Test Tube Women:

Test-Tube Women Rita Arditti, Renate Duelli Klein, Shelley Minden, 2024-11-20 Originally published in 1984 when new reproductive technologies were just beginning to become part of the public discussion this edition was published with a new preface in 1989 The Editors wanted to look carefully at how much real choice reproductive technologies offered to women Genetic engineering sperm banks test tube fertilization sex selection surrogate mothering experimentation in the so called third world increased technological intervention in childbirth were we taking pregnancy and the birth process out of the dark ages or into a terrifying brave new world They ask who controls it Who benefits The technological machine grinds on in headline grabbing leaps or in quiet developments in research laboratories but what are the implications for women worldwide Still a huge industry today this reissue can be read in its historical context Man-Made Women Gena Corea, Renate Duelli Klein, Jalna Hanmer, Helen B. Holmes, Betty Hoskins, Madhu Kishwar, Janice Raymond, Robyn Rowland, Roberta Steinbacher, 2024-11-20 In the early 1980s the new reproductive technologies available supposedly offered infertile women a chance to have children However there was growing concern that the determination of scientists to dominate nature their disregard for women's well being and the financial gains to be made from these technologies would together result in the increased modification of all women's lives and the loss of even more control over our own bodies Originally published in 1985 the essays in Man Made Women describe the technologies being used and researched in the areas of in vitro fertilization test tube babies sex predetermination and embryo transfer at the time They discuss the practical application of the technologies on an international scale and draw attention to the racist and classist assumptions on which they are based There is also information about the international action that feminists had begun to counter these so called benevolent and therapeutic technologies Man Made Women hoped to encourage women to start questioning the miracle of these new reproductive technologies and to become involved in crucial decisions about their bodies and their lives

Women and Prenatal Testing Karen H. Rothenberg, Elizabeth Jean Thomson, 1994 For pregnant women in the 1990s technological developments have ushered in new and expanding reproductive genetic testing options Some herald these procedures as advances providing women with previously unavailable information about their pregnancies Others contend that with this surge of information come increasing and perhaps unwarranted obligations while some women have greater knowledge about their pregnancies they also face far more complex decisions and a greater pressure to do as much as is technologically possible to ensure the birth of a healthy child This book focuses on the major women's issues surrounding the development and application of reproductive genetic testing Although much has been written about the biological safety and efficacy of these technologies few publications have addressed their psychological sociocultural ethical legal and political impact on women and their experience of pregnancy The first of three sections provides the contextual framework in which the debate should be analyzed The second section sets forth the philosophical foundations and complex ethical and legal

questions that need to be addressed and the final section delineates a variety of perspectives on the psychological and sociocultural issues raised by reproductive genetic testing These fourteen essays on the cutting edge of the debate are essential reading for anyone interested in women s studies human genetics health law and bioethics and prenatal care providers

Women's Agency in the Dune Universe Kara Kennedy,2022-01-01 This book undertakes the first large scale analysis of women s agency in Frank Herbert s six book science fiction Dune series Kara Kennedy explores how female characters in the Bene Gesserit Sisterhood from Jessica to Darwi Odrade secure control and influence through five avenues of embodied agency mind body synergy reproduction and motherhood voices education and memory and sexuality She also discusses constraints on their agency tensions between individual and collective action and comparisons with other characters including the Mentats Bene Tleilaxu and Honored Matres The book engages with second wave feminist theories and historical issues to highlight how the series anticipated and paralleled developments in the women s liberation movement In this context it addresses issues regarding sexual difference and solidarity as well as women s demand to have control over their bodies Kennedy concludes that the series should be acknowledged as a significant contribution to the genre as part of both New Wave and feminist science fiction

Pregnancy & Child Care Dr. Satish Goel, **Ethics Of In Vitro Fertilisation** Tony Dyson,1994-12-01 Our Choices is a series which introduces specific subjects of concern and controversy within Christian ethics to a wide variety of readers Each subject is approached at a serious level but technical language is avoided The books should be useful in introductory seminary programmes in programmes for congregational development and also to individuals seeking information and guidance within their Christian life On 25th July 1978 Louise Brown the first test tube baby was born This event captured the public imagination and made the ethical issues surrounding artificial fertilization and embryology impossible to ignore In this text Tony Dyson examines the religious and moral implications for the individual and for society of this and other reproductive technologies

Evaluating Women's Health Messages Roxanne Louiselle Parrott,Celeste Michelle Condit,1996-02 The increased attention currently being paid to women s reproductive health issues has produced a corresponding interest in the role that communication plays in promoting better health care Groundbreaking and comprehensive this book is the first systematic examination of the major types and forms of messages about women s reproductive health medical social scientific and public and the degree to which these messages compare with and contradict each other Within the broad framework of communication a range of women s health issues are examined in this book from political historical technological and feminist perspectives The issues examined include abortion infertility drug and alcohol use in pregnancy childbirth AIDS menst

Embodying Culture Tsipy Ivry,2009-09-30 Embodying Culture is an ethnographically grounded exploration of pregnancy in two different cultures Japan and Israel both of which medicalize pregnancy Tsipy Ivry focuses on low risk or normal pregnancies using cultural comparison to explore the complex relations

among ethnic ideas about procreation local reproductive politics medical models of pregnancy care and local modes of maternal agency The ethnography pieces together the voices of pregnant Japanese and Israeli women their doctors their partners the literature they read and depicts various clinical encounters such as ultrasound scans explanatory classes for amniocentesis birthing classes and special pregnancy events The emergent pictures suggest that although experiences of pregnancy in Japan and Israel differ pregnancy in both cultures is an energy consuming project of meaning making suggesting that the sense of biomedical technologies are not only in the technologies themselves but are assigned by those who practice and experience them

Feminists and State Welfare (RLE Feminist Theory) JENNIFER DALE, PEGGY FOSTER, 2012-11-12 Designed for students of social policy and women's studies this text gives a readable account of the wide range of feminist ideas about women and welfare The authors draw on feminist theory research and analysis to explore women's experiences of welfare and the debates within feminism on how and why the welfare state oppresses women In an original contribution they discuss women's impact on the development of the welfare state both as feminist campaigners and as pioneers of new welfare professions The book concludes by reviewing contemporary feminist strategies to transform the welfare state to meet women's needs Whilst the authors put forward their own evaluation of these different feminist approaches they aim to leave readers with plenty of scope to make up their own minds on the issues Routledge Library

Editions: Feminist Theory Various, 2021-04-28 Routledge Library Editions Feminist Theory brings together as one set or individual volumes a series of previously out of print classics from a variety of academic imprints With titles ranging from The Liberation of Women to Feminists and State Welfare from Married to the Job to Julia Kristeva this set provides in one place a wealth of important reference sources from the diverse field of gender studies The Political Geographies of Pregnancy

Laura R. Woliver, 2010-10-01 A searing study of how modern reproductive politics shapes women's bodily agency Pregnancy indisputably takes place within a woman's body But as reproductive power finds its way into the hands of medical professionals lobbyists and policymakers the geographies of pregnancy are shifting and the boundaries need to be redrawn argues Laura R Woliver The Political Geographies of Pregnancy is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption surrogacy arrangements new reproductive technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women's struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women's perspectives in discussions about

legislation and advancements in reproductive technologies

Knowledge as Resistance Stevienna de Saille, 2017-11-27

This book presents a historicised account of the Feminist International Network of Resistance to Reproductive and Genetic Engineering FINRRAGE a coordinated effort during the 1980s and 1990s by an international group of women to create and disseminate feminist knowledge about the then new field of reproductive technologies Bringing insights from science and technology studies together with social movements and feminist theory it seeks to examine larger questions about knowledge and expertise in activist engagements with rapidly developing technologies as well as explore an important and neglected episode of feminist history Its findings will be relevant to scholars in science studies gender and women s studies and social movements as well as to anyone with an interest in reproductive technologies and the history of feminist activism

Parental Kidnapping Patricia M. Hoff, 1988

Motherhood in Literature and Culture Gill Rye, Victoria

Browne, Adalgisa Giorgio, Emily Jeremiah, Abigail Lee Six, 2017-06-26 Motherhood remains a complex and contested issue in feminist research as well as public discussion This interdisciplinary volume explores cultural representations of motherhood in various contemporary European contexts including France Italy Germany Portugal Spain and the UK and it considers how such representations affect the ways in which different individuals and groups negotiate motherhood as both institution and lived experience It has a particular focus on literature but it also includes essays that examine representations of motherhood in philosophy art social policy and film The book s driving contention is that through intersecting with other fields and disciplines literature and the study of literature have an important role to play in nuancing dialogues around motherhood by offering challenging insights and imaginative responses to complex problems and experiences This is demonstrated throughout the volume which covers a range of topics including discursive and visual depictions of pregnancy and birth the impact of new reproductive technologies on changing family configurations the relationship between mothering and citizenship the shaping of policy imperatives regarding mothering and disability and the difficult realities of miscarriage child death violence and infanticide The collection expands and complicates hegemonic notions of motherhood as the authors map and analyse shifting conceptions of maternal subjectivity and embodiment explore some of the constraining and or enabling contexts in which mothering takes place and ask searching questions about what it means to be a mother in Europe today It will be of interest not only to those working in gender women s and feminist studies but also to scholars in literary and cultural studies and those researching in sociology criminology politics psychology medical ethics midwifery and related fields

Healing Technology Kathryn Strother Ratcliff, 1989 Provides a framework for understanding forces that produce and promote technologies that affect women s health

Genetic Counselling Angus Clarke, 2006-12-05 Contributions to

this study are drawn both from health professionals engaged in genetic counselling and from observers and critics with backgrounds in law philosophy biology and the social sciences This diversity will enable health professionals to examine their activities with a fresh eye and will help the observer critic to understand the ethical problems that arise in genetic

counselling practice rather than in imaginary encounters Most examinations of the ethical issues raised by genetics are concerned in a broad sense with the application of new technology to human reproduction This volume focuses on genetic counselling and screening as such providing valuable insights for the health professional social scientist philosopher lawyer and bioethicist *Cyborg Babies* Robbie Davis-Floyd, Joseph Dumit, 2013-08-21 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company *Radically Speaking* Diane Bell, Renate Klein, 1996 The contributors to *Radically Speaking* show that a radical feminist analysis cuts across class race sexuality region religion and across the generations It is essential reading for Women s Studies sociology cultural studies and anyone interested in processes of social change The collection reveals the global reach of radical feminism and analyze the causes and solutions to patriarchal oppression Seventy writers discuss their ideas and practice of contemporary feminism **Technologies of the Gendered Body** Anne Marie Balsamo, 1996 This book looks at the representation of the body in culture from a feminist perspective Subjects covered include bodybuilding cosmetic surgery and cyberculture *Birth as an American Rite of Passage* Robbie Davis-Floyd, 2022-05-05 This classic book first published in 1992 and again in 2003 has inspired three generations of childbearing people birth activists and researchers and birth practitioners midwives doulas nurses and obstetricians to take a fresh look at the standard procedures that are routinely used to manage American childbirth It was the first book to identify these non evidence based obstetric interventions as rituals that enact and transmit the core values of the American technocracy thereby answering the pressing question of why these interventions continue to be performed despite all evidence to the contrary This third edition brings together Davis Floyd s insights into the intense ritualization of labor and birth and the technocratic humanistic and holistic models of birth with new data collected in recent years
