## Texas Fever:

Texas fever University of Missouri, 1897      Texas Or Tick Fever John Robbins Mohler, 1928      **Texas Fever** John Waldo Connaway, 1899      Environmental History and the American South Paul Sutter, Christopher J. Manganiello, 2009 This reader gathers fifteen of the most important essays written in the field of southern environmental history over the past decade. Ideal for course use, the volume provides a convenient entrance into the recent literature on the region as it indicates the variety of directions in which the field is growing. As coeditor Paul S. Sutter writes in his introduction, recent trends in environmental historiography—a renewed emphasis on agricultural landscapes and their hybridity, attention to the social and racial histories of environmental thought and practice, and connections between health and the environment among them—have made the South newly attractive terrain. This volume suggests then that southern environmental history has not only arrived but also that it may prove an important space for the growth of the larger environmental history enterprise. The writings, which range in setting from the Texas plains to the Carolina Lowcountry, address a multiplicity of topics such as husbandry practices in the Chesapeake colonies and the aftermath of Hurricane Andrew. The contributors' varied disciplinary perspectives, including agricultural history, geography, the history of science, the history of technology, military history, colonial American history, urban and regional planning history, and ethnohistory, also point to the field's vitality. Conveying the breadth, diversity, and liveliness of this maturing area of study, *Environmental History and the American South* affirms the critical importance of human environmental interactions to the history and culture of the region. Contributors: Virginia DeJohn Anderson, William Boyd, Lisa Brady, Joshua Blu Buhs, Judith Carney, James Taylor Carson, Craig E. Colten, S. Max Edelson, Jack Temple Kirby, Ralph H. Lutts, Eileen Maura McGurty, Ted Steinberg, Mart Stewart, Claire Strom, Paul Sutter, Harry Watson, Albert G. Way.      Bulletin, 1905      *Texas Fever (Southern Cattle Fever, Etc.)*. University of Missouri. Agricultural Experiment Station, 1890      *Text book of veterinary medicine*. v. 5, 1909 James Law, 1909      *Texas Fever* William Haddock Dalrymple, 1905      **Farmers' Bulletin**, 1915      *Making Catfish Bait Out of Government Boys* Claire Strom, 2010 This first full-length study of the cattle tick eradication program in the United States offers a new perspective on the fate of the yeomanry in the twentieth-century South during a period when state and federal governments were both increasing and centralizing their authority. As Claire Strom relates the power struggles that complicated efforts to wipe out the *Boophilus* tick, she explains the motivations and concerns of each group involved, including large and small-scale cattle farmers, scientists, and officials at all levels of government. In the remote rural South, such as the piney woods of south Georgia and north Florida, resistance to mandatory treatment of cattle was unusually strong and sometimes violent. Cattle often ranged free, and their owners raised them mostly for local use rather than faraway markets. Cattle farmers in such areas, Strom perceived, faced a double threat in tick eradication mandates. In addition to their added costs, eradication schemes with their top-down imposition of government expertise were anathema to the yeomanry's notions of liberty. Strom contextualizes her southern focus within the national

scale of the cattle industry discussing for instance the contentious place of cattle drives in American agricultural history Because Mexico was the primary source of potential tick reinfestation Strom examines the political and environmental history of the Rio Grande giving the book a transnational perspective Debates about the political and economic culture of small farmers have tended to focus on earlier periods in American history Here Strom shows that pockets of yeoman culture survived into the twentieth century and that these communities had the power to block if only temporarily the expansion of the American state The Known History of Texas Fever John Aloysius McNamara,1904 Bulletin United States. Bureau of Animal Industry,1893 **Bulletin** University of Missouri--Columbia. Agricultural Experiment Station,1888

*Announcement to Farmers ; The So-called "Hatch Bill" ; Assent of Governor ; Plan of Organization ; Work and Experiments Proposed this Season ; Personnel of Station* Jeremiah Wilson Sanborn,John W. Clark,Paul Paquin,Paul Schweitzer,1888 **Experiment Station Work, XXXIV** ,1906 *The Cultivation of American Ginseng* Walter Van Fleet,1915 Soil Fertility C. L. Marlatt,Carleton Roy Ball,Edgar Brown,Edwin Harrison Webster,J. W. T. Duvel,John Robbins Mohler,Lee Cleveland Corbett,Maria Parloa,Milton Whitney,Walter Tennyson Swingle,William Fairchild Hubbard,William Jasper Spillman,William Renwick Beattie,F. H. Hillman,William Allen Orton,1905 To build up and maintain fertility in the soil feed a large part of the crops and return the manure to the land If manure is not available plow under crops grown for the purpose Plow deep but do not subsoil Grow leguminous crops for the nitrogen they add to the soil Commercial fertilizers and lime may be important means of improving the soil but the fertilizer requirements of different soils and different crops in different seasons are so little understood that we are not yet in a position to make positive recommendations that are of a general application *Biennial Report* Louisiana.
