**State** Wayne Thorburn,2014-09-01 A political scientist and Republican party insider examines how Texas made its dramatic shift from Democratic stronghold to GOP dominance In November 1960 the Democratic party dominated Texas Democrats held all thirty statewide elective positions as well as the entire state legislature Fifty years later this stronghold had not only been lost it had reversed In November 2010 Republicans controlled every statewide elective office as well as the Texas Senate and House of Representatives The state s congressional delegation in Washington was comprised of twenty five Republicans and nine Democrats Red State explores why this transformation took place and what these changes imply for the future of Texas politics Wayne Thorburn analyzes a wealth of data to show how changes in the state s demographics including an influx of new residents the shift from rural to urban and the growth of the Mexican American population have moved Texas through three stages of party competition from two tiered politics to two party competition and then to the return to one party dominance this time by Republicans Thorburn reveals that the shift from Democratic to Republican governance has been driven not by any change in Texans ideological perspective or public policy orientation even when Texans were voting Democrat conservatives outnumbered liberals or moderates but by the Republican party s increasing identification with conservatism since 1960      *The Latina Advantage* Christina E. Bejarano,2013-09-01 During the past decade racial ethnic minority women have made significant strides in U S politics comprising large portions of their respective minority delegations both in Congress and in state legislatures This trend has been particularly evident in the growing political presence of Latinas yet scholars have offered no clear explanations for this electoral phenomenon until now In *The Latina Advantage* Christina E Bejarano draws on national public opinion datasets and a close examination of state legislative candidates in Texas and California to demonstrate the new power of the political intersection between race and

gender Underscoring the fact that racial ethnic minority women form a greater share of minority representatives than do white women among white elected officials Bejarano provides empirical evidence to substantiate previous theoretical predictions of the strategic advantage in the intersectionality of gender and ethnicity in Latinas Her evidence indicates that two factors provide the basis for the advantage increasingly qualified candidates and the softening of perceived racial threat leading minority female candidates to encounter fewer disadvantages than their male counterparts Overturning the findings of classic literature that reinforce stereotypes and describe minority female political candidates as being at a compounded electoral disadvantage Bejarano brings a crucial new perspective to dialogues about the rapidly shifting face of America s electorate
