Captives of Conquest Erin Woodruff Stone, 2021-06-11 One of the first books to examine the earliest indigenous slave trade in the Spanish Caribbean Captives of Conquest is one of the first books to examine the earliest indigenous slave trade in the Spanish Caribbean Erin Woodruff Stone shows that the indigenous population of the region did not simply collapse from disease or warfare Rather upwards of 250 000 people were removed through slavery a lucrative business sustained over centuries that formed the foundation of economic legal and religious policies in the Spanish colonies The enslavement of and trade in indigenous peoples was central to the processes of conquest as the search for new sources of Indian slaves propelled much of the early Spanish exploration into Central and South America Once captured some indigenous slaves were shipped to various islands or as far away as Spain to be sold for immediate profit Others became military auxiliaries guides miners pearl divers servants or in the case of women unwilling

sexual partners In all these roles indigenous slaves helped mold the greater Spanish Caribbean Even as the number of African slaves grew in the Americas enslaved Indians did not disappear On the contrary African and Indian slaves worked side by side the methods and practices of both types of slavery influencing one another throughout the centuries Together the two forms of slavery helped create the greater Spanish Caribbean a space and economy founded upon the bondage and coerced labor of both indigenous and African peoples
