Test Item File For Social Problems

Julia Schneider

Test Item File For Social Problems:

Social Problems John J. Macionis, 2005 Macionis's *Social Problems* is the only social problems text that explains how society frames social problems and solutions through politics. The text analyzes social issues and policies using the concepts of sociological theory and the everyday language of politics. This text helps students understand the attitudes and values that define the political spectrum in the United States. Once students know how social problems are defined by our society through politics and how the policies to solve these problems are developed, students are able to become involved in solving social problems through activism and political involvement.
