The Cabin in the Woods Susanne Kord, 2023-04-17 The Cabin in the Woods 2012 directed by Drew Goddard and co authored by Goddard and Joss Whedon of Buffy fame was famously described by co author Whedon as his loving hate letter to horror Interviews with Whedon reveal that his struggles with modern cinematic horror are not merely emotional but intensely philosophical This book is the first to read Cabin as a philosophical metatext that asks what horror offers audiences and why audiences accept Like any good philosophy the film offers no answers but raises questions what choices are possible in a pre determined universe How do we the audience see the victims of violence and with what ethical consequences And finally the most fraught question of all why do we keep looking

Terror in the Heart of Freedom Hannah Rosen, 2009-06-01 The meaning of race in the antebellum southern United States was anchored in the racial exclusivity of slavery coded as black and full citizenship coded as white as well as male These traditional definitions of race were radically disrupted after emancipation when citizenship was granted to all persons born in the United States and suffrage was extended to all men Hannah Rosen persuasively argues that in this critical moment of Reconstruction contests over the future meaning of race were often fought on the terrain of gender Sexual violence specifically white on black rape emerged as a critical arena in postemancipation struggles over African American citizenship Analyzing the testimony of rape survivors Rosen finds that white men often staged elaborate attacks meant to enact prior racial hierarchy Through their testimony black women defiantly rejected such hierarchy and claimed their new and equal rights Rosen explains how heated debates over interracial marriage were also attempts by whites to undermine African American men s demands for suffrage and a voice in public affairs By connecting histories of rape and discourses of social equality with struggles over citizenship Rosen shows how gendered violence and gendered rhetorics of race together produced a climate of terror for black men and women seeking to exercise their new rights as citizens Linking political events at the city state and regional levels Rosen places gender and sexual violence at the heart of understanding the reconsolidation of race and racism in the postemancipation United States

Researching Religious Education: Classroom Processes and Outcomes Friedrich Schweitzer, Reinhold Boschi, 2017 The question of how research on structures and outcomes in Religious Education can be carried out successfully is of current interest in many countries Next to the more traditional historical analytical and more recently international comparative approaches empirical research in religious

education has been able to establish itself as a major approach to this field Moreover the contemporary discussion about comparative evaluation in schools has raised a number of questions which also refer to Religious Education What competences can pupils acquire in this subject Does Religious Education really support the acquisition and development of the competences aspired Are there differences in this respect between different forms of Religious Education or between different approaches to teaching With contributions from eight European countries the volume brings together approaches and research experiences that try to follow this lead by offering new and empirically based perspectives for the future improvement of teaching and learning in this school subject Whoever is interested in improving the practice of Religious Education then will not be able to bypass the question of researching processes and outcomes an insight which also refers to a small but growing number of studies in this field which can be identified in several countries

Terrorist Attacks on American Soil J. Michael Martinez, 2023-06-14 Understanding the context of terrorism requires a trek through history in this case the history of terrorist activity in the United States since the Civil War Because the topic is large and complex *Terrorists Attacks on American Soil From the Civil War to the Present* does not claim to be an exhaustive history of terrorism or the definitive account of how and why terrorists do what they do Instead this book takes a representative sampling of the most horrific terrorist attacks on U S soil in an effort to understand the context in which they occurred and the lessons that can be learned from these events

The Terrorist Next Door Daniel Levitas, 2025-04-16 September 11 2001 focused America s attention on the terrorist threat from abroad but as the World Trade Center towers collapsed domestic right wing hate groups were celebrating in the United States Hallelu Yahweh May the WAR be started DEATH to His enemies may the World Trade Center BURN TO THE GROUND announced August Kreis of the paramilitary group the Posse Comitatus We can blame no others than ourselves for our problems due to the fact that we allow Satan s children called jews sic today to have dominion over our lives The Terrorist Next Door reveals the men behind far right groups like the Posse Comitatus Latin for power of the county and the ideas that inspired their attempts to bring about a racist revolution in the United States Timothy McVeigh was executed for killing 168 people when he bombed the Alfred P Murrah Federal Building in 1995 but The Terrorist Next Door goes well beyond the destruction in Oklahoma City and takes readers deeper and more broadly inside the Posse and other groups that comprise the paramilitary right From the emergence of white supremacist groups following the Civil War through the segregationist violence of the civil rights era the right wing tax protest movement of the 1970s the farm crisis of the 1980s and the militia movement of the 1990s the book details the roots of the radical right It also tells the story of men like William Potter Gale a retired Army officer and the founder of the Posse Comitatus whose hate filled sermons and calls to armed insurrection have fueled generations of tax protesters militiamen and other anti government zealots since the 1960s Written by Daniel Levitas a national expert on the origins and activities of white supremacist and neo Nazi groups The Terrorist Next Door is painstakingly researched and includes rich detail from official documents including the FBI

private archives and confidential sources never before disclosed In detailing these and other developments *The Terrorist Next Door* will prove to be the most definitive history of the roots of the American militia movement and the rural radical right ever written *Flannery O'Connor in the Age of Terrorism* Avis Hewitt,2010-07-28 In any age humans wrestle with apparently inexorable forces Today we face the threat of global terrorism In the aftermath of September 11 few could miss sensing that a great evil was at work in the world In Flannery O'Connor's time the threats came from different sources World War II the Cold War and the Korean conflict but they were just as real She too lived through a time of terror The first major critical volume on Flannery O'Connor's work in more than a decade *Flannery O'Connor in the Age of Terrorism* explores issues of violence evil and terror themes that were never far from O'Connor's reach and that seem particularly relevant to our present day setting The fifteen essays collected here offer a wide range of perspectives that explore our changing views of violence in a post 9/11 world and inform our understanding of a writer whose fiction abounds in violence Written by both established and emerging scholars the pieces that editors Avis Hewitt and Robert Donahoo have selected offer a compelling and varied picture of this iconic author and her work Included are comparisons of O'Connor to 1950s writers of noir literature and to the contemporary American novelist Cormac McCarthy cultural studies that draw on horror comics of the Cold War and on Fordism and the American mythos of the automobile and pieces that shed new light on O'Connor's complex religious sensibility and its role in her work While continuing to speak fresh truths about her own time O'Connor's fiction also resonates deeply with the postmodern sensibilities of audiences increasingly distant from her era readers absorbed in their own terrors and sense of looming ineffable threats This provocative new collection presents O'Connor's work as a touchstone for understanding where our culture has been and where we are now With its diverse approaches *Flannery O'Connor in the Age of Terrorism* will prove useful not only to scholars and students of literature but to anyone interested in history popular culture theology and reflective writing **Free from all Danger** Chris Nickson,2018-02-01 Richard Nottingham discovers that a new more ruthless breed of criminal has colonised the city when he returns as Constable of Leeds October 1736 Lured out of retirement to serve as Constable once again Richard Nottingham finds Leeds very different from the place he remembers Many newcomers have been attracted by the town's growing wealth but although the faces have changed the crimes remain the same as Nottingham discovers when a body is found floating in the River Aire its throat cut What has changed is the fear that pervades the town With more bodies emerging and witnesses too frightened to talk Nottingham realizes he's dealing with a new kind of criminal someone with no respect for anything or anyone Someone who believes he's beyond the law someone willing brutally to destroy anyone who opposes him To stop him Nottingham will need to call in old favours rely on trusted friendships and seek help from some very unlikely sources
