Texte Und Varianten Probleme Ihrer Edition Und Interpretation:

Texts in Multiple Versions Luigi Giuliani, Herman Brinkman, Geert Lernout, Marita Mathijsen, 2006 Texts in multiple versions constitute the core problem of textual scholarship For texts from antiquity and the medieval period the many versions may be the result of manuscript transmission requiring editors and readers to discriminate between levels of authority in variant readings produced along the chain of copying For texts of all periods and particularly for more modern authors there may also be multiple authorial versions These are of particular importance for genetic criticism as they offer a window on the author's thinking through the developing work The different contexts in which multiple versions may occur different languages different genres different cultures ranging in this collection from ancient Greek texts to novels by Cervantes and Aub dramatic texts from Portugal and Germany poetry from The Netherlands and Lithuania scientific texts from the 19th century provide further layers of complexity The histories of countries are reflected in the histories of editing In Europe this can be seen particularly in the great period of nation building of the 19th century Essays in this volume survey editorial activity in The Netherlands Belgium and Germany in the nineteenth century concluding that nation building and scholarly editing are twinned As a nation searches for its own identity textual scholarship is pressed into service to find and edit the texts on which to establish that identity The two strands of this volume multiple versions of texts editions and national histories testify to the centrality of textual editing to many fields of research There is material here for literary scholars historians and for readers interested in texts from Ancient Greece to modernist classics

Contemporary German Editorial Theory Hans Walter Gabler, George Bornstein, Gillian Borland Pierce, 1995 Gathers the best work on editorial theory in Germany

Genetic Criticism in Motion Sakari Katajamäki, Veijo Pulkkinen, 2023-12-22 Genetic criticism investigates creative processes by analysing manuscripts and other archival sources It sheds light on authors working practices and the ways works are developed on the writer's desk or in the artist's studio This book provides a cross section of current international trends in genetic criticism half a century after the birth of the discipline in Paris The last two decades have witnessed an expansion of the field of study with new kinds of research objects and new forms of archival material along with various kinds of interdisciplinary intersections and new theoretical perspectives The essays in this volume represent various European literary and scholarly traditions discussing creative processes from Polish poetry to French children's literature as well as topical issues such as born digital literature and the application of forensic methodology to manuscript studies The book is intended for scholars and students of literary criticism and textual scholarship together with anyone interested in the working practices of writers illustrators and editors

The Book as Artefact, Text and Border Anne Mette Hansen, 2005 Books do not just contain texts books themselves are cultural artefacts which convey many meanings in their own right meanings which interact with the texts they contain Awareness of the many significances of books as cultural and textual objects reshapes the traditional disciplines of textual theory analytic bibliography codicology and palaeography while

the advent of electronic books and digital methods for representing print books is introducing a new dimension to our understanding. Seven essays in this volume ranging over medieval Portuguese and Swedish manuscripts, eighteenth century Icelandic editions, Australian playtexts, Thackeray and Anita Brookner and Stefan George consider these questions from the broad perspective of textual scholarship. Texts may exist on the borderland of word and not word or they may spring from borderlands of nation or culture or they may be considered from the margins of neighbouring disciplines. So readers must set the texts within contexts to see the play of text against border. Essays in this volume explore different texts against varying backgrounds: Pound's *Cantos*, Joyce's *Ulysses*, Trollope's *An Eye for an Eye*, Woolf's *The Waves* while essays by McGann and Lernout argue the dimensionality of text on the intersection of print and digital media. Implicit in all these essays is the contention that textual scholarship must influence literary interpretation. Two final essays focus directly on this in the cases of Melville's *Moby Dick* and Emily Dickinson's late fragments. An extensive reviews section completes this volume.

Editionen zu deutschsprachigen Autoren als Spiegel der Editions-geschichte Bodo Plachta, 2011-12-22. Der Band versammelt 21 handbuchartig angelegte Beiträge zur Editions-geschichte deutschsprachiger vorwiegend literarischer Autoren sowie einen Überblick über die Geschichte der elektronischen Edition. Unter Einbezug der allgemeinen Geschichte der germanistischen Edition bietet der Band in den einzelnen historischen Längsschnitten sowohl Orientierung in der jeweiligen Ausgabenlandschaft zu einem Autor als auch Verknüpfungen mit den historischen und gegenwärtigen Positionen der Editionsphilologie. Die Beiträge lassen sich somit als Bausteine zu einer größeren Geschichte der Edition verstehen. *Vom Schreiben zum Erzählen* Gabriele Radecke, 2002. Hugo Grotius, De imperio summarum potestatum circa sacra Harm-Jan van Dam, 2022-10-04. This book contains the mature fruit of Hugo Grotius' political thought on church and state. It was finished in 1617 but Grotius' arrest prevented publication. For the first time Grotius' own Latin text is printed here from two manuscripts. It is demonstrated that the claims made by the publisher of the first edition 1647, the source of all subsequent editions, are false. The first critical edition is provided with an extensive introduction, an English translation, a commentary and elaborate indices. In an appendix texts concerning its context and genesis are printed. An earlier draft of *De imperio* was recently discovered. All material from this unpublished work has been integrated here. This fundamental theoretical text, written for an international public, anticipates many views from later Grotian work. The print edition is available as a set of two volumes. 9789004120273. **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01. The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. I. R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine

the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

Hugo Grotius as Apologist for the Christian Religion: A Study of His Work De veritate religionis christianae (1640) J.P. Heering, 2004-04-01 This study deals with Hugo Grotius famous apologetic work *De veritate religionis christianae* the Latin version of a Dutch poem which he wrote in 1620 while imprisoned in Loevestein entitled *Bewijs van den waren godsdienst* The first part of this book examines the genesis of the work and the development of the text The middle sections give an analysis of the motives that led Grotius to write this work and of the sources he most probably used The final chapters examine the notes that Grotius added to his work in 1640 and the reception of the work in the author's lifetime The book is illustrated with several historical drawings and prints of Grotius and his time
