The Best Medicine: How Science

and Public Health Gave Children a Future Perri Klass, 2020-10-13 The fight against child mortality that transformed parenting, doctoring and the way we live. Only one hundred years ago, even the world's wealthiest nations' children died in great numbers of diarrhea, diphtheria and measles, scarlet fever and tuberculosis. Throughout history, culture has been shaped by these deaths; diaries and letters recorded them, and writers such as Louisa May Alcott, W. E. B. Du Bois and Eugene O'Neill wrote about and mourned them. Not even the powerful and the wealthy could escape. Of Abraham and Mary Lincoln's four children, only one survived to adulthood, and the first billionaire in history, John D. Rockefeller, lost his beloved grandson to scarlet fever. For children of the poor, immigrants, enslaved people and their descendants, the chances of dying were far worse. The steady beating back of infant and child mortality is one of our greatest human achievements. Interweaving her own experiences as a medical student and doctor, Perri Klass pays tribute to groundbreaking women doctors like Rebecca Lee Crumpler, Mary Putnam Jacobi and Josephine Baker, and to the nurses, public health advocates and scientists who brought new approaches and scientific ideas about sanitation and vaccination to families. These scientists, healers, reformers and parents rewrote the human experience so that for the first time in human memory, early death is now the exception rather than the rule, bringing about a fundamental transformation in society, culture and family life. Previously published in hardcover as *A Good Time to Be Born*. **Fit Baby, Smart Baby, Your Baby!** Glenn Doman, Douglas Doman, Bruce Hagy, 2021-07-27 The early development of mobility in newborns is a vital part of their future ability to learn and grow to full potential. They clearly explain each stage of mobility and show how to create an environment that will help your baby more easily achieve that stage. Full color charts, photographs, illustrations and detailed yet easy to follow instructions are included to help you create an effective home program. This inspiring book shows how the team of mother, father and baby can explore and discover together the joys of human mobility. Wilson, 2022-09-29 This book examines the global-local intersections and tensions at play in the literary production from Aotearoa New Zealand through its engagement in the global marketplace. Combining postcolonial and world literature methodologies, contributors chart the global relocation of national culture from the nineteenth century to the present, exploring what New Zealand literature means in different creative teaching and publishing contexts. They identify ongoing global entanglements with local identities and tensions between national and post-national literary discourses, considering Aotearoa New Zealand's history as a white settler colony and its status as a bicultural nation and a key player in the Asia

Pacific region active on the global stage Topics and authors include Stefanie Herades on colonial New Zealand literature and the global marketplace Claudia Marquis on David Hare's Aotearoa series as exotic reading for adolescents Paloma Fresno Calleja on the exoticizing landscape novels of Sarah Lark James Wenley on Indian Ink Theatre company as hybrid export Janet M Wilson on the globalization of the New Zealand short story Chris Prentice on pedagogic articulations of New Zealand literature Leonie John on the challenges of teaching M ori literature in Germany Dieter Riemenschneider on New Zealand literature at the Frankfurt Book Fair Paula Morris on Commonwealth writers and the Booker Prize Selina Tusitala Marsh on contemporary Pasifika poetry and Chris Miller on the afterlife of Allen Curnow The chapters in this book were originally published as a special issue of the Journal of Postcolonial Writing
