Speaking For Clio:

Clio's Laws Mauricio Tenorio-Trillo, 2019-12-16 Offering a unique perspective on the very notions and practices of storytelling history memory and language Clio's Laws collects ten essays some new and some previously published in Spanish by a revered voice in global history Taking its title from the Greek muse of history this opus considers issues related to the historian's craft including nationalism and identity and draws on Tenorio Trillo's own lifetime of experiences as a historian with deep roots in both Mexico and the United States By turns deeply ironic provocative and experimental and covering topics both lowbrow and highbrow the essays form a dialogue with Clio about idiosyncratic yet profound matters Tenorio Trillo presents his own version of an *ars historica* what history is why we write it and how we abuse it alongside a very personal essay on the relationship between poetry and history Other selections include an exploration of the effects of a historian's autobiography a critique of history's celebratory obsession and a guide to reading history in an era of internet searches and too many books A self-described exile Tenorio Trillo has produced a singular tour of the historical imagination and its universal traits

Poems without Poets Boris Kayachev, 2021-03-31 The canon of classical Greek and Latin poetry is built around big names with Homer and Virgil at the center but many ancient poems survive without a firm ascription to a known author This negative category anonymity ties together texts as different as for instance the orally derived Homeric Hymns and the learned interpolation that is the Helen episode in Aeneid 2 but they all have in common that they have been maltreated in various ways consciously or through neglect by generations of readers and scholars ancient as well as modern These accumulated layers of obliteration which can manifest for instance in textual distortions or aesthetic condemnation make it all but impossible to access anonymous poems in their pristine shape and context The essays collected in this volume attempt each in its own way to disentangle the bundles of historically accreted uncertainties and misconceptions that affect individual anonymous texts including pseudepigrapha ascribed to Homer Manetho Virgil and Tibullus literary and inscribed epigrams and unattributed fragments Poems without Poets will be of interest to students and scholars working on any anonymous ancient texts but also to readers seeking an introduction to classical poetry beyond the limits of the established canon

Clio's Battles Jeremy Black,2015-07-01 A survey of the variety of readings we have of the past and of how those readings are used in the present day to validate discredit unite or divide To write history is to consider how to explicate the past to weigh the myriad possible approaches to the past and to come to terms with how the past can be and has been used

In this book prize winning historian Jeremy Black considers both popular and academic approaches to the past His focus is on the interaction between the presentation of the past and current circumstances on how history is used to validate one view of the present or to discredit another and on readings of the past that unite and those that divide Black opens with an account that underscores the differences and developments in traditions of writing history from the ancient world to the present Subsequent chapters take up more recent decades notably the post Cold War period discussing how different perspectives can fuel discussions of the past by individuals interested in shaping public opinion or public perceptions of the past Black then turns to the possible future uses of the then past as a way to gain perspective on how we use the past today *Clio's Battles* is an ambitious account of the engagement with the past across world history and of the clash over the content and interpretation of history and its implications for the present and future Remarkable both for its geographical scope and historical scale and for its command of scholarship on a breathtaking range of subjects I can't imagine another historian who could attempt such an ambitious work or pull it off with such aplomb William Gibson Oxford Brookes University Refreshing Black eschews Eurocentricism and includes considerable material on other areas of the world that one does not usually find in such a work Typical of Black's writing there is much to learn in the numerous small asides throughout the text Taken
