**On Speaking Terms** Luke Owles Fleming, 2024-12-16 Why are kin in societies all over the world divided into joking and avoidance relations Foundational figures in the human sciences from E B Tylor and Alfred Radcliffe Brown to Sigmund Freud and Claude Lévi Strauss have sought to explain why some classes of kin are normatively expected to prank and tease one another while others must studiously avoid each other's presence In this extensively researched comparative study linguistic anthropologist Luke Owles Fleming offers a bold new answer to this problem With a particular focus on avoidance relationships *On Speaking Terms* argues that in order to understand cross cultural convergences in the patterning of kinship keyed comportments we must attend to the sociolinguistic codes through which kinship relationships are enacted Drawing on ethnographic data from more than one hundred different societies the book documents and analyses parallels in the linguistic and non verbal signs through which avoidance relationships are experientially realized With dedicated discussions of Aboriginal Australian mother in law languages name and word tabooing practices pronominal honorification and non verbal strategies of interactional and sensorial avoidance it reveals recurrent sociolinguistic patterns attested in kinship avoidance In demonstrating the vital role of sociolinguistic codes for transforming kinship categories into phenomenologically rich relationships *On Speaking Terms* makes an important contribution to the anthropology of kinship

**Not on Speaking Terms: Clinical Strategies to Resolve Family and Friendship Cutoffs** Elena Lesser Bruun, Suzanne Michael, 2014-10-06 How significant relationship rifts affect people in therapy and how therapists can help Scratch the surface of almost any family and you will undoubtedly find a significant cutoff Nearly everyone has someone in their lives with whom they stopped speaking for one reason or another or someone who abruptly cut them off Often these severed ties are forever unresolved and the emotional strain and upset they cause even if seemingly in the background of one's life never go away Here Elena Lesser Bruun and Suzanne Michael have gathered many stories about emotional cutoffs from psychotherapists and personal stories from a host of laypeople they encountered in the course of writing this book Based on their collective clinical experience spanning decades of work with clients the authors identify basic themes categories and cutoff types They then offer a set of guidelines to facilitate a deeper understanding of the dynamics of cutoffs suggesting strategies for clinicians to use as they work with clients to overcome the emotional devastation that this sort of relationship breach can cause Given the magnitude of the problem its ubiquity and the psychological complexity associated with it this book is sorely needed Each chapter addresses a particular cause for cutoffs such as abandonment jealousy betrayal matters of principle and mental illness or substance abuse All types of relationships are considered parent child other relatives siblings former spouses colleagues and friends Close analysis of all these scenarios led the authors to reach many conclusions about cutoffs and how to address them in therapy including Cutoffs are common experiences prevalent sometimes embarrassing and thus an elephant in the therapy room Cutoffs are extremely damaging even though people often tell themselves the other person is

expendable They induce involuntary suppression of feelings The aftermath of cutoffs can include depression devastation dismay shock isolation as well as work problems and physical psychosomatic issues Cutoffs even decades old are not always clients presenting problem however they often surface in the course of therapy Clinicians often fail to identify cutoffs in their clients lives or encourage clients to explore what happened and to consider taking steps towards reconciliation The author s hypothesize reasons for therapists hesitancy and suggest ways to overcome it Helping clients to successfully deal with emotional cutoffs will lead to reduction in self blame for any lost relationships less reactivity and lower anxiety in general No therapist dealing with this all too common challenging issue should be without this book , **And Short the Season:**
