methods enhanced by globalization and technological advances pose serious threats to global stability Primakov expresses grave concern over the likelihood that independent terrorist organizations will obtain weapons of mass destruction More than 100 nations are stockpiling nuclear material he writes and there is no reason to believe that all of it is well managed or protected A terrorist group intent on developing a weapon can easily find the information and fissile material to develop a compact nuclear device He recommends that the global community develop a comprehensive Charter on Terrorism to facilitate criminal prosecution of terrorism And he urges Russia and the United States to join forces more readily to share information and intelligence about emerging terrorist threats

Terror and Consent Philip Bobbitt, 2013-04-04 The wars against terror have begun but it will take some time before the nature and composition of these wars is widely understood The objective of these wars is not the conquest of territory or the silencing of any particular ideology but rather to secure the necessary environment for states to operate according to principles of consent and make it impossible for our enemies to impose or induce states of terror *Terror and Consent* argues that like so many states and civilizations in the past that suffered defeat we are fighting the last war with weapons and concepts that were useful to us then but have now been superseded Philip Bobbitt argues that we need to reforge links that previous societies have made between law and strategy to realize how the evolution of modern states has now produced a globally networked terrorism that will change as fast as we can identify it to combine humanitarian interests with strategies of intervention and above all to rethink what victory in such a war if it is a war might look like no occupied capitals no treaties no victory parades but the preservation protection and defence of states of consent This is one of the most challenging and wide ranging books of any kind about our modern world
