Textualities Between Hermeneutics And Deconstruction:

Textualities Hugh J. Silverman, 2013-10-28 *Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own. It can be read as a presentation and evaluation of major figures from Heidegger and Merleau-Ponty to Foucault and Derrida with detailed accounts of Nietzsche, Sartre, Levi-Strauss, Barthes, Blanchot, and Kristeva.

Portraits of American Continental Philosophers James R. Watson, 1999 Taken together these intimate self-portraits provide a vibrant overview of the multiplicity and depth of continental philosophy in America. Jacket *Theology as History and Hermeneutics* Laurence W. Wood, 2005 This book offers in style and content an exciting new perspective on contemporary theology and its future in post-modern times. I welcome this new perspective. The style is agreeable, unpolemical, and engages in dialogue with the best of Barth and Bultmann, Ricoeur, and Pannenberg. Cobb and Moltmann showing what they have to offer to the larger theological community and transferring it like a ferry boat into the post-modern age. The purpose is to offer an evangelical theology which is at the same time genuinely evangelical and relevant for post-modern ways of thinking. Wood writes with admirable clarity.

Jürgen Moltmann University of Tübingen

Derrida and Husserl Leonard Lawlor, 2002-07-04 A magnificent work that will definitely shape the discussion on Derrida for years to come. Rodolphe Gasché: What is the nature of the relationship of Jacques Derrida and deconstruction to Edmund Husserl and phenomenology? Is deconstruction a radical departure from phenomenology or does it trace its origins to the phenomenological project? In *Derrida and Husserl* Leonard Lawlor illuminates Husserl's influence on the French philosophical tradition that inspired Derrida's thought. Beginning with Eugen Fink's pivotal essay on Husserl's philosophy, Lawlor carefully reconstructs the conceptual context in which Derrida developed his interpretation of Husserl. Lawlor's investigations of the work of Jean Cavailles, Tran Duc Thao, and Jean Hyppolite, as well as recent texts by Derrida, reveal the depth of Derrida's relationship to Husserl's phenomenology. Along the way, Lawlor revisits and sheds light on the origin of many important Derridean concepts such as deconstruction, the metaphysics of presence, difference, intentionality, the trace, and spectrality.

The Derrida Reader Jacques Derrida, 1998-01-01 In the English-speaking world, Jacques Derrida's writings have most influenced the discipline of literary studies. Yet what has emerged since the initial phase of Derrida's influence on the study of English literature, classed under the rubric of deconstruction, has often been disowned by Derrida. What then can Derrida teach us about literary language, about the rhetoric of literature, and about questions concerning style, form, and structure? *The Derrida Reader* draws together a number of Derrida's most interesting and idiosyncratic essays that treat literary language, the idea of the literary, and questions of poetics and poetry. The essays discuss single tropes or concepts, a figure such as metaphor, the ideas of titles and signatures, proper names, and Derrida's thinking on such subjects as undecidability or aporia. The editor's introduction is a demonstration in practice of how Derrida reads and how he adapts the act of reading to the text or figure in question. The introduction also outlines each essay's main

points its usefulness for reading literary texts and its particular area of interest The Derrida Reader thus provides students of literature with a focused contextualized and readily understandable volume **Dialectic of Sedimentation and Innovation**

Mabiala Justin-Robert Kenzo,2009 One of the most important developments in the episteme of our time is the recognition that all being and all knowing are socially conditioned This recognition raises the question of subjective creativity Is creativity or innovation possible What is the locus of creativity Is it the subject or the structure of the structures of being of which the subject is part Any notion of creativity that takes seriously the condition of being is therefore bound to deal with the perennial issue of freedom and determinism Dialectic of Sedimentation and Innovation examines the contribution of Paul Ricoeur to this question for the purpose of theological consumption Ricoeur s philosophical reconstruction of the subject as self creates a space midway between the modern self positing subject and the postmodern deconstructed subject where reason rules but does not tyrannize It is from this space that he proposes a view of humanity that argues that to be human is to be homo voluntas homo lingua and homo capax Dialectic of Sedimentation and Innovation seeks to theologically appropriate these notions for Africa s quest for a new creative identity **Between Philosophy and Non-Philosophy**

Donald A. Landes,Leonard Lawlor,Peter Gratton,2016-11-01 Engages the work and career of a central figure in contemporary philosophy Hugh J Silverman was an inspiring scholar and teacher known for his work engaging and shaping phenomenology hermeneutics psychoanalysis structuralism poststructuralism and deconstruction As Professor of Philosophy and Comparative Literary and Cultural Studies at Stony Brook University State University of New York Silverman s work was marked by the between a concept he developed to think the postmodern in the space between philosophy and non philosophy In this volume leading scholars explore and extend Silverman s philosophical contributions from reflections on the notions of care time and responsibility to presentations of the practices and possibilities of deconstruction itself They provide an assessment of Silverman s life and work at the intersection of philosophy ethics and politics **A Companion to Derrida**

Zeynep Direk,Leonard Lawlor,2014-07-02 A Companion to Derrida is the most comprehensive single volume reference work on the thought of Jacques Derrida Leading scholars present a summary of his most important accomplishments across a broad range of subjects and offer new assessments of these achievements The most comprehensive single volume reference work on the thought of Jacques Derrida with contributions from highly prominent Derrida scholars Unique focus on three major philosophical themes of metaphysics and epistemology ethics religion and politics and art and literature Introduces the reader to the positions Derrida took in various areas of philosophy as well as clarifying how derrideans interpret them in the present Contributions present not only a summary of Derrida s most important accomplishments in relation to a wide range of disciplines but also a new assessment of these accomplishments Offers a greater understanding of how Derrida s work has fared since his death **Routledge History of Philosophy Volume VIII** Richard Kearney,2003-12-23 Continental

philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchquilt of diverse strands

Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990 s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre Merleau Ponty and Levinas Subsequent essays deal with specific currents of continental thought in such areas as science Marxism linguistics politics aesthetics feminism and hermeneutics A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti foundationalism This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors It includes a glossary of technical terms and a chronological tube of philosophical scientific and other cultural events *Philosophy and Desire* Hugh J. Silverman, 2014-04-23 *Philosophy and Desire* the seventh book in the well known Continental Philosophy series examines questions of desire desire for another person desire for happiness desire for knowledge desire for a better world desire for the impossible desire in text desire in language and desire for desire itself The theme of desire is explored through readings of contemporary figures such as Merleau Ponty Bataille Sartre de Beauvoir Levinas Irigaray Barthes Derrida and Derrida A hot timely topic in philosophy today Expands the contemporary debates
