Terrorism And Violence In Southeast Asia Transnational Challenges To States And Regional Stability:

Terrorism and Violence in Southeast Asia Paul J. Smith, 2015-03-26 This timely work examines the scale and root causes of terrorism across Southeast Asia including the role of al Qaeda's ascendancy in the region. It begins with an overview of the analytical and theoretical framework for discussing the subject. Individual chapters then examine terrorist activities from both functional and country-specific perspectives. The book traces fundamental linkages between terrorism and security issues such as illegal immigration, narcotics trafficking, and other criminal activity. In addition, it considers the issue of convergence, the growing connection between criminal groups and terrorism, and how this may facilitate future violence. Written by a range of experts in the field, the individual chapters reflect a variety of perspectives. The contributions fall into two broad categories: chapters that directly address terrorism, the groups, their ideologies, their modus operandi, their origins, and state responses to them; and chapters that address the enabling environment that exists in Southeast Asia, the role of transnational crime, porous borders, convergence between terrorism and crime.

A Handbook of Terrorism and Insurgency in Southeast Asia Andrew T. H. Tan, 2009-01-01 This is an important and worthwhile book that should be read by anyone seeking to understand the history and evolution of political violence in Southeast Asia, including the origins of contemporary militant Islamist terrorism.

Paul J. Smith, Contemporary Southeast Asia This very fine collection shows how and why Southeast Asia has been afflicted with terrorism from the end of World War II to the present time. No other volume tells us as much about the period and area. Anyone interested in the general theory and practice of terrorism and insurgency will find it indispensable.

David C. Rapoport, University of California, Los Angeles, US and Editor of Journal of Terrorism and Political Violence This stimulating collection of essays underlines how Southeast Asia has again, as at the height of the Cold War, been pushed towards the top of the list of world conflict zones by the collision between long-standing regional problems and more recent external frictions. Anyone needing to learn more about the relationship between the war on terror and Southeast Asia, particularly regarding terrorism in Thailand, Indonesia, and the Philippines, will need to consult this work.

Brian P. Farrell, National University of Singapore and author of The Defence and Fall of Singapore 1940-1942 This book is an excellent addition to the literature on political violence in Southeast Asia, providing a wealth of detail on terrorism, guerrilla insurgency, and the use of terror and repression by governments. The book is especially valuable for the broad coverage of many different groups, not just Islamic ones, inclusion of the activities of governments, and a variety of opinions and views on terrorism and political violence. This book should be one of the essential resources for academics, policymakers, or anyone else interested in terrorism, insurgency, and political violence in the region. It is an extremely valuable tool for one and all.

James M. Lutz, Indiana University, Purdue University, US and co-author of Global Terrorism with Brenda Lutz This is an excellent volume which is very well conceived and balanced in its treatment of the problem of terrorism and insurgency in Southeast Asia. This volume will greatly advance our empirical understanding of conflict and violence in this pivotal region. The book contains

many insightful contributions and overall the Handbook will serve as a standard reference on the subject matter for years to come M L R Smith King s College University of London UK This timely and significant book seeks to explain the deep seated complexities of terrorism and insurgency in Southeast Asia In the aftermath of 9 11 this region has been designated by the United States to be the second front in the war on terrorism Yet despite the emergence of this new global terrorism the authors argue that armed rebellion in Southeast Asia is a phenomenon that predates Al Qaeda and the global Jihadist movement and that much can be learned from the motivations behind it Written by a group of leading Western and emerging Southeast Asian scholars this extensive volume demonstrates the difficulty and diversity of rebellion in Southeast Asia and explores its intricate historical political social and economic roots The book will serve as an excellent reference and educational text providing an empirical and regional guide to the complex problem of insurgency in Southeast Asia It will also contribute to a more educated understanding that could provide the basis for appropriate counter terrorism strategies in this important part of the world Comprehensive and engaging this volume will find widespread appeal amongst researchers students and policymakers interested in terrorism international relations and Asian studies and will also be an invaluable tool for studies into political violence and security

Flashpoints in the War on Terrorism Derek S. The Sulu Arms Market Lino Miani, 2011 Situated in a remote area long a historical buffer zone between competing political entities the Sulu Arms Market is an illicit market of a typical form in that it is both a source and a destination for less than legal guns What makes the Sulu market unique is its longevity which is measured in centuries In modern times guns from the area supply conflicts and crime from Japan to Sri Lanka to Papua New Guinea and beyond and in turn the world pours guns and ammunition into Mindanao the Maluku Molucca Islands and to a lesser extent Malaysia and the rest of the Philippines Like most black arms pipelines the Sulu Arms Market is intertwined with piracy terrorism and the traffic of other illicit commodities Criminal gangs communists Moro independence groups and Islamic militants are all major players in the market making it a security problem for at least five member states of the Association of Southeast Asian Nations ASEAN

Contemporary Radical Islam as a Consequence of Traditional Legacies and Globalization? Tonya M. Klempp, 2006 The most recent wave of Islamic revivalism began in the second half of the twentieth century as a nonviolent movement of expressing ideological differences and discontent with the political economic and social condition among Muslims and inspired a reformation of the Muslim identity Today contemporary radical Islam with militancy and terrorist tactics as its cornerstone has all but overshadowed the call for a nonviolent struggle and has permeated several internal conflicts across the globe The Muslim separatist movement in the southern Philippines is one such conflict Following decades of discontent and sporadic violence armed conflict broke out in late 1972 when the Moro National Liberation Front MNLF launched coordinated attacks against the government Following a failed peace agreement in 1976 divisions began to form within the MNLF and in 1984 the Moro Islamic Liberation Front MILF was established The MILF as the name indicates placed more emphasis on Islam In 1991 the radical Abu Sayyaf group ASG broke off from the MNLF claiming as its main purpose the establishment of an Islamic state By the mid 1990s what had originated as a nationalistic struggle advocating the concept of the Moro identity had evolved and produced two increasingly radical groups After conducting a diachronic comparative analysis this thesis concludes contemporary radical Islam in the southern Philippines is a fusion of both traditionalism and globalization Furthermore the causal factors evolved with respect to each group's ideology objectives and tactics Whereas the MILF was more representative of the legacy of traditional Islam the ASG was much more a product of globalization

Coping with Terrorism Rafael Reuveny, William R. Thompson, 2010-11-05 Terrorism is imprinted on Western society's consciousness Nearly every week a terrorist attack occurs in the world The academic world in attempting to understand terrorism has often been limited to descriptive work rather than analysis and has produced surprisingly few mainstream collections on the subject Coping with Terrorism offers a collection of essays that ask who are terrorists what are their goals

who supports them and how can we combat their tactics The essays are scholarly rather than journalistic or ideological in their approach As such they scrutinize a much discussed and prevalent subject and bring it into the mainstream for international relations This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7125>

Understanding Insurgent Resilience Andrew Henshaw, 2020-07-30 This book examines terrorist and insurgent organisations and seeks to understand how such groups persist for so long while introducing a new strategic doctrine for countering these organisations The work discusses whether familial or meritocratic insurgencies are more resilient to counterinsurgency pressures It argues that it is not the type of organization that determines resilience but rather the efficiency functions of social capital and trust which have different natures and forms within them It finds that while familial insurgencies can challenge incumbents from the start they weaken over time whereas meritocracies will generally strengthen The book examines four of the most enduring and lethal insurgent organizations the Haqqani Network in Afghanistan Lashkar e Taiba in Pakistan Jemaah Islamiyah in Indonesia and the Abu Sayyaf in the Philippines The author breaks down each group into its formative strengths and vulnerabilities and presents a bespoke model of strategic counterintelligence that can be used to manipulate degrade and destroy each organization This book will be of much interest to students of counterinsurgency terrorism intelligence security and defence studies in general
