Textual Connections In Acts:

Textual Connections in Acts Stephen H. Levinsohn, 1987

Luke in His Own Words Jenny

Read-Heimerdinger, 2022-05-19 Jenny Read Heimerdinger examines the language of Luke Acts exploring aspects of Luke's use of Greek that traditional approaches have not generally accounted for previously Drawing on contemporary developments in linguistics broadly referred to as discourse analysis Read Heimerdinger emphasises that paying close attention to the context of language is vital to understanding the reasons behind an author's choices Read Heimerdinger applies the tools of discourse analysis to several features of Luke's Greek such as variation in word order the use of the article and fine distinctions between synonyms in order to demonstrate how principles that govern their use subsequently affect exegesis In addition she makes suggestions to account for manuscript variation which in turn have an impact on the editorial choices of Nestle Aland's Greek New Testament

Theology through Community Richard A. Pruitt, 2019-02-14

Since the 1980s renewal scholars have given considerable attention to the role of the believing community in the interpretive process A broad consensus has emerged that a triad involving Scripture the Spirit and the believing community forms a cooperative relationship resulting in theological development followed by commensurate action identified in this research as theological creativity In the context of this research to be creative with theology is to take an existing theological assumption and broaden or adapt it to current circumstances given the Spirit's evidential work and a consensual understanding of Scripture But how does the community negotiate between Spirit and Scripture without subsuming either into its own predilections For Luke the first century community of believers in Acts functions as an indispensable character in the formation of theological creativity This work will demonstrate how Luke positions the community as a character in story form between Spirit and Scripture functioning as a bridge through which its testimony of the Spirit's evidential work and its application of Scripture interact In order to illustrate this balancing act we will use a modified configuration of the triadic notion Spirit Community Scripture

God's Praise and God's Presence

Gabriele G. Braun, 2020-06-19 The main aim of this book is to provide an answer to the question is there a connection between God's people's praise and God's presence The central argument is that Scripture in both Testaments testifies to a correlation between human praise and divine presence This hypothesis has been investigated in the light of contemporary Christian worship culture and the ensuing need for further biblical studies which represents the background for this investigation The study achieves the above aim by applying biblical theology as a discipline and canonical and intertextual models as a method

Texts and Artefacts Larry W.

Hurtado, 2017-11-30 The essays included in this volume present Larry W Hurtado's steadfast analysis of the earliest Christian manuscripts In these chapters Hurtado considers not only standard text critical issues which seek to uncover an earliest possible version of a text but also the very manuscripts that are available to us As one of the pre eminent scholars of the field Hurtado examines often overlooked 2nd and 3rd century artefacts which are among the earliest manuscripts available

drawing fascinating conclusions about the features of early Christianity Divided into two halves the first part of the volume addresses text critical and text historical issues about the textual transmission of various New Testament writings The second part looks at manuscripts as physical and visual artefacts themselves exploring the metadata and sociology of their context and the nature of their first readers for the light cast upon early Christianity Whilst these essays are presented together here as a republished collection Hurtado has made several updates across the collection to draw them together and to reflect on the developing nature of the issues that they address since they were first written

Paul Against the Idols Flavien Pardigon, 2019-02-01 The story of Paul's visit to the city of Athens with its speech delivered before the Areopagus council is one of the best known and most celebrated passages of the Acts of the Apostles Being the only complete example of an apostolic address to pure pagans recorded it has consistently attracted the attention of historians biblical scholars theologians missionaries apologists artists and believers over the centuries Interpretations of the pericope are many and variegated with opinions ranging from deeming the speech to be a foreign body in the New Testament to acclaiming it as the ideal model of translation of the Christian kerygma into a foreign idiom At the heart of the debate is whether the various parts of the speech must be understood as Hellenistic or biblical in nature or both Paul Against the Idols defends and develops an integrated contextual study of the episode Reading the story in its Lukan theological intertextual narrative linguistic and historical context enables an interpretation that accounts for its apparent ambivalence This book thus contributes to the ongoing hermeneutical and exegetical scholarly discussions surrounding this locus classicus and suggests ways in which it can contribute to a Christian theology of religions and missiology
