

The Guilty Environmentalist

Essays, musings, and political fantasies,
from the Age of Electricity to the collapse of Enron

by Arthur J. O'Donnell

The Guilty Environmentalist

VM Jensen

The Guilty Environmentalist:

The Guilty Environmentalist Arthur O'Donnell, 2003 The Guilty Environmentalist is a collection of essays musings and political fantasies from award winning humorist and energy journalist Arthur O'Donnell Join the Guilty Environmentalist as he trips lightly through this exploration of the history and foibles of the electric utility industry from the very beginnings of the Age of Electricity to the aftermath of California's most recent energy crisis Selected from the best of the Bottom Lines columns carried in the nationally acclaimed California Energy Markets newsletter over the past decade The Guilty Environmentalist provides a unique and frequently hilarious perspective on a crucial industry that most people take for granted until the lights go out

The Skeptical Environmentalist Bjørn Lomborg, 2001 The Skeptical Environmentalist challenges widely held beliefs that the environmental situation is getting worse and worse The author himself a former member of Greenpeace is critical of the way in which many environmental organisations make selective and misleading use of the scientific evidence Using the best available statistical information from internationally recognised research institutes Bjørn Lomborg systematically examines a range of major environmental problems that feature prominently in headline news across the world His arguments are presented in non technical accessible language and are carefully backed up by over 2500 footnotes allowing readers to check sources for themselves Concluding that there are more reasons for optimism than pessimism Bjørn Lomborg stresses the need for clear headed prioritisation of resources to tackle real not imagined problems The Skeptical Environmentalist offers readers a non partisan stocktaking exercise that serves as a useful corrective to the more alarmist accounts favoured by campaign groups and the media

Ecologies of Guilt in Environmental Rhetorics Tim Jensen, 2019-10-28 Environmental rhetorics have expanded awareness of mass extinction climate change and pervasive pollution yet failed to generate collective action that adequately addresses such pressing matters This book contends that the anemic response to ecological upheaval is due in part to an inability to navigate novel forms of environmental guilt Combining affect theory with rhetorical analysis to examine a range of texts and media *Ecologies of Guilt in Environmental Rhetorics* positions guilt as a keystone emotion for contemporary environmental communication and explores how it is provoked perpetuated and framed through everyday discourse In revealing the need for emotional literacies that productively engage our complicity in global ecological harm the book looks to a future where guilt and its symbiotic relationships with anger shame and grief is shaped in tune with the ecologies that sustain us

The Environmentalist's Dilemma Arno Kopecky, 2021-10-19 For readers of Ronald Wright Rebecca Solnit and Yuval Noah Harari comes a compelling inquiry into our relationship with humanity's latest and greatest calamity In *The Environmentalist's Dilemma* award winning journalist Arno Kopecky zeroes in on the core predicament of our times the planet may be dying but humanity's doing better than ever To acknowledge both sides of this paradox is to enter a realm of difficult decisions Should we take down the government or try to change it from the inside Is it okay to compare climate change to Hitler Is hope naive or indispensable How do you

tackle collective delusion Should we still have kids And can we take them to Disneyland Inquisitive and relatable Kopecky strikes a rare note of optimistic realism as he guides us through the moral minefields of our polarized world From start to finish The Environmentalist s Dilemma returns to the central question How should we engage with the story of our times

The Conservative Environmentalist Benji Backer,2024-04-16 A young conservative environmentalist provides an intrepid vision for both solving our climate crisis and prioritizing the American national interest Politicians pseudo experts and other partisans have led us to believe that there are only two approaches to climate change doomerism or denial Benji Backer Founder and Executive Chairman of the American Conservation Coalition argues that both are dead ends In The Conservative Environmentalist he delivers an entirely new strategy to take care of the planet while putting put the economic interest of the American people first Backer makes the compelling case that conservative principles are the key to climate solutions that actually work In this book you ll visit the country s most diverse ecosystems and consequential manufacturing hubs from Utah coal mines and Texas oil fields to Louisiana wetlands and Rhode Island offshore wind farms witnessing the power of individual entrepreneurship and local problem solving You ll be inspired by groundbreaking efforts to strengthen earth s ecosystems that Green New Dealers and other Big Government advocates would prefer to keep hidden like partnerships between oil and gas companies and environmental nonprofits to preserve thousands of acres of wetlands Drawing on cutting edge science a deep understanding of local community needs and his experience rallying politicians on both sides of the aisle to take action Backer offers hope for everyone who cares about the state of the great outdoors Fascinating clear headed and full of surprises The Conservative Environmentalist is the fresh audacious approach needed to ensure a sustainable future and particularly one that works for America

Environmental Guilt and Shame Sarah E. Fredericks,2021 This study shows that many people in the US feel guilt about their everyday life It explores many ethical questions including whether individuals or collectives are the guilty or shameful parties whether agents should have these feelings whether people should induce guilt or shame in others and how people can respond to such feelings

The Really Inconvenient Truths Iain Murray,2008-04-01 Lambasting liberal politicians for hypocrisy discusses seven disastrous results of the environmental movement from the use of ethanol leading to global hunger to the polluting effects of contraceptive drugs

The World Food Conference ,1974 The SAGE Handbook of Environment and Society Jules Pretty,Andy Ball,Ted Benton,Julia Guivant,David R Lee,David Orr,Max Pfeffer,Professor Hugh Ward,2007-10-30 A monumental and timely contribution to scholarship on society and environments The handbook makes it easy and compelling for anyone to learn about that scholarship in its full manifestations and as represented by some of the most highly respected researchers and thinkers in the English speaking world It is wide reaching in scope and far reaching in its implications for public and private action a definite must for serious researchers and their libraries Bonnie J McCay Rutgers University This is the desert island book for anyone interested in the relationship between society and the environment The editors have assembled a masterful

collection of contributions on every conceivable dimension of environmental thinking in the social sciences and humanities No library should be without it Robyn Eckersley University of Melbourne The SAGE Handbook of Environment and Society focuses on the interactions between people societies and economies and the state of nature and the environment Editorially integrated but written from multi disciplinary perspectives it is organised in seven sections Environmental thought past and present Valuing the environment Knowledges and knowing Political economy of environmental change Environmental technologies Redesigning natures Institutions and policies for influencing the environment Key themes include locations where the environment society relation is most acute where for example there are few natural resources or where industrialization is unregulated the discussion of these issues at different scales local regional national and global the cost of damage to resources and the relation between principal actors in the environment society nexus Aimed at an international audience of academics research students researchers practitioners and policy makers The SAGE Handbook of Environment and Society presents readers in social science and natural science with a manual of the past present and future of environment society links

The Lazy Environmentalist on a Budget Josh Dorfman, 2011-03-01 A must read for anyone who wants to live well and still reduce their impact on the planet David de Rothschild author of The Global Warming Survival Handbook and host of Sundance Channel's Eco Trip The Real Cost of Living In The Lazy Environmentalist on a Budget Josh Dorfman takes you inside the latest developments in green living to demonstrate how you can easily and affordably have your designer jeans and your planet too From raising eco conscious kids to greening your daily commute Dorfman provides insights into the next wave of green innovation and the products and services that will lighten your planetary impact and lower your expenses Find bargain basement deals on stylish organic bedding and bamboo furnishings at the largest retailers in the world Score instant rebates on everything from compact fluorescent light bulbs to energy efficient air conditioners And earn reward points for carpooling with friends In a time when many people are feeling financially restricted The Lazy Environmentalist on a Budget is your guide to effortlessly saving the planet while keeping some extra cash in your pocket Fun easy and inexpensive Josh Dorfman shows that going green can help you look and feel fantastic and this time it makes perfect dollars and cents Summer Rayne Oakes model activist and author of Style Naturally The Savvy Shopping Guide to Sustainable Fashion and Beauty

Beyond Environmentalism Jeffrey E. Foss, 2009-02-04 This one of a kind book provides thoughtful insight into the current relationship between humankind and the environment Beyond Environmentalism is the first book of its kind to present a timely and relevant analysis of environmentalism The author's decades of experience as a philosopher of science allow him to critically comprehend scientific issues and to develop and explain sound ethical policies in response to them The result is a volume that builds a philosophy of nature and helps the reader assess humankind's relationship with and impact on the world around us This innovative book discusses the inconsistencies both scientific and philosophical of popular environmentalism and sheds new perspectives on the issues causes and debates that embrace

society today The goal is not to settle environmental issues once and for all but rather to provide the basis for more reasoned scientific and productive debates The need for a new philosophy of nature is explored through methodological discussion of several topics including The rise and fall of scientific proof Nature in religion romance and human values Humankind's responsibility to the environment The value of freedom Kinship among species Numerous case studies throughout the book delve into global warming the sixth extinction the precautionary principle pollution and other popular issues within environmentalism Feature boxes guide the reader through complex topics such as eco sabotage the Gaia hypothesis and the urban heat island effect while vivid illustrations demonstrate scientific data theories and philosophical arguments in a reader friendly manner With its balanced approach to provocative issues Beyond Environmentalism serves as an excellent thought provoking supplement for courses on environmental studies at the undergraduate and graduate levels It is also an interesting and accessible read for anyone with a general interest in environmental issues

The Jurisdynamics of Environmental Protection Jim Chen, 2003 On November 1 and 2 2002 the University of Minnesota Law School and the University of Minnesota's Consortium on Law and Values in Health Environment and the Life Sciences sponsored a symposium in honor of Professor Daniel A Farber's contributions to environmental law The resulting symposium The Pragmatic Ecologist Environmental Protection as a Juridynamic Experience was published in volume 87 of the Minnesota Law Review The Environmental Law Institute has now combined the proceedings of The Pragmatic Ecologist with additional contributions from many other leading scholars

Philosophy, Technology, and the Environment David M. Kaplan, 2017-02-24 Contributions by prominent scholars examining the intersections of environmental philosophy and philosophy of technology Environmental philosophy and philosophy of technology have taken divergent paths despite their common interest in examining human modification of the natural world Yet philosophers from each field have a lot to contribute to the other Environmental issues inevitably involve technologies and technologies inevitably have environmental impacts In this book prominent scholars from both fields illuminate the intersections of environmental philosophy and philosophy of technology offering the beginnings of a rich new hybrid discourse All the contributors share the intuition that technology and the environment overlap in ways that are relevant in both philosophical and practical terms They consider such issues as the limits of technological interventions in the natural world whether a concern for the environment can be designed into things how consumerism relates us to artifacts and environments and how food and animal agriculture raise questions about both culture and nature They discuss among other topics the pessimism and dystopianism shared by environmentalists environmental philosophers and philosophers of technology the ethics of geoengineering and climate change the biological analogy at the heart of industrial ecology green products and sustainable design and agriculture as a bridge between technology and the environment Contributors Braden Allenby Raymond Anthony Philip Brey J Baird Callicott Brett Clark Wyatt Galusky Ryan Gunderson Benjamin Hale Clare Heyward Don Idhe Mark Sagoff Julian Savulescu Paul B Thompson Ibo

van de Poel Zhang Wei Kyle Powys Whyte **Modern American Environmentalists** George A. Cevalasco, Richard P. Harmond, 2009-04-27 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement Included are iconic environmentalists such as Rachel Carson E O Wilson Gifford Pinchot and Al Gore and important but less expected names including John Steinbeck and Allen Ginsberg The entries recount how each individual became active in environmental conservation detail his or her significant contributions trace the influence of each on future efforts and discuss the person's legacy The individuals selected for the book displayed either an unparalleled commitment to the conservation preservation restoration and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century With a foreword by environmental historian Everett I Mendelsohn a time line of key environmental events a bibliography of groundbreaking works and an index organized by specialization this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement Mark Harvey Unique Environmentalism Gunnar Grendstad, Per Selle, Kristin Stromsnes, Oystein Bortne, 2006-11-28 their collective action The more unique the case the more we need to study it not only to understand the case itself but also to understand the structure and limits of environmentalism in general We hope that we have been able to show the value of this research strategy The way we have organized our study is different from the Rootes study 2003 This study emphasizes the importance of different environmental cultures and of political conjunctures in a single country of which different environmental groups take advantage We are not arguing against the fact that branches of environmentalism have features in common across countries e g animal rights and antinuclear movements However we would not go as far as the Rootes study We argue that looking at political conjunctures even if important does not tell the whole story Researchers need to understand the broader context in which political conjunctures and environmental culture operate **A Diplomat in Environmentalist's Clothing** Raymond M. Robinson, 2014-04-15 A multilayered memoir of a life well lived told in words that are informative entertaining funny and truly inspiring In A Diplomat in Environmentalist's Clothing Ray Robinson relates how as Canada's youngest diplomat he rose to become arguably his country's most influential environmental official serving throughout the first two decades of the contemporary environmental era Robinson's account also details his central role in cleaning up the Great Lakes battling acid rain getting lead out of gasoline and writing the Canadian Environmental Assessment Act The book is also a romantic though sometimes troubled personal tale The illegitimate descendant of an aristocratic family with a thousand year history Robinson nearly died at birth in London England before being taken as an infant to be raised by his single mother on Canada's West Coast Adventures abound including facing the feared Soviet KGB evading murderous attacks in a South American jungle saving the life of a Canadian correspondent and helping transform a very poor Bogota neighbourhood After an unprecedented Parliamentary send off Robinson left for Vancouver British Columbia in 1991 Only fifty four he chose to end his Ottawa career and give full time care

to his wife Ardith Woven throughout this book are his experiences of a home life that has been dominated for nearly half a century by a battle with family schizophrenia and more recently Alzheimer's which tested the marital vow of in sickness and in health almost beyond the limit. A series of crises in far off New Zealand forty five years ago led to a dramatic spiritual transformation that enabled him and his wife to fulfill that vow and recently celebrate fifty five years of marriage. Robinson also provides constructive comment on the inside workings of Canada's Government and Parliament with many anecdotes of working up close with fourteen different Cabinet ministers insightful comparisons between Canada and the U.S. based on his many visits to Washington DC in an official capacity informed commentary on some of the most important events of the last half of the twentieth century the harsh realities of the NATO Soviet Cold War the Cuban missile crisis and spilling into this century the always daunting impediments to peace in the Middle East

Wild Foresting Alan Drengson, Duncan Taylor, 2008-10-01 In this groundbreaking anthology the author offers new hope for those who love trees and forests. These essays are by leading experts. This work draws on the knowledge of indigenous people and the traditional role that forests and trees have played in their lives. It shows that sustainable forestry and conservation is possible. The authors also cover the role of trees in global warming. *BellaOnline* Connie Krochmal There is an emerging revolution in wild forest relationships. Wild foresting has evolved from ecoforestry going far beyond merely having a minimum impact on the world to sustaining and promoting forest health along with biological and cultural diversity. Wild foresting promotes the responsible use of forests connects indigenous knowledge systems and unites a great variety of local practices tailored to unique forests around the world. Prize winning experts dedicated to reconciliation in human wild forest relationships have contributed their stories to this comprehensive in depth anthology. The authors give accounts of how wild foresting is being practiced around the world with such diverse activities as Wild farming Wild crafting Adventure therapy Restoration Permaculture Ecosystem restoration Education Wild Foresting is presented in eight thematic sections that discuss topics as varied as tree meditation wild humans and ecophobia. Case studies from the Amazon Australia Norway and Thailand illustrate how wild foresting principles are adapted to different cultures and how emerging practices are fusing ancient knowledge systems with contemporary ecological studies. Wild Foresting is a fascinating and informative walk in the woods for everyone concerned about biodiversity ancient forests indigenous cultures and endangered species. Alan Drengson is professor emeritus of philosophy at the University of Victoria an author and one of the founders of the Ecoforestry Institute. Duncan Taylor is an assistant professor of environmental studies at the University of Victoria the founder of Earth Day Canada and an author. Drengson and Taylor are co editors of *Ecoforestry The Art and Science of Sustainable Forest Use* New Society Publishers.

International Encyclopedia of Environmental Politics John Barry, E. Gene Frankland, 2014-02-25 Why care about the environment? Is the earth's climate really changing for the worse? What are CFCs exactly? And who or what is the WTO? What are the causes of environmental problems? Who are the main actors and what are the main ideas and issues in international

environmental politics Which countries have the best worst environmental record and policies The International Encyclopedia of Environmental Politics is the essential reference source to enable all those with an interest in the politics of the environment particularly students and academics working within political science to answer these questions and to explore many other related topics in international environmental politics It will be welcomed as an essential teaching resource and a trusty companion to independent study Written by a team of international experts the Encyclopedia is vital for fact checking provides authoritative initial orientation to a particular topic or issue and will serve as a solid starting point for wider explanation With over 300 fully cross referenced entries many of which are followed with suggestions for further reading the Encyclopedia includes Country and regional entries with country entries giving a concise overview of the history main actors issues and policies related to its environmental politics Normative and ethical dimensions of environmental politics from animal rights social and global justice to deep ecology Environmental movements organizations struggles and actors from local to international levels Issues in international environmental politics such as global warming biodiversity trade and the environment Prominent individuals historical and current who have inspired or been actively involved in international environmental politics such as Mahatma Gandhi Petra Kelly Vandana Shiva and Aldo Leopold Central topics and issues in environmental politics such as global warming globalization wildlife preservation eco taxes energy production and consumption sustainable development and the World Trade Organisation Coming to Terms with Nature Leo Panitch, Colin Leys, 2006-11 Can capitalism come to terms with the environment How do market forces impact on the biosphere What is the significance of the impasse over the Kyoto protocol How far has socialist thought developed to help us understand the environmental dilemma Has it got answers Can capitalism come to terms with the environment How do market forces impact on the biosphere What is the significance of the impasse over the Kyoto protocol How far has socialist thought developed to help us understand the environmental dilemma Has it answers How can class and environmental politics be brought together What are the shortcomings Green parties and green commerce *Bad Environmentalism* Nicole Seymour, 2018-10-30 Traces a tradition of ironic and irreverent environmentalism asking us to rethink the movement's reputation for gloom and doom Activists today strive to educate the public about climate change but sociologists have found that the more we know about alarming issues the less likely we are to act Meanwhile environmentalists have acquired a reputation as gloom and doom killjoys *Bad Environmentalism* identifies contemporary texts that respond to these absurdities and ironies through absurdity and irony as well as camp frivolity irreverence perversity and playfulness Nicole Seymour develops the concept of bad environmentalism cultural thought that employs dissident affects and sensibilities to reflect critically on our current moment and on mainstream environmental activism From the television show *Wildboyz* to the short film series *Green Porno* Seymour shows that this tradition of thought is widespread spanning animation documentary fiction film performance art poetry prose fiction social media and stand up comedy since at least 1975 Seymour argues that these texts reject self

righteousness and sentimentality undercutting public negativity toward activism and questioning basic environmentalist assumptions that love and reverence are required for ethical relationships with the nonhuman and that knowledge is key to addressing problems like climate change Funny and original Bad Environmentalism champions the practice of alternative green politics From drag performance to Indigenous comedy Seymour expands our understanding of how environmental art and activism can be pleasurable even in a time of undeniable crisis
