## **Spectacle Media And The Making Of The O J Simpson Story:**

**The Spectacle** Paul Thaler, 1997-10-28 In the Year of Simpson the country was caught in the throes of the biggest story ever No other single news event in our history could match the sheer scope and intensity of coverage given to the O J Simpson murder case But the media did not just report the Simpson case they were instrumental in creating it a spectacle of such stupendous proportions that it hijacked American culture In this critical exposé of American media Thaler presents a riveting narrative about the men and women who gave us the story of the century It is a sprawling tale of the media grappling with their role as news reporting entities seduced by the values of entertainment and tabloidism and faced with increased competition fragmented audiences and frantic pressure to keep both eyes on the bottom line The Simpson story is one of exploitation of media overkill and outright pandering of huge profitmaking all of which undermined the trial and fueled tremendous public cynicism about the way in which justice and the media work in this country For more than a year America was held captive to the great murder story In Thaler's analysis the media more than any other single participant altered the workings of the Simpson courtroom and the outcome of one of the most celebrated trials in America's history From the first coverage of the murders to the final days of the trial of the century the media were not only telling us what had become of justice in this country but also what had become of them This is that story

**American Television News: The Media Marketplace and the Public Interest** Steve M. Barkin, 2016-09-16 This concise history of the news broadcasting industry will appeal to both students and general readers Stretching from the radio days of the 1920s and 1930s and the early era of television after World War II through to the present the book shows how commercial interests regulatory matters and financial considerations have long shaped the broadcasting business The network dominance of the 1950s ushered in the new prominence of the anchorman a distinctly American development and gave birth to the golden age of TV broadcasting which featured hard hitting news and documentaries epitomized by the reports by CBS's Edward R Murrow Financial pressures and advertising concerns in the 1960s led the networks to veer away from their commitment to serve the public interest and tabloid television celebrity gossip driven soft news and news magazines became increasingly widespread In the 1980s cable news further transformed broadcasting igniting intense competition for viewers in the media marketplace Focusing on both national and local news this stimulating volume examines the evolution of broadcast journalism It also considers how new electronic technologies will affect news delivery in the 21st century and whether television news can still both serve the public interest and maintain an audience

*The Trial in American Life* Robert A. Ferguson, 2008-08-05 In a bravura performance that ranges from Aaron Burr to O J Simpson Robert A Ferguson traces the legal meaning and cultural implications of prominent American trials across the history of the nation His interdisciplinary investigation carries him from courtroom transcripts to newspaper accounts and on to the work of such imaginative writers as Emerson Thoreau William Dean Howells and E L Doctorow Ferguson shows how courtrooms are forced to cope with unresolved communal anxieties

and how they sometimes make legal decisions that change the way Americans think about themselves. Burning questions control the narrative. How do such trials mushroom into major public dramas with fundamental ideas at stake? Why did outcomes that we now see as unjust enjoy such strong communal support at the time? At what point does overexposure undermine a trial's role as a legal proceeding? Ultimately such questions lead Ferguson to the issue of modern press coverage of courtrooms. While acknowledging that media accounts can skew perceptions, Ferguson argues forcefully in favor of full television coverage of them and he takes the Supreme Court to task for its failure to grasp the importance of this issue. Trials must be seen to be understood but Ferguson reminds us that we have a duty currently ignored to ensure that cameras serve the court rather than the media. *The Trial in American Life* weaves Ferguson's deep knowledge of American history, law, and culture into a fascinating book of tremendous contemporary relevance. A distinguished law professor, accomplished historian, and fine writer, Robert Ferguson is uniquely qualified to narrate and analyze high profile trials in American history. This is a superb book and a tremendous achievement. The chapter on John Brown alone is worth the price of admission. Judge Richard Posner, a noted scholar of law and literature, offers a work that is broad in scope yet focuses our attention on certain themes, notably the possibility of injustice as illustrated by the Haymarket and Rosenberg prosecutions, the media's obsession with pandering to baser instincts, and the future of televised trials. One of the best books written on this subject in quite some time. *Library Journal* starred review. *American Journalism* W. David Sloan, Lisa Mullikin Parcell, 2002-04-24. News consumers made cynical by sensationalist banners. AMERICA STRIKES BACK: THE TERROR OF ANTHRAX and lurid leads might be surprised to learn that in 1690 the newspaper *Publick Occurrences* gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that barbarous Indians were lurking about before the disappearance. Surprising too might be the media's steady adherence to its continual tugging at its philosophical and ethical moorings. These 39 essays, written and edited by the nation's leading professors of journalism, cover the theory and practice of print, radio, and TV news reporting, politics and partisanship, press and the government, gender and the press corps, presidential coverage, war reportage, technology, and news gathering. Sensationalism: each subject is treated individually. Appropriate for interested lay persons, students, professors, and reporters. *The Search for Justice in a Media Age* Siobhan Holohan, 2017-11-28 What can we learn from the legal cases of Stephen Lawrence and Louise Woodward How do the legal system and the media contribute to a collective understanding of class nation race and gender In this book Siobhan Holohan explores media representations of law and order in the context of notions of multi culturalism and victim centred politics Two high profile cases the murder of Stephen Lawrence and the US trial of the British au pair Louise Woodward are examined Holohan argues that the stories built up around Woodward and Lawrence the organization of public discourse around a sacrificial figure have contributed to exclusionary patterns of social order The book offers a perceptive account of what makes some criminal legal cases prone to scrutiny and spectacle and provides a vivid illustration of the presence of power relations in legal decisions In conclusion the author draws on the model of the Macpherson report to propose a more inclusive form of social and legal judgement that takes into account social inequalities

*Journalism at the End of the American Century, 1965-Present* James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965 The press has evolved into a conglomeration of entities that today can be described as pervasive entertaining and justifiably mistrusted In some ways today s press offers the best journalism Americans have ever seen In other ways the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy Neither a paean to the press nor an exercise in media bashing this book finds much to criticize and to praise about recent American journalism while illustrating that traditional journalistic values have diminished in importance not just for many of those who control the media but also for the media consumers who most need good journalism Chapters are devoted to

various themes that include social unrest the influence of entertainment values technological shifts media consolidation and corporatization issues of content versus context new kinds of news media and why the 1970s may have been the high point of American journalism Events and issues given extra attention include the rise of television news and later CNN the Civil Rights Movement and other race related issues the Women s Movement various forms of alternative journalism wars in Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals

**Mediated Deviance and Social Otherness** Kylo-Patrick R.

Hart, 2009-01-14 If in fact Lizzie Borden took an axe and gave her step mother forty whacks why from a representational standpoint did her stepmother deserve it If older gay men in Internet chat rooms regularly provide much needed acceptance and advice to younger gay males during the coming out process how is it that they continually reinforce racist ideologies and powerless subjectivities while doing so What sorts of media images are commonly presented of individuals and groups that are regarded as being deviant in society and whose interests do they ultimately serve The answers to these important questions and many others are provided in the pages of *Mediated Deviance and Social Otherness Interrogating Influential Representations* which explores provocative representations of deviance in various media forms including books films musical offerings news accounts television programs and Internet sites and their substantial cultural political and social consequences for the lived realities of individuals of different backgrounds and lifestyles The eye opening chapters of this book enable readers to more fully realize the regularity with which media representations continuously contribute in powerful ways to the formation and perpetuation of influential social constructions of deviance and otherness as they pertain to delinquents criminals and individuals of all ages classes genders races sexual orientations and health disability statuses *Mediated Deviance and Social Otherness Interrogating Influential Representations* is a thought provoking anthology that offers fresh insight and new approaches to critically analyzing social constructions of deviancy across a variety of media forms While scholars have long examined the relationship between media and deviancy this collection of essays features a range of theoretical perspectives through which to investigate deviancy and its various interpretations in original ways In the process it deepens our understanding of how deviancy has been constructed across time and in differing social cultural milieus The essays in this anthology reflect the diverse disciplines of their contributing scholars At the same time the anthology does not waver from its clear focus on deviancy lending it substantial coherence and readability The book is expertly structured and edited Each of the essays draws inspiration from a refreshing variety of sources and fields of study The anthology is accordingly divided into six distinct yet related sections that mark its coherence and readability Simultaneously the essays within each section are quite different from one another allowing the reader to make thought provoking connections between representations of deviancy both within sections and among them *Mediated Deviance and Social Otherness Interrogating Influential Representations* is an important text Considering the growth of new media forms its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical

contribution to the field of media and cultural studies Given its breadth and scope the anthology represents a highly significant scholarly contribution that will greatly benefit scholars students and interested individuals of all levels It offers eye opening insights to anyone with an interest in cultural studies disease and disability studies film and television studies LGBT studies criminal justice sociology and related fields Brief Reviewer Bio Metasebia Woldemariam Ph D is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness Mediated Deviance and Social Otherness Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms including journalism film documentary television fiction music and the Internet The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize 1 Age 2 Crime and Criminals 3 Disease and Disability 4 Gender Race and Class 5 Sexual Orientation and 6 Other Forms of Deviance which include masochism carnival spectacles and cultures of violence While some chapters feature links to topics common to media studies such as the Motion Picture Production Code what is powerful about the collection is how varied the interpretive standpoints of the contributors are An example of one such unique interpretive perspective comes from Linda K Fuller whose chapter examines the sexual political aspects of African AIDS related films based on her work in West Africa with a sexologist collating and critiquing appropriate media for Life Skills This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis the collection offers analysis of classic as well as popular literature popular as well as veiled news media award winning as well as obscure television series and outlaw country music as well as rap music Because media is so broadly interpreted within the collection readers are encouraged to view mass media as a crucial cultural landscape for meaning making Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts or even through analysis of representations in multiple media forms For example Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case Borden s stepmother Editor Kylo Patrick R Hart s own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas Rather than focusing on stereotypical categories of deviance and otherness the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media This is evident through Christopher J Prez s ethnographic observation of instant messages from Gay com participants which dispels the notion that such online communities allow for positive expressions of gay identity Through its broad interpretation of media the collection offers an ample array of less commonly acknowledged media genres as evident in Margaret Weigel s class analysis of the electric bulb advertising sign spectacles in Manhattan from 1892 to 1917 Wendy Korwin s visual analysis of a set of four image plates used within prescriptive literature and Amanda Klein s cinematic comparison of portrayed deviance in the 1950s juvenile

delinquency teenpic and the 1990s ghetto action film Incorporated also are unique perspectives on traditional news media representations as in Thomas Grochowski's interpretation of celebrity defendant perspectives of O J Simpson. Occasionally common themes thread particular chapters together allowing opportunities to understand how critics view the same or similar media differently. For example David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ. Additionally contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett's discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff's analysis of the textured view of abortion provided by the film Vera Drake. Hart's collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social cultural historical and even technological contexts. The issue of the detrimental effects of shared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions. Also because the collection includes literary analysis it could serve well those with interest in literary criticism.

**ELESHA RUMINSKI** Ph.D. is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication.

**Crimes of the Century** Gilbert Geis, Leigh B. Bienen, 1998. In compelling narrative the authors probe the sensational cases of Nathan F. Leopold Jr. and Richard A. Loeb, the Scottsboro boys, Bruno Richard Hauptmann, Alger Hiss, and O. J. Simpson, highlighting significant lessons about criminal behavior and the administration of criminal justice. Each case study details the crime, the police investigation, and the court proceedings, profiles the major players, and examines the outcome and aftermath of the trial. The authors untangle the perplexities surrounding the cases and illuminate the many mysteries that remain unsolved today. These celebrated trials reveal issues of overzealous prosecution, sloppy police work, judicial bias, race, class, and ethnic struggles, and the role of wealth in securing a competent defense. They also show how the temper of the times and frenzied media coverage heightened the intensity of drama in the cases.

The Trash Phenomenon Stacey Michele Olster, 2003. The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events, artifacts, and theories of popular culture into their works but also have used those works as windows into popular culture's role in the process of nation building. Taking her cue from Donald Barthelme's 1967 portrayal of popular culture as trash and Don DeLillo's 1997 description of it as a subversive people's history, Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception. The Trash Phenomenon begins with a look at the mass media's role in the United States' emergence as the twentieth century's dominant power. Olster discusses the works of three authors who collectively span the century, bounded by the Spanish American War (1898) and the Persian Gulf War (1991): Gore Vidal's American Chronicle series, John Updike's Rabbit tetralogy, and Larry Beinhart's American Hero. Olster then turns her

attention to three non American writers whose works explore the imperial sway of American popular culture on their nation s value systems hierarchical class structure in Dennis Potter s England Peronism in Manuel Puig s Argentina and Nihonjinron consensus in Haruki Murakami s Japan Finally Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963 Olster first focuses on autobiographical historical and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class gender and race the John F Kennedy assassination the Scarsdale Diet Doctor murder and the O J Simpson trial She concludes with some thoughts about the nature of American consolidation after 9 11
