Boerger, Judy Kuan, 2003-09-01 This volume examines a number of structured finance instruments now popular in Europe including collateralized debt mortgage backed securities whole business securitizations and synthetic securitizations Global Sukuk and Islamic Securitization Market

Muhammad al-Bashir Muhammad al-Amine, 2011-11-25 The book discusses the Sukuk market its developments and the legal Shar'ah risks and rating issues facing Sukuk Securitisation as the best way forward for Sukuk structuring is emphasized and issues such as Sukuk listing Sukuk index and Sukuk fund are highlighted **The Maze of Banking** Gary B.

Gorton, 2015-03-03 After the financial crisis of 2007-2008 analysts continue to question the security of banking sectors in nations in Europe Latin America Asia and Africa Why do such crises recur What is it about the accumulation of bank debt that potentially jeopardizes national and global banking systems There is no one better equipped to answer such questions than Gary Gorton who has been studying financial crises since his PhD thesis in 1983 The Maze of Banking contains a collection of his academic papers on the subjects of banks banking and financial crises The papers in this volume span almost 175 years of U.S. banking history from pre U.S. Civil War private bank notes issued during the U.S. Free Banking Era 1837-1863 followed by the U.S. National Banking Era 1863-1914 before there was a central bank through loan sales securitization and the financial crisis of 2007-2008 Banking changed profoundly during these 175 years yet it did not change in fundamental ways The forms of money changed resulting in associated changes in the information structure of the economy Bank debt evolved as an instrument for storing value smoothing consumption and transactions but its fundamental nature did not change In all its forms it is vulnerable to bank runs without government intervention Comprehensive and informative the collection is the definitive volume on the history of the U.S. banking system These papers provide the framework for understanding how the financial crisis of 2007-2008 developed and steps to promote a stable banking industry thereby preventing future economic crises The Maze of Banking is essential reading material for students and academics with an interest in economics finance and the history of banking Securitization Law and Practice Jan Job de Vries

Robb , 2008-01-01 Securitization once a fairly straightforward means of offering collateral for investment has mushroomed into a massively complex area of financial practice The central role occupied by such risk distributing products as collateral debt obligations CDOs credit default swaps CDSs collateral loan obligations CLOs and credit derivatives has given rise to one of the most crucial inquiries of our era Is the financial collapse that threatens the world financial system due merely to rogue traders Or is there something in the derivative idea itself that spells inevitable disaster Most important can we isolate the truly productive aspects of securitization and learn to recognise pitfalls in advance As always in such ideational minefields it is the legal practitioners who are expected to provide guidance to distressed investors and asset dealers Hence this vital new book Written from a distinctly practical point of view by Jan Job de Vries Robb with contributions from Paul Ali and Tim Coyne all three leading authorities with extensive experience as counsel both in house and in private practice in addition to

sterling academic credentials the book sheds clear light on every aspect of today's securitization techniques including welcome guidance on the following keeping track of exposure to the CDO market and evaluating such emerging asset classes as commodity risk microfinance and project finance risk In the course of the analysis the book proceeds from the relevant framework and guiding legal principles through key risks and building blocks in securitization transactions to the various product classes and sub classes and their differences and common denominators Non credit risk and niche products such as fund and insurance securitization are also covered The final chapters are devoted to the applicable rules as laid down in Basel II and International Financial Reporting Standards

Collective Securitization and Crisification of EU Policy Change Christian Kaunert, Sarah Léonard, 2022-08-22 This book represents the first attempt to evaluate the first two decades of the EU counterterrorism policy It aims to assess the collective securitization process in EU counterterrorism evaluating this as a process between a construction of security threats and the development of supranational governance through crisification Compared to the lack of shared perception of the terrorist threat and the virtual absence of counterterrorism cooperation amongst European states in the 1970s and 1980s the existence of EU wide debates legislative instruments and practical cooperation nowadays is particularly remarkable The chapters in this volume explore this change and seek to explain it by drawing upon the concept of collective securitization The book posits that EU counterterrorism needs to be analysed as a process driven by collective securitization as part of an ongoing process of crisification that leads to increased supranational governance The book is both extremely relevant and timely for readers outside the area of research for several reasons First of all EU counterterrorism is often argued to be at the forefront of the EU's response to new security threats The EU acquis on the Area of Freedom Security and Justice AFSJ has grown significantly over the last years Consequently it is crucial and very timely to examine EU counterterrorism exactly 20 years after the first significant measures were adopted in the wake of 9 11 The chapters in this book were originally published in the journal Global Affairs

Asset Securitization im Gesundheitswesen Ulrich Franke, 2009-02-01 Ulrich Franke geht auf die Schwierigkeiten des Kapitalmarktzugangs für Non Profit Unternehmen ein und analysiert inwieweit ABS als Eigenkapital schonende Finanzierungsform eingesetzt werden kann Grundlage für die Diskussion verschiedener Ansätze in Deutschland bieten die ausführlich dargelegten Erfahrungen in den USA und in anderen Ländern

Africa and Fortress Europe Belachew Gebrewold, 2016-03-16 The number of African migrants attempting to enter Europe has increased Within Europe North African migrants are being accused of increased involvement in Islamic fundamentalism and terrorist activities after attacks on Madrid and London Such terrorist attacks have become an urgent security concern for the European Union forcing the EU to make migration a security policy This volume examines the extent to which the EU is threatened by patterns of African crisis alongside Africa's peace security and development initiatives The contributors analyze current migration flows from Africa to Europe and the challenges and prospects of a comprehensive EU strategy for Africa Intended for undergraduates graduates and lecturers the volume is ideal

for courses that discuss the impact of African political developments on international politics Multilingual Interpretation of European Union Law Dirk A. Zetsche, 2012-11-01 The Alternative Investment Fund Managers Directive AIFMD may be the most important European asset management regulation of the early 21st century However a preponderance of practitioners and academics in the field argue that in its present form the directive is seriously out of touch with both the system of European financial law and industry practice In this first in depth analytical and critical discussion of the content and system of the directive thirty four contributing authors academics lawyers consultants fund supervisors and fund industry experts examine the AIFMD from every angle They cover structure regulatory history scope appointment and authorization of the manager rules on delegation reporting requirements transitional provisions and the objectives stipulated in the recitals and other official documents The challenging implications and contexts they examine include the following connection with systemic risk and the financial crisis impact on money laundering and financial crime nexus with insurance for negligent conduct connection with corporate governance doctrine risk management transparency the cross border dimension liability for lost assets and impact on alternative investment strategies Ten country reports add a national perspective to the discussion of the European regulation These chapters deal with the potential interactions among the AIFMD and the relevant laws and regulations of Italy Switzerland Luxembourg The Netherlands Austria Liechtenstein the United Kingdom Germany France and Ireland The former are Europe s most vibrant financial centres and markets Designed to spur a critical attitude towards the emerging new European financial markets framework presaged by the AIFMD this much needed discussion not only elaborates on the inconsistencies and difficulties sure to be encountered when applying the directive but also provides potential solutions to the problems it raises The book will be warmly welcomed by investors and their counsel fund managers depositaries asset managers and administrators as well as academics in the field *The Privatisation of Immigration Control through Carrier Sanctions* Sophie Scholten, 2015-08-11 The central theoretical question of *The Privatisation of Immigration Control through Carrier Sanctions* concerns the social working of legal rules Sophie Scholten examines how states private companies carriers and people passengers have become interconnected through carrier sanctions legislation Scholten describes the legal framework in the Netherlands and the UK and international and European legislative rules developed on the subject The author ties in with debates on privatisation of control in general and of immigration control in particular As such the author provides a much needed new look at a field which as not attracted detailed academic attention Scholten opens up fascinating questions about the relationship of the public and private sectors in the complex and politically sensitive area of immigration **The Oxford Handbook of Banking** Allen N. Berger, Philip Molyneux, John O.S. Wilson, 2010 This handbook provides an overview and analysis of state of the art research in banking written by researchers in the field It includes abstract theory empirical analysis and practitioner and policy related material *Genocidal Nightmares* Abdelwahab El-Affendi, 2014-11-20 This book offers a novel and productive explanation of why

ordinary people can be moved to engage in destructive mass violence or terrorism and the abuse of rights often in large numbers and in unexpected ways Its argument is that narratives of insecurity powerful horror stories people tell and believe about their world and others can easily make extreme acts appear acceptable even necessary and heroic As in action or horror movies the script dictates how the hero acts The book provides theoretical justifications for this analysis building on earlier studies but going beyond them in what amount to a breakthrough in mapping the context of mass violence It backs its argument with a large number of case studies covering four continents written by prominent scholars from the relevant countries or with deep knowledge of them A substantial introduction by the UN s Special Advisor on the Prevention of Genocide demonstrates the policy relevance of this path breaking work
