Terrorismo Global:

Jihadism, Foreign Fighters and Radicalization in the EU Inmaculada Marrero Rocha, Humberto Trujillo Mendoza, 2018-11-20 Jihadism Foreign Fighters and Radicalization in the EU addresses the organizational and strategic changes in terrorism in Europe as a result of urban jihadism and the influx of foreign fighters of European nationality or residence Examining the different types of responses to the treatment of radicalization and its consequences in the recruitment of young urban fighters and jihadists this book offers a framework for understanding the process of violent radicalization It critically analyses political and legal responses that have taken place within the European framework whilst also examining a series of functional responses from social and behavioural psychology This book then goes on to develop an explanatory model from an economic standpoint exploring the need to adapt the fight against the financing of terrorism to the changes in the sources of financing jihadist cells and foreign fighters Furthermore the volume draws on experience from the prison sector to assess the process of radicalization and the possibilities of intervention Taking an interdisciplinary approach this book will be of great interest to students of terrorism and counter terrorism radicalization European politics radical Islam and security studies

Prisons, Terrorism and Extremism Andrew Silke, 2014-02-18 This volume provides an overview of intervention and management strategies for dealing with terrorist and extremist offenders in prisons The management of terrorist and extremist prisoners has long been recognised as a difficult problem in prisons In most countries such offenders are relatively rare but when their numbers increase these prisoners can undermine the effectiveness and safety of the prison system At a global level there is an increasing recognition of the problem of militant jihadi extremists in prison and their ability to recruit new members among other prisoners The numbers of such prisoners are low but growing and as a result prisons are becoming centres of radicalisation indeed in some cases terrorist plots appear to have been based entirely on networks that were radicalised in prison This volume presents an expertly informed assessment of what we know about terrorists extremists and prison exploring the experience of a wide range of countries and of different political movements Drawing critical lessons from historical case studies the book examines critical issues around management strategies radicalisation and deradicalisation reform risk assessment as well as post release experiences The role that prisoners play in the conflicts beyond the jail walls is also examined with case studies illustrating how prisoners can play a critical role in bringing about a peace process or alternatively in sustaining or even escalating campaigns of violence Written by leading experts in the field this volume will be of much interest to students of terrorism counter terrorism criminology security studies and IR in general

Reforming the intelligence agencies is essential when a state transitions from authoritarianism to democracy. But what kinds of reforms matter how do we know when there has been transformation and how and where do authoritarian legacies persist? Sofia Tzamarelou conducts a comparative examination of three cases: the democratic transitions of Portugal, Greece and Spain during the 1970s. She draws important conclusions about how to ensure thorough reform and what happens when intelligence democratization is incomplete. She does this through the lens of five Security Sector Reform (SSR) indicators: Lustration, Control, Oversight, Collection, Recruitment and Civil Society. Although these three European countries started their transition around the same time they present significantly different results. Legacies of the past and legacy personnel emerge as the main barriers to reform. Other important findings are the relationship between consumers and producers of intelligence and the role of civil society. The study is unique due to the source material used: the countries studied and its comparative framework for the study of intelligence democratization.

A Dynamic Theory of Populism in Power Julio F. Carrión, 2021-07-19. In *A Dynamic Theory of Populism in Power* Julio F. Carrión examines the relationship between populism in power and democracy. He studies five Latin American populist presidencies and explains why and how democracy perished under four of them but survived in one. Carrión also develops a theory that accounts for changes in the balance of power between the executive, the legislature and the judiciary and distinguishes between unconstrained and contained populism in power. Al-Qaeda's Post-9/11 Devolution Anthony Celso, 2014-02-27. This examination of al-Qaeda's decline since the 9/11 attacks focuses on the terrorist organization's mutation and fragmentation. It looks at its partnership with the local and regional jihadist networks that played

a pivotal role in the Madrid London and Fort Hood attacks arguing that although initially successful such alliances actually unraveled following both anti terror policies and a growing rejection of violent jihadism in the Muslim world Challenging conventional theories about al Qaeda and homegrown terrorism the book claims that jihadist attacks are now organized by overlapping international and regional networks that have become frustrated in their inability to enforce regime change and their ideological goals The discussion spans the war on terror analyzing major post 9 11 attacks the failed jihadist struggle in Iraq al Qaeda s affiliates and the organization s future prospects after the death of Osama Bin Laden and the Arab Spring This assessment of the future of the jihadist struggle against Muslim governments and homegrown Islamic terrorism in the West will be an invaluable resource to anyone studying terrorism and Islamic extremism **Organised Criminal**
