Targeting Terrorist Financing Arabinda Acharya,2009-09-11 This book examines the dynamics of terrorist financing including a discussion about the importance of money from both the terrorist and the counter terrorist perspective Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing rather it is the states that have failed the institutions The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially However what has been increasingly lacking is political will among the states and this has overwhelmed the spirit of cooperation in this very critical front against

terrorism This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing After the 9 11 attacks there was an expression of global willingness to target terrorism generally and terrorist financing in particular The institutional mechanisms that grew out of this are explored in detail here with a critical examination of the progress made by the international community The impact of these measures is considered with respect to changes in the nature of the terrorist threat money confiscated adoption of international conventions and global standards by states and levels of compliance among others This book will be of great interest to students of terrorism international organisations international security and IR in general Arabinda Acharya is Research Fellow Manager of Strategic Projects and Head of the Terrorist Financing Response Project at the International Centre for Political Violence and Terrorism Research in the S Rajaratnam School of International Studies Nanyang Technological University Singapore

threat of terrorism *Terrorism, the Worker and the City* Luke Howie, 2017-11-28 Soon after watching the twin towers falling in New York some of those with business responsibilities were already asking themselves whether people would be willing to work in tall buildings ever again Is work too risky How can people be expected to attend work in what might now be seen as precarious and vulnerable workplaces and cities Although thankfully large scale terrorist attacks are infrequent the world's cities and the businesses to which they are home have been put on notice that it can come to any place at any time In *Terrorism the Worker and the City* Luke Howie considers what steps managers and employees can and should take to protect their businesses from such an amorphous and indefinable threat Deftly combining theoretical insight with empirical research he reveals how despite an appearance of business as usual fear anxiety and suspicion permeate workplaces even in cities that may not be at the top of any terrorist group's target list Using the Australian city of Melbourne a cosmopolitan city and major business centre with nearly four million people as a metaphor for other such cities around the world Dr Howie's research has uncovered that even where they don't perceive a high level threat business managers who might face having to account for themselves to some post event Inquiry have taken action in consequence of the situation Often that action amounts to the introduction of what can be described as Simulated Security This cannot ever provide certain protection from terrorist attack but it may be the best we can reasonably do There is also evidence that it can be effective in terms of providing the reassurance to counter the terrorist objective of disrupting normal life through fear With its rigorous research compared with other more speculative works on this subject *Terrorism the Worker and the City* will appeal to city and business leaders and managers and security professionals as well as those in governmenta **The War on Terrorism**

Bloom, 2012-08-13 Between 1985 and 2008 female suicide bombers committed more than 230 attacks about a quarter of all such acts Women have become the ideal stealth weapon for terrorist groups They are less likely to be suspected or searched and as a result have been used to strike at the heart of coalition troops in Iraq and Afghanistan This alarming tactic has been highly effective garnering extra media attention and helping to recruit more numbers to the terrorists cause Yet as Mia Bloom explains in *Bombshell Women and Terrorism* female involvement in terrorism is not confined to suicide bombing and not limited to the Middle East From Northern Ireland to Sri Lanka women have been engaged in all manner of terrorist activities from generating propaganda to blowing up targets What drives women to participate in terrorist activities Bloom a scholar of both international studies and women's studies blends scrupulous research with psychological insight to unearth affecting stories from women who were formerly terrorists She moves beyond gender stereotypes to examine the conditions that really influence female violence arguing that while women terrorists can be just as bloodthirsty as their male counterparts their motivations tend to be more intricate and multilayered Through compelling case studies she demonstrates

that though some of these women volunteer as martyrs many more have been coerced by physical threats or other means of social control As evidenced by the March 2011 release of Al Qaeda s magazine Al Shamikha dubbed the jihadi Cosmo it is clear that women are the future of even the most conservative terrorist organizations Bombshell is a groundbreaking book that reveals the inner workings of a shocking unfamiliar world **Whither Southeast Asia Terrorism?** Arabinda Acharya,2014-12-30 More than 11 years after the 9 11 attacks and 10 years after the October 2002 Bali bombings the need for a comprehensive assessment of what the countries in Southeast Asia have achieved is overdue We need to consider whether the strategies against both the domestic and transnational terrorist and extremist threat have been appropriate and have yielded desired results The aim of this book is to make a comprehensive assessment of the threats of terrorism and extremism in the region and of the policies and practices adopted by the regional countries to counter the same It is also necessary to evaluate if the region has become a safer place after the decade long fight Most importantly it is time to ask if we need a rethink or develop a new strategy to contain and manage the threats of terrorism and extremism *From Bin Laden to Facebook* Maria Ressa,2013 Maria A Ressa has been interviewed by The Wall Street Journal High Profile Journalist Reshapes Her Role in Terrorism Fight The two most wanted terrorists in Southeast Asia OCo a Malaysian and a Singaporean OCo are on the run in the Philippines but they manage to keep their friends and family updated on Facebook Filipinos connect with al Qaeda linked groups in Somalia and Yemen The black flag OCo embedded in al Qaeda lore OCo pops up on websites and Facebook pages from around the world including the Philippines Indonesia the Middle East Afghanistan Australia and North Africa The black flag is believed to herald an apocalypse that brings Islam s triumph These are a few of the signs that define terrorism s new battleground the Internet and social media In this groundbreaking work of investigative journalism Maria Ressa traces the spread of terrorism from the training camps of Afghanistan to Southeast Asia and the Philippines Through research done at the International Center for Political Violence Terrorism Research in Singapore and sociograms created by the CORE Lab at the Naval Postgraduate School the book examines the social networks which spread the virulent ideology that powered terrorist attacks in the past 10 years Many of the stories here have never been told before including details about the 10 days during which Ressa led the crisis team in the Ces Drilon kidnapping case by the Abu Sayyaf in 2008 The book forms the powerful narrative that glues together the social networks OCo both physical and virtual OCo which spread the jihadi virus from bin Laden to Facebook The Universal Journalist David Randall,2021-03-20 Easily the best introduction to being a reporter Press Association This is the only how to book on journalism written by writers and editors who have operated at the top level in national news It has long been the go to book of advice for young reporters This edition includes a chapter on social media and is extensively updated throughout with new content from Jemma Crew an award winning national news journalist The book emphasises that good journalism must involve the acquisition of a range of skills that will empower trainees to operate in an industry where ownership technology and information are constantly
