John Wagstaff

The Haydn Yearbook Vol Xii 1981:

Mozart, Haydn and Early Beethoven Daniel Hartz, 2015-05-27 A vivid portrait of Mozart and Haydn's greatest achievements and young Beethoven's works under their influence Completing the trilogy begun with Haydn Mozart and the Viennese School 1740-1780 and continued in Music in European Capitals The Galant Style 1720-1780 Daniel Hartz concludes his extensive chronicle of the Classical Era with this much anticipated third volume By the early years of the nineteenth century Haydn Mozart and Beethoven had become a catchphrase a commonplace expression signifying musical excellence Indeed even in his early career Beethoven was hailed as the only musician worthy to stand beside Haydn and Mozart In this volume Hartz winds up the careers of Haydn and Mozart who during the 1780s produced their most famous and greatest works and describes Beethoven's first decade in Vienna during which he began composing by patterning his works on the two masters The tumult and instability of the French Revolution serves as a vivid historical backdrop for the tale *The Eighteenth Century*, 1983

Haydn, Mozart, and the Viennese School, 1740-1780 Daniel Hartz, 1995 Historians have long tried to place the music of Haydn and Mozart in the lineage of German Lutheran music In this book Daniel Hartz shows that the first Viennese school grew from a Catholic inheritance in Italian music and from local tradition with an admixture of French currents The generation of composers led by Haydn no longer trained in Italy By the time young Mozart joined the ranks of the Viennese school its accomplishments towered above all others of the time The author's approach can be compared to viewing a majestic mountain range in its totality the highest peaks take on even greater majesty when seen in their natural context of foothills and lesser peaks This is how Haydn and Mozart were viewed by their contemporaries whose world of perception Hartz recreates using among other things the visual art of the period His focus is on music as a part of cultural history at a particular time and place Stylistic terms and a priori periods matter less to him than the common denominators of geography culture and political history Book jacket *Soundings*, 1977

The Viennese Minor-Key Symphony in the Age of Haydn and Mozart Matthew Riley, 2014-05-08 In late eighteenth century Vienna and the surrounding Habsburg territories over 50 minor key symphonies by at least 11 composers were written These include some of the best known works of the symphonic repertoire such as Haydn's Farewell Symphony and Mozart's Symphony No 40 in G minor K 550 The driving energy intense pathos and restlessness of these compositions demand close attention and participation from the listener and pose urgent questions about meaning and interpretation In response to these questions *The Viennese Minor Key Symphony in the Age of Haydn and Mozart* combines historical perspectives with recent developments in music analysis to shed new light on this distinctive part of the repertoire Through an intertextual analytical approach author Matthew Riley treats the minor key symphony as a subgenre of several strands reconstructing the compositional world it occupied His work enables signals to be understood puts characteristic strategies in clear relief and ultimately reveals the significance this music held for both composers and listeners of the time Riley gives us a fresh picture
