A Christmas Survival Guide James Hindman, Ray Roderick, John Glaudini, 2003 This intimate revue takes a wry and knowing look at a stressful season Armed with a copy of A Christmas Survival Guide and an optimistic attitude the characters charge into an urban holiday landscape searching for the true essence of Christmas In songs and vignettes they learn to cope with the season in ways that are both hilarious and heartwarming Yeah, Though I Walk... A Journey of Survival and Deliverance Marie Dunham, 2017-07-18 Where do you walk This is my story of growing up with all of the necessities of life except love I am driven to search the highways and byways for true love or at least the meaning of love Where will my journey lead Will I know love when I see it and will it be worth finding The hurts of the past are a burden and shows no mercy with me attempting to live in the present The future can't be imagined until I let go How do I get there They say God is love but what does that have to do with me striving and trying to know him It is my story of self discovery and how hope is eternal

Quantum Jump W. R. Clement, 1998 Quantum Jump was written for individuals trying to make sense of the rapid social and political changes overtaking their lives Clement explains how our civilization is undergoing a translation similar to the European Renaissance the development of managed agriculture or the invention of writing Each of these eras brought about new world views and broadened the intellectual scope through which we perceive our world The Renaissance was triggered by the discovery of perspective OCo the means to manipulate three dimensions OCo and implemented by the bill of exchange and new mathematics Our newest era began in 1900 with the discovery that the universe exists in many more than three dimensions Exploration of this realm via mathematics and computers will drive the immediate future This is a guide to surviving the jump from the industrial age to the onrushing era of hyperspace The changes wrought by this era transition are already formidable OCo the rise of global capitalism and new industries the collapse of the Soviet Union OCo but they are only the beginning History shows that era transitions are juggernauts imposing massive individual cultural and social adaptation Clement analyzes current responses from retreats into tribalism to the erection of a New World Order of global corporatism and trading blocs he concludes that neither is viable Instead he points to skills like tangential and lateral thinking that will better equip individual readers with the points of view required in tomorrow's world
