Text D. C. Greetham, W. Speed Hill, Peter Shillingsburg, 1996-04 The distinguished annual in interdisciplinary textual studies

Textual Studies and the Common Reader Alexander Pettit, 2000 Textual Studies and the Common Reader collects eleven original essays by editors of literary texts and theorists concerned about the implications of what such editors do The volume's organizing theme is textual studies the domain of which in one contributor's words is the genesis transmission and editing of texts The contributors seek to extend the discussion about textual studies beyond any narrow professional scope thus none of the essays assumes any training in textual studies Also the focus of the book is on the literary genre most familiar to most readers the novel Authors discussed include Willa Cather Joseph Conrad Theodore Dreiser William Faulkner D H Lawrence William Makepeace Thackeray and Mary Wollstonecraft Shelley Many people read literary works but few do so with a steady sense of their constructedness as texts of the ways in which genesis transmission and editing have shaped them as conveyors of meaning This book shows that the experience of reading is more rewarding for such awareness

The Metaphysics of Text Sukanta Chaudhuri, 2010-03-11 This book develops a stimulating new way of looking at texts with case studies from Western and Indian literature

Textual Transgressions David Greetham, 2013-10-28 Both an intellectual autobiography and a chronicle of the ideological and methodological upheaval in textual studies during the last two decades this book presents provocative essays by one of the foremost textual scholars of our day As founder and executive director of the interdisciplinary Society for Textual Scholarship Professor Greetham has had the opportunity to observe and engage with the main players of the textual revolution during its most turbulent years and enlivens his account with revealing character sketches

general bibliography and glossary of critical terms From Text to Literature S. Olsen,A. Pettersson,2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text Adopting an analytic approach the articles attempt to clarify how these concepts govern our thinking about the phenomenon of literature in various ways exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature Textual Scholarship David C. Greetham,2015-10-28 First published in 1994 This fully revised and updated edition of the bestselling Textual Scholarship covers all aspects of textual theory and scholarly editing for students and scholars As the definitive introduction to the skills of textual scholarship the new edition addresses the revolutionary shift from print to digital textuality and subsequent dramatic changes in the emphasis and direction of textual enquiry The Cambridge Companion to Textual Scholarship Neil Fraistat,Julia Flanders,2013-05-09 An introduction to studying and editing texts in all forms from manuscript to digital The Tempest Patrick M. Murphy,2013-10-28 The Tempest Critical Essays traces the history of Shakespeare s controversial late romance from its early reception and adaptation in the seventeenth and eighteenth centuries to the present The volume reprints influential criticism and it also offers eight originalessays which study The Tempest from a variety of contemporary perspectives including cultural materialism feminism deconstruction performance theory and postcolonial studies Unlike recent anthologies about The Tempest which reprint contemporary articles along with a few new essays this volume contains a mixture of old and new materials pertaining to the play s use in the theater and in literary history
