and to gain information about the social dimensions This intellectual movement of wide cross disciplinary sources reconstructs the problems of epistemology when knowledge is considered to be intrinsically social In the first chapter Social Epistemology and Social Learning Olivia Saracho and Bernard Spodek discuss the social and historical contexts in which different forms of knowledge are formulated based on the perspective of social epistemology They also discuss the emergence of social epistemology which guides researchers to investigate social phenomena in laboratory and field settings Social factors external to the appropriate business of science have a major impact in the social studies researchers historical case studies Thus social studies researchers may be considered social epistemologists because a they focus on knowledge of social influences and b they infer epistemologically significant conclusions from their sociological or anthropological research In addition analyses indicate that studies of scientific paradigms are basically a struggle for political power rather than reflecting reliable epistemic merit Social studies researchers focus on knowledge of social influences on knowledge which is analogous to the knowledge of the social epistemologists They also use their sociological or anthropological research to infer epistemologically significant conclusions
