WHY DID YOU COME IF YOU LEAVE AGAIN? Dr. Conradin Perner,2025-01-24 One of the rare occasions where an ethnographer bares himself to reveal how he came to learn about and understand the people he studied Since an ethnographer is the only person to witness on a people and their culture the author writes about his findings on the Anyuak civilization and culture from the perspective of a novice learner He prefaces the reader about his own background and writes about the person behind the observations One of the readers of the manuscript described this as a delightful effort to humanize the rigor of academic analysis of indigenous populations so the author could share with others the remarkable experiences that led to his fascination with the Anyuak people The memoir is both a document of past times of nature and people a moving description of life in the wilderness and a people s fight for human dignity The book differs from other travel autobiographies in its poetic clear and suggestive language that allows readers to participate in the discovery of a foreign culture and to become a friend to hitherto unknown people It opens philosophical and spiritual dimensions and reflects on the humanity of the Anyuak the author and the attentive reader **Admonitions on Governing the People** Yagyong Chong,2010-08-15 This is the first English translation of one of Korea s most celebrated historical works a pre modern classic so well known to Koreans that it has inspired contemporary literature and television Written in 1821 by Chong Yagyong

Tasan Admonitions on Governing the People Mongmin simso is a detailed manual for district magistrates on how to govern better In encyclopedic fashion Chong Yagyong addresses the administration social and economic life criminal justice the military and the Confucian ritual system He provides examples of past corrupt officials and discusses topics of the day such as famine relief and social welfare A general call for overhauling the Korean ruling system the book also makes the radical proposition that the purpose of government is to serve the interests of the people This long awaited translation opens a new window on early nineteenth century Korea and makes available to a wide audience a work whose main concerns simultaneously transcend national and cultural boundaries
