Testimonies From The Columbian Lawsuits:

Testimonies from the Columbian Lawsuits William D. Phillips,2000 The Critics of Columbus Richard Di Giacomo,2025-05-01 The character and conduct of Christopher Columbus has come under more criticism than almost any other historical figure This book will outline the various forms of attack upon Columbus over the centuries This is what I call the Columbus conspiracy It is a systematic attempt to assassinate the character of Columbus by a long line of people not working in conjunction but nonetheless building upon one another cumulatively over the years From the contemporary enemies of Columbus who sought to steal his glory and his wealth to later historians who sought to impugn his reputation in response to the hero worship that grew up around him in the 19th and 20th centuries Every aspect of Columbus life has come under attack from his origins his study and preparations his proposals for the great ventures of exploration his claims of discovering America first his conduct towards the Native Americans and the Spanish settlers his endless quest to find gold the nature and primacy of what he discovered and his role in the history of slavery genocide and environmental destruction His legacy has been contested in a literal legal sense in a lawsuit between his heirs and those who wanted to steal his fame and wealth These appeared in the Pleitos Colombinos or Columbian Lawsuits which are examined in this context in detail for the first time in this book It has also been contested in the literary and historical sense by a long succession of historians which has sought to make a name for themselves by digging up more dirt on Columbus and further discrediting him Columbus has been called a lowborn uneducated imposter pirate usurper rapist mass murderer poor sailor accidental discoverer bumbling fool tyrant liar greedy gold hunter religious fanatic hypocrite evil slaver bloodthirsty and indiscriminate killer and raving lunatic This is just to name a few of the attacks made on him It is difficult to understand why a single man has drawn such opprobrium when similar contemporary historical figures are not as harshly criticized It is equally difficult to understand why Columbus has been singled out as the sole individual origin of the sins of an entire generation in first exploiting and then wiping out the Native Americans that he encountered All of the various attacks on Columbus over the centuries will be discussed in this work and thoughtful and well researched rebuttals will be given to them including to some of the most outrageous and unfair claims The purpose of this book is not to defend Columbus but to call for a more mature and balanced treatment of him by historians and the general public This is not merely a Columbus apologist treatment It is a plea that Columbus be understood in the context of his times and that his accomplishments be given equal weight with his faults **Columbus and His First Voyage** James E. Wadsworth,2016-10-06 What happened on Columbus s first voyage across the Atlantic Who was responsible for the success of that voyage How do we know These questions were debated in the courts of Spain for decades after 1492 Some of those who sailed with Columbus left very different accounts as recorded in those trial records Their competing voices have long been silenced by the deafening crescendo of Columbus s own narrative a narrative riddled with contradictions and inconsistencies that beg to be explained This documentary history allows the

reader to encounter the founding documents of the Columbus story as well as the voices that dared to challenge it even in his own day What these documents reveal forces us to re imagine Columbus and his voyage in surprising ways Columbus and His First Voyage brings together for the first time the two contemporary versions of what happened on the first voyage the Columbian narrative and the Pinz n narrative and embeds them in a thorough introduction to Columbus his first voyage and the myths that surround this pivotal event in the history of the modern world Columbus Laurence Bergreen,2012-09-25 He knew nothing of celestial navigation or of the existence of the Pacific Ocean He was a self promoting and ambitious entrepreneur His maps were a hybrid of fantasy and delusion When he did make land he enslaved the populace he found encouraged genocide and polluted relations between peoples He ended his career in near lunacy But Columbus had one asset that made all the difference an inborn sense of the sea of wind and weather and of selecting the optimal course to get from A to B Laurence Bergreen s energetic and bracing book gives the whole Columbus and most importantly the whole of his career not just the highlight of 1492 Columbus undertook three more voyages between 1494 and 1504 each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity By their conclusion Columbus was broken in body and spirit a hero undone by the tragic flaw of pride If the first voyage illustrates the rewards of exploration this book shows how the subsequent voyages illustrate the costs political moral and economic

Christopher Columbus and the Enterprise of the Indies NA NA,2016-09-23 In 1492 previously separate worlds collided and began to merge often painfully into the world system in which we live today Columbus s four Atlantic voyages 1492 1504 helped link Africa Europe and the Americas in a conflicted economic and cultural symbiosis These carefully selected documents describe the voyages and their immediate impact on Europe and the indigenous peoples of the Caribbean Symcox and Sullivan s engaging introduction presents Columbus as neither hero nor villain but as a significant historical actor who improvised responses to a changed world Document headnotes provide context for understanding Columbus s voyages within the broader context of fifteenth century Europe and the policies of the Spanish crown Maps illustrations a chronology questions for consideration and a selected bibliography invite students to analyze and interpret the documents

Western Fictions, Black Realities Isabel Soto,Violet Showers Johnson,2012-06-01 This anthology interrogates two salient concepts in studying the black experience Ushered in with the age of New World encounters modernity emerged as brutal and complex from its very definition to its manifestations Equally challenging is blackness which is forever dangling between the range of uplifting articulations and insidious degradation The essays in Western Fictions address the conflicting confluences of these two terms Questioning Eurocentric and mainstream American interpretations they reveal the diverse meanings of modernities and blackness from a wide range of milieus of the black experience Interdisciplinary and wide ranging in thematic and epochal scope they use theoretical and empirical studies of a range of subjects to demonstrate that indeed blackness is relevant for understanding modernities and vice versa

The East and West in Late Medieval Travel Writings Na Chang,2024-10-07 This book traces the history of encounter between Eastern and Western cultures by closely examining a body of medieval travel writings penned or related by Europeans and by inhabitants of East Asia Whilst these texts are usually considered in the context of kindred European or Chinese literature this study will make a case for considering them as a common literature of medieval encounters with foreign people For the modern historian writing in a world that so consciously thinks of itself as global these accounts offer a precious lens through which to enter into the world before globalization In particular the book shows that these narratives show the similarity in how Eastern and Western travellers thought and behaved in the face of difference and will show that individuals often held somewhat different views shaped by their particular experience or agendas than those of their government or of local cultural convention

Henricus Martellus's World Map at Yale (c. 1491) Chet Van Duzer,2018-08-03 This book presents groundbreaking new research on a fifteenth century world map by Henricus Martellus c 1491 now at Yale The importance of the map had long been suspected but it was essentially unstudiable because the texts on it had faded to

illegibility Multispectral imaging of the map performed with NEH support in 2014 rendered its texts legible for the first time leading to renewed study of the map by the author This volume provides transcriptions translations and commentary on the Latin texts on the map particularly their sources as well as the place names in several regions This leads to a demonstration of a very close relationship between the Martellus map and Martin Waldseemüller's famous map of 1507 One of the most exciting discoveries on the map is in the hinterlands of southern Africa The information there comes from African sources the map is thus a unique and supremely important document regarding African cartography in the fifteenth century This book is essential reading for digital humanitarians and historians of cartography *The Race to the New World* Douglas

Hunter,2011-09-13 The final decade of the fifteenth century was a turning point in world history The Genoese mariner Christopher Columbus sailed westward on the Atlantic Ocean in 1492 famously determined to discover for Spain a shorter and more direct route to the riches of the Indies Meanwhile a fellow Italian explorer for hire John Cabot set off on his own journey under England's flag Here Douglas Hunter tells the fascinating tale of how during this expedition Columbus gained a rival In the space of a few critical years these two men engaged in a high stakes race that threatened the precarious diplomatic balance of Europe to exploit what they believed was a shortcut to staggering wealth Instead they found a New World that neither was looking for Hunter provides a revelatory look at how the lives of Columbus and Cabot were interconnected and how neither explorer can be understood properly without understanding both Together Cabot and Columbus provide a novel and important perspective on the first years of European experience of the New World Tropical Babel Stuart B. Schwartz,2004 Tropical Babel explores the early development of the sugar industry across the Atlantic world using case studies from Iberia Brazil islands of the Caribbean of the Atlantic itself to illustrate the differences in technology plantation management the social consequences of the sugar revolution **Flattening the Medieval Earth**

Pablo de Felipe,2025-08-08 **Flattening the Medieval Earth** explores the origin of the flat earth i.e. the false accusation that ancient and medieval Christians believed in a flat Earth and what this implies in terms of a conflict between science and Christianity Engaging with scientific and religious debates this book includes a reception study of two key figures of the 4th century AD Lactantius and Augustine This study demonstrates that the mistaken dark image of medieval scholars as flat earthers started very early c 1600 as an internal Christian debate in the context of new geographical and astronomical views The author draws on extensive research including many primary and secondary sources from different countries and languages not previously put into conversation Combining history of science church history science and religion history of navigation and historiography this book gives the most updated explanation of the origin of the flat earth finding paradoxes and unexpected answers along the way to understand the past and to reflect on some current approaches in science and religion **Seascapes** Jerry H. Bentley,Renate Bridenthal,Kären Wigen,2007-04-30 Historians have only recently begun to chart the experiences of maritime regions in rich detail and penetrate the historical processes at work there **Seascapes**

makes a major contribution to these efforts by bringing together original scholarship on historical issues arising from maritime regions around the world The essays presented here take a variety of approaches One group examines the material cultural and intellectual constructs that inform and explain historical experiences of maritime regions Another set discusses efforts some more successful than others to impose political and military control over maritime regions A third group focuses on issues of social history such as labor organization information flows and the development of political consciousness among subaltern populations The final essays deal with pirates and efforts to control them in Mediterranean Japanese and Atlantic waters

of worker voice configured in a variety of ways across the English speaking common law world This book comprises contributions from many leading scholars of labour law politics and industrial relations drawn from across the jurisdictions and is therefore an exceedingly comprehensive comparative study It is addressed to academics policymakers legal practitioners legislative drafters trade unions and interest groups alike Additionally while offering a critique of existing laws this book proposes alternative legal tools to promote engagement with a multitude of voices at work and therefore foster the effective deployment of law in industrial relations

Italian Reports on America, 1493-1522 Geoffrey Symcox, 2002 This volume brings together twenty one contemporary descriptions of the Americas written by a variety of Italian observers in the generation following Columbus s first voyage The authors range from diarists recording noteworthy events to merchants relating items of news they had heard from their commercial contacts to the reflections of prelates government officials and scholars Among these accounts an early version of the humanist Peter Martyr s account of America pirated by a Venetian diplomat Angelo Trevisan figures prominently along with Michele da Cuneo s vivid memoir of Columbus s second voyage These documents illustrate the European reaction to the undreamed of social political and natural world revealed by the Columbian voyages and the wonder curiosity and frequent misapprehension that this exotic new reality provoked This volume thus forms a companion to volume 10 of the Repertorium Columbianum series Italian Reports on America 1493 1522 Letters Dispatches and Papal Bulls which presented a parallel selection of governmental documents covering the same period of the initial encounter between Europe and the New World
