voice teachers we should strive to help our students uncover their individual sound and to facilitate technical consistency. Further, we as teachers should ultimately guide students to positive, independent and emotionally engaged performances on stage or in recordings. Some teaching approaches may guide students to these experiences; others may not. A successful outcome of vocal study occurs when the student no longer needs their teacher; they are independent and autonomous singers and musicians and are able to teach themselves or perhaps others. This study views the student-teacher relationship in the voice student through an existentialist lens influenced by the Sartrean principles of responsibility and freedom. The study examines some commonly used teaching approaches, viewing them from an historical perspective through the National Schools in vocal instruction to more current approaches that may be commonly found in higher education teaching studios. This study offers a perspective that hopes to foster discussion, a re-examination of and self-reflection in the teaching practices of higher education vocal instruction. The research is grounded in hermeneutic phenomenology. This paradigm was a means by which to unearth and uncover the lived experience of students undergoing vocal study. One that was guided by a framework of instruction influenced by the Sartrean notions of responsibility and freedom.

This textbook is the only comprehensive resource that provides an overview of the development process of a new musical while guiding musical theatre performers to be fruitful collaborators in a new works scenario.

Yoga for Singers Linda Lister, 2011-04-01. From opera diva Karita Mattila to Lady Gaga from Broadway's Mandy Patinkin to pop star Jason Mraz, singers are doing yoga and experiencing its ability to free their voices and psyches. Yoga provides bountiful rewards for singers; the practice of rib opening and spine lengthening asanas can improve alignment while spinal twists, pranayama, breathing techniques and meditation can focus the mind and calm performance anxiety. Some singers have turned to beta blockers to deal with the stress of stage fright, but yoga proves there is a medication-free self-nurturing method of combating the pressure of performing. *Yoga For Singers* gives singers and voice teachers the tools that yoga can provide to help improve their physical, emotional and thus vocal well-being and to manage performing with the most personal of instruments: their voices.
