## **Speaking My Mind:**

*Speaking My Mind* Dorit Bar-On, 2004-11-18 Dorit Bar On develops and defends a novel view of avowals and self knowledge Drawing on resources from the philosophy of language the theory of action epistemology and the philosophy of mind she offers original and systematic answers to many long standing questions concerning our ability to know our own minds We are all very good at telling what states of mind we are in at a given moment When it comes to our own present states of mind what we say goes an avowal such as I m feeling so anxious or I m thinking about my next trip to Paris it is typically supposed tells it like it is But why is that Why should what I say about my present mental states carry so much more weight than what others say about them Why should avowals be more immune to criticism and correction than other claims we make And if avowals are not based on any evidence or observation how could they possibly express our knowledge of our own present mental states Bar On proposes a Neo Expressivist view according to which an avowal is an act through which a person directly expresses rather than merely reports the very mental condition that the avowal ascribes She argues that this expressivist idea coupled with an adequate characterization of expression and a proper separation of the semantics of avowals from their pragmatics and epistemology explains the special status we assign to avowals As against many expressivists and their critics she maintains that such an expressivist explanation is consistent with a non deflationary view of self knowledge and a robust realism about mental states The view that emerges preserves many insights of the most prominent contributors to the subject while offering a new perspective on our special relationship to our own minds

**Tristimania** Jay Griffiths, 2016-05-16 There are galaxies within the human mind and madness wants to risk everything for the daring flight reckless and beautiful and crazed Everyone knows Icarus fell But I love him for the fact that he dared to fly Mania unfurls the invitation to fly too high too near the sun Tristimania is a stark and lyrical account of the psyche in crisis It tells the story of a devastating year long episode of manic depression culminating in a long solo pilgrimage across Spain The book is rare in recording the experience of mania and shows how the condition is at once terrifying and also profoundly creative both tricking and treating the psyche In exploring its literary influence Griffiths looks at Shakespeare's work and examines the Trickster role tracing its mercuriality through the character of Mercury An intimate raw journey the book illuminates something of the universal human spirit
