Max Weber's Complete Writings on Academic and Political Vocations Max Weber, 2008 Annotation This is the first edition in any language of all of Max Weber's writings on academic and political vocations The translation is new and liberally annotated including a look at Weber's personality and what it was that made him such a phenomenon Max Weber made many significant interpretations of both academic and political vocations in his two lectures on Science as a Vocation *Wissenschaft als Beruf* 1917 and Politics as a Vocation *Politik als Beruf* 1919 as well as in a series of newspaper articles including those written between 1908 and 1920 Since these writings are of more than historical interest there was a need to bring them all together in a single volume Newly translated and annotated this collection comprises both lectures plus 32 articles which Weber wrote on academia Most of these have not been translated before In the Introduction Prof John Dreijmanis relates the academic and political vocations to each other conceptually showing that there is considerable overlap and some convergence the need for passion an inward calling as well as career insecurity both vocations Dreijmanis then examines the person of Weber and provides a new view of him in part through the lens of Carl C Jung's theory of psychological types as further developed by the Myers Briggs Type Indicator MBTI As an extravert with a powerful thinking function and intellect he was driven to take an interest in events outside himself and to speak his mind Coming after a long line of introverted German philosophers he was a phenomenon The new translations by Gordon C Wells are more faithful to Weber's style of expression and they correct an accumulation of errors of previous translations in the oft translated essays on Politics and Science Contains Glossary Bibliography Names Index Subject Index

Politics and Sociology in the Thought of Max Weber Anthony Giddens, 2013-05-28 This book provides an interpretation of one of the key aspects of Max Weber's work the relationship between his political and sociological writings Weber's sociological studies have often been treated as if they were completely separate from his political attitudes and interests and in general his political writings have remained less well known than his sociological work The book contains three main sections The first of these analyses the principal concerns underlying Weber's political assessment of the prospective development of post Bismarckian Germany The second examines some of the way in which these views channelled his interests in sociology and influences his studies of capitalism authority and religion Finally the

third main section reverses this perspective showing how his conceptions of sociology and social philosophy in turn influenced the evolution of his assessment of German politics

Max Weber and the Theory of Modern Politics David Beetham, 2013-05-02 Max Weber's writings on the politics of Wilhelmine Germany and the Russian revolutions of 1905 and 1917 are much less well known than his contributions to historical and theoretical sociology yet they are essential to any overall assessment of his thought Drawing on these writings still mostly untranslated David Beetham offers the most comprehensive account available in English of Weber's political theory The book explores Weber's central concern with the prospects for liberal Parliamentaryism in authoritarian societies and in an age of mass politics and bureaucratic organization and shows how this concern led him to a revision of democratic theory which is still influential It argues that Weber's analysis of the class basis of contemporary politics necessitate a modification in some of the accepted interpretations of his sociology of modern capitalism A special feature of the book is its full treatment of the extensive German literature on Weber's political thought This second edition contains a substantial new critical introduction and an expanded bibliography
