Speckle-Wave Interactions in Application to Holography and Nonlinear Optics Boris Ya. Zel'dovich, Alexander V. Mamaev, Vladimir V. Shkunov, 1994-12-22 This book explains the principles of laser beam interactions applied to the recording readout and processing of information carrying optical waves It treats both quantitatively and qualitatively the specific effects that appear due to the fine scale speckle structure of the spatial profile of a laser originated wave The basics of the nature physics and properties of the speckle fields as well as the fundamentals of holography and nonlinear optics are discussed

Interferometry in Speckle Light P. Jacquot, J.-M. Fournier, 2012-02-02 These proceedings reflect the work presented at the conference Interferometry in Speckle Light Theory and Applications held at the Ecole Polytechnique Federale de Lausanne EPFL the Swiss Federal Institute of Technology in Lausanne Switzerland The event took place from September 25 to September 28 2000 Thanks to the diligence of the authors this book has been published just in time for the conference Writing this preface in July in anticipation of the conference we have tried to envisage how this book will benefit the quality of discourse between authors and attendees Interferometry in Speckle Light Theory and Applications results from a bottom up approach and is original in several ways This conference is not part of a series on the contrary it is a single event The idea of gathering scientists and engineers for a general discussion on the theory and the practice of interferometry involving rough non optically polished objects was in the air An opportunity of this sort was not provided by any of the conferences scheduled when the present one was conceived For this reason it was easy to convince a small number of renowned researchers all of them active in the field of holographic and speckle interferometry to organize a conference To be specific they are the people listed below as members of the scientific and local committees At the same time a particular circumstance namely the retirement of Professor L Pflug helped to detennine the location of the meeting
