Temporary Cities Yasser Elsheshtawy, 2019-03-28 Are Arab Gulf cities the likes of Dubai Abu Dhabi or Doha on their way to extinction Is their fate obsolescence Or are they the model for our urban future Can a city whose very existence is predicated on an imported labour force who build and operate these gleaming urban centres remain a viable urban entity Could the transient nature of this urban model its temporariness and precariousness also be its doom In this wide ranging book Yasser Elsheshtawy takes on these tough but necessary questions aiming to examine the very nature of the Arab Gulf city and whether it can sustain its existence throughout the twenty first century Having lived in the region for more than two decades he researched its marginalized and forgotten urban settings trying to understand how a temporary people can live in a place that inherently refuses to give them the possibility of becoming citizens By being embedded in these spaces and reconciling their presence with his own personal encounters with transience he discovered a resilience and defiance against the forces of the hegemonic city Using subtle acts of resistance these temporary inhabitants have found a way to sustain and create a home to set down roots in the midst of a fast changing and transient urbanity Their stories recounted in this book through case studies and in depth analysis give hope to cities everywhere Transience is not a fait accompli rather the actions of citizens residents and migrants even in the highly restrictive spaces of the Gulf show us that

the future metropolis may very well not turn out to be a utopia of the few and a dystopia of the many This could be an illusion but it is a necessary illusion because the alternative is irrelevance

Selling EthniCity Olaf Kaltmeier, 2016-04-01 Bringing together a multidisciplinary team of scholars this book explores the importance of ethnicity and cultural economy in the post Fordist city in the Americas It argues that cultural political and economic elites make use of cultural and ethnic elements in city planning and architecture in order to construct a unique image of a particular city and demonstrates how the use of ethnicized cultural production such as urban branding based on local identities by the economic elite raises issues of considerable concern in terms of local identities as it deploys a practical logic of capital exchange that can overcome forms of cultural resistance and strengthen the hegemonic colonization of everyday life At the same time it shows how ethnic communities are able to use ethnic labelling of cultural production ethnic economy or ethno tourism facilities in order to change living conditions and to empower its members in ways previously impossible Of

wide ranging interest across academic disciplines this book will be a useful contribution to Inter American studies

The Changing Role of the Korean State Hong Yung Lee, Sunil Kim, 2016-10-20 How and why has the Korean state changed its way of handling the society and its markets over the past two decades The Changing Role of the Korean State finds that the explosion of contentious civil society after democratization coeval with the outbreak of the financial crisis following rapid economic growth are closely associated with the decline of developmentalism Despite these profound changes however the Korean state has not totally relinquished its control over the society and the market Rather although its methods have been altered it remains to be highly interventionalist and regulatory in nature The state continues to use its influence to restructure the socio economic system and rationally manage spatial arrangements The book amply demonstrates the residual legacy of the developmental state in Korea and it is unlikely that Korea will ever accept the western liberalist concept of a state which limits its function to that of a referee for the spontaneous operation of the civil society and the market The contributors of this edited volume delineate the shifting role of the Korean state from the developmental state which led economic development by guiding investment in strategic industries through various means to a slightly subtler role as a regulator supervising the operation of the market in the changing economic environment Individual chapters presented here address this changing but nonetheless vital role that the state plays in managing the variety of modern socio economic life in South Korea Hong Yung Lee is Professor Emeritus of Political Science at University of California Berkeley Sunil Kim is Assistant Professor of International Studies at Kyung Hee University

Magical Realism and the History of the Emotions in Latin America

Jerónimo Arellano,2015-05-21 Iconoclastic in spirit Magical Realism and the History of the Emotions in LatinAmerica is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as One Hundred Years of Solitude Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought Magical Realism and the History of the Emotions draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture

Kristeva Stacey Keltner,2013-05-03 Julia Kristeva is one of the most creative and prolific writers to address the personal social and political trials of our times Linguist psychoanalyst social and cultural theorist and novelist Kristeva s broad interdisciplinary appeal has impacted areas across the humanities and social sciences S K Keltner s book provides the first comprehensive introduction to the breadth of Kristeva s work In an original and insightful

analysis Keltner presents Kristeva's thought as the coherent development and elaboration of a complex multidimensional threshold constitutive of meaning and subjectivity. The threshold indicates Kristeva's primary sphere of concern: the relationship between the speaking being and its particular social and historical conditions and Kristeva's interdisciplinary approach. Kristeva's vision, Keltner argues, opens a unique perspective within contemporary discourses attentive to issues of meaning, subjectivity, and social and political life. By emphasizing Kristeva's attention to the permeable borders of psychic and social life, Keltner offers innovative readings of the concepts most widely discussed in Kristeva scholarship: the semiotic and symbolic, abjection, love, and loss. She also provides new interpretations of some of the most controversial issues surrounding Kristeva's work, including Kristeva's conceptions of intimacy, social and cultural difference, and Oedipal subjectivity, by contextualizing them within her methodological approach and oeuvre as a whole. *Julia Kristeva: Thresholds* is an engaging and accessible introduction to Kristeva's theoretical and fictional works that will be of interest to both students and scholars across the humanities and social sciences.
