Situationism and the New Morality Robert L. Cunningham,1970 [Symbols of Transcendence](#) Paul J. Levesque,1997
Volume 22 in the LTPM series offers a synchronic investigation of the thought of Christian philosopher Louis Dupre Working from a careful reading of Dupre s vast body of writings Paul Levesque demonstrates that in Dupre s work all religious expression insofar as it has a transcendent reference is intrinsically symbolic In the course of his study Levesque discusses the general necessity of employing symbols for religious expression investigates in depth Dupre s symbol theory and applies it to the religious symbols of ritual sacraments and religious art examines the modern inability to fully form religious symbols and explores Dupre s particular call to recover the mystical experience in personal life [Hume's Moral Philosophy and Contemporary Psychology](#) Philip A. Reed,Rico Vitz,2018-06-27 Recent work at the intersection of moral philosophy and the philosophy of psychology has dealt mostly with Aristotelian virtue ethics The dearth of scholarship that engages with Hume s moral philosophy however is both noticeable and peculiar Hume s Moral Philosophy and Contemporary Psychology demonstrates how Hume s moral philosophy comports with recent work from the empirical sciences and moral psychology It shows how contemporary work in virtue ethics has much stronger similarities to the metaphysically thin conception of human nature that Hume developed rather than the metaphysically thick conception of human nature that Aristotle espoused It also reveals how contemporary work in moral motivation and moral epistemology has strong affinities with themes in Hume s sympathetic sentimentalism [Encyclopedia of Bioethics](#) Warren T. Reich,1978 315 signed articles covering ethical and legal problems basic concepts and principles ethical theories religious traditions historical perspectives and disciplines bearing on bioethics Intended primarily for teachers students journalists and other writers health professionals and those involved with public policy related to health care and the life sciences Each entry gives article signature cross references and bibliography Appendix contains various codes or statements relevant to medical ethics Index **Ethics in Qualitative Research** Martyn Hammersley,Anna Traianou,2012-06-06 Ethics in Qualitative Research explores this field and presents a distinctive perspective one that is at odds with the assumptions underpinning ethical regulation but also with the views of many qualitative researchers today Martyn Hammersley and Anna Traianou emphasize the difficult and controversial character of ethical issues and examine the philosophical assumptions involved the social contexts in which key ethical principles arise and their implications for research practice The authors argue that the starting point for any discussion of research ethics must be the values intrinsic to research above all the commitment to knowledge production [Catalog of Copyright Entries. Third Series](#) Library of Congress. Copyright Office,1972 **The Limits of Utilitarianism** Harlan B. Miller,William Hatton Williams, The Limits of Utilitarianism was first published in 1982 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Many philosophers have argued that utilitarianism is an unacceptable moral theory

and that promoting the general welfare is at best only one of the legitimate goals of public policy Utilitarian principles seem to place no limits on the extent to which society may legitimately interfere with a person's liberties provided that such actions can be shown to promote the long term welfare of its members These issues have played a central role in discussions of utilitarianism since the time of Bentham and Mill Despite criticisms utilitarianism remains the most influential and widely accepted moral theory of recent times In this volume contemporary philosophers address four aspects of utilitarianism the principle of utility utilitarianism vis vis contractarianism welfare and voluntary cooperation and helping others The editors provide an introduction and a comprehensive bibliography that covers all books and articles published in utilitarianism since 1930

The Problem of Scientific Realism Edward A. MacKinnon, 1972 **The Problem of Evolution** John N.

Deely, Raymond J. Nogar, 1972 **New Interdisciplinary Landscapes in Morality and Emotion** Sara Graça Da Silva, 2018-03-09 The intersection between morality and emotion is not always easily discernible Researchers often choose to treat these concepts separately and in doing so an important aspect of this symbiosis is irremediably thwarted New Interdisciplinary Landscapes in Morality and Emotion considers the relationship between these fields reflecting on complex philosophical psychological social evolutionary historical and literary approaches The book reviews emerging paths and features contributions from distinct scientific fields including highly debated and somewhat controversial topics such as the relationship between empathy and in group biases emotion and irrationality reflexivity and meta emotions shame and pro social behaviour the evolution of human jealousy the role of love in driving moral motivation individuals wellbeing behavioural economics social robotics historical considerations of medical societies and politics of sadism and literary reflections on sympathy and emigration Covering various methodological angles and entanglements New Interdisciplinary Landscapes in Morality and Emotion will appeal to anyone interested in multidisciplinary dialogues from across the humanities sciences and the social sciences
