Covey, 2013-01-08 From Stephen R Covey comes a profound compelling and groundbreaking book of next level thinking that gives a clear way to finally tap the limitless value creation promise of the Knowledge Worker Age In the more than twenty five years since its publication the classic The 7 Habits of Highly Effective People has become an international phenomenon with more than twenty five million copies sold Tens of millions of people in business government schools and families and most importantly as individuals have dramatically improved their lives and organizations by applying the

principles of Stephen R Covey's classic book. The world however is a vastly changed place. Being effective as individuals and organizations is no longer merely an option; survival in today's world requires it. But in order to thrive, innovate, excel and lead in what Covey calls the New Knowledge Worker Age, we must build on and move beyond effectiveness. The call of this new era in human history is for greatness, it's for fulfillment, passionate execution and significant contribution. Accessing the higher levels of human genius and motivation in today's new reality requires a change in thinking, a new mindset, a new skill set, a new tool set, in short, a whole new habit. The crucial challenge of our world today is this: to find our voice and inspire others to find theirs. It is what Covey calls the 8th Habit. So many people feel frustrated, discouraged, unappreciated and undervalued with little or no sense of voice or unique contribution. The 8th Habit is the answer to the soul's yearning for greatness, the organization's imperative for significance and superior results, and humanity's search for its voice. Covey's new book will transform the way we think about ourselves, our purpose in life, our organizations and about humankind. Just as The 7 Habits of Highly Effective People helped us focus on effectiveness, The 8th Habit shows us the way to greatness.
