seeking to participate in governance forums or to influence those who do *The biopolitics of the war on terror* Julian Reid, 2013-07-19 Newly available in paperback this book overturns existing understandings of the origins and futures of the War on Terror for the purposes of International Relations theory It demonstrates why this is not a war in defence of the integrity of human life but a war over the political constitution of life in which the limitations of liberal accounts of humanity are a fundamental cause of the conflict The question of the future of humanity is posed by this war but only in the sense that its resolution depends on our abilities to move beyond the limits of dominant understandings of the human and its politics Theorising with and beyond the works of Foucault Deleuze Baudrillard Virilio and Negri this book examines the possibilities for such a movement What forms does human life take it asks when liberal understandings of humanity are no longer understood as horizons to strive for but impositions against which the human must struggle in order to fulfil its destiny What forms does the human assume when war against liberal regimes becomes the determining condition of its possibility Answers to such questions are pressing this book argues if we earnestly desire an escape from the current impasses of international politics **The general stud-book, containing pedigrees of race horses, &c. &c. from the earliest accounts to the year ... inclusive** , 1905
