European and Global Perspective Marko Modiano, 2020-09-10 This book provides the reader with a basis upon which to develop teaching and learning methodologies for the multicultural classroom. It is a valuable tool for language teachers who want to implement educational practices that best serve the needs of learners eager to acquire proficiency in languages of wider communication such as English. Focusing on cross cultural communicative competency and with chapters on the historical spread of English, the pros and cons of utilizing American and British norms and new alternative methods and practices, this book provides English instructors with the foundation they will need to meet the challenges of teaching a lingua franca in the age of globalization. Novel conceptualizations of language are presented which bring pluralism and multiculturalism center stage. The volume serves to show how teachers and teacher trainees can best assist learners in their pursuit of oral communication skills in the world's most utilitarian language.

EIL, ELF, Global English Cesare Gagliardi, Alan Maley, 2010 How can you teach the English language to global English speakers? Can English be taught as an international language? Is it worth teaching? Isn't it more proper and profitable to learn a standard variety of English? How realistic and useful is the identification of an EIL/ELF variety? Can an EIL/ELF standard be identified? These are some of the questions the present volume has addressed with the contribution of some of the most qualified scholars in the field of English linguistics. The book is divided into four sections. The first part deals with the definition of English as an international language and English as a lingua franca. Section two takes six different teaching issues into consideration. The third section examines some learning issues and the last part of the volume debates the relationship between teacher and student in an English as a lingua franca environment.

Contending with Globalization in World Englishes Mukul Saxena, Tope Omoniyi, 2010 This book engages with English in globalization, re-examining and re-interpreting the contemporary contexts of its acquisition and use. The chapters contained in this book weave together four inter-related themes that define the role of English in the global context: the centrality of structure, relationships of interdependence, social constructions of difference and reproduction of inequality. These themes enable the authors to draw attention to the dynamics of the contemporary realities of the English speaking and English using nations, especially as they compete for cultural, social, economic and symbolic capital in global networks. In engaging World Englishes with the sociolinguistics of globalization, the authors raise some fundamental questions about the status, structure and functions of World Englishes. What roles are English and World Englishes playing in globalization? What effect is globalization having on English and World Englishes? What effect is globalization having on other languages? Anyone interested in exploring these crucial questions will find this book a most helpful and stimulating companion. The editors have assembled an appropriately diverse all-star cast of contributors, each of whom approaches the topic from a refreshingly innovative standpoint. To paraphrase Omoniyi's poem which opens the book, readers will learn to waltz, salsa and lion dance and hip hop their way through the complex cultural and linguistic steps of globalization.
