Speeches To The Conservative Party Conference 1975 1988:

Making Speeches Tom Hurst, 2025-03-20 Having recently passed the 40th anniversary of Margaret Thatcher's entry into Number 10 Downing Street the burgeoning field of Thatcher studies continues to attract the attention of scholars and students alike The dense array of literature has thus far comprehensively covered Thatcher's politics personal life and famous speeches but the approaches she took to her speech writing have hitherto been overlooked By consulting a variety of primary sources such as the Churchill archives which house Thatcher's papers Tom Hurst deftly presents a comprehensive account of Margaret Thatcher's Speechmaking By encompassing the creation delivery and dissemination of the speeches before concluding with a focus on the reception of these speeches in an unprecedented digital age Hurst fills an existing gap By focusing on the oft overlooked staff who helped Thatcher draft her speeches and in so doing shaped Thatcherism from behind the scenes Hurst promotes an entirely original work that unveils the Iron Lady's reliance on her speechmakers which has previously been unexplored

British Rail 1974-1997 Terry Gourvish, 2002-03-28 Britain's privatised railways continue to provoke debate about the organisation financing and development of the railway system This important book written by Britain's leading railway historian provides an authoritative account of the progress made by British Rail prior to privatisation and a unique insight into its difficult role in the government's privatisation planning from 1989 Based on free access to the British Railway Board's rich archives the book provides a comprehensive analysis of the main themes a process of continuous organisational change the existence of a persistent government audit perennial investment restraints the directive to reduce operating costs and improve productivity a concern with financial performance technological change service quality and the management of industrial relations and the Board's ambiguous position as the Conservative government pressed home its privatisation programme The introduction of sector management from 1982 and the Organising for Quality initiative of the early 1990s the Serpell Report on railway finances of 1983 the sale of the subsidiary businesses the large scale investment in the Channel Tunnel and the obsession with safety which followed the Clapham accident of 1988 are all examined in depth In the conclusion the author reviews the successes and failures of the public sector rehearses the arguments for and against integration in the railway industry and contrasts what many have termed the golden age of the mid late 1980s when the British Rail government relationship was arguably at its most effective with what has happened since 1994

The British Conservative Party Lenon Campos Maschette, 2024-02-20 Citizenship has been an ill explored subject within Conservative Party studies When this subject has been analysed it is usually made by scholars of citizenship more concerned with general overviews than understanding specific Conservative approaches to the concept This book intends to fill this gap Through a rigorous analysis of sources the author explores how the Conservative Party contested the welfare model of citizenship and sought to recreate a new relationship between the individual the state and civil society Starting from Thatcher's idea of active citizenship and going through the analysis of John Major's Citizen's Charter and David

Cameron's Big Society project the book sheds new light on how these developments responded to long term problems while dialoguing with specific circumstances and the different Conservative leaders' ideas. From an ideological perspective the author analyses how these leaders echoed and re-signified more traditional political ideas and ideologies while negotiating with and borrowing new flourishing concepts during those years. Far from being a unidimensional citizenship concept in reinterpreting old ideas and utilizing new ones these Conservatives elaborated a complex and many times contradictory citizenship model that tried to address both long lasting and more timely issues that overlapped in British society. *Making History Now and Then* D. Cannadine, 2008-06-17 Collects twelve previously unpublished essays by one of Britain's most eminent historians David Cannadine including his inaugural and valedictory lectures at the Institute of Historical Research. A unique volume discussing the study and nature of History itself and a range of key topics and periods in British and Imperial History. Finding a Role? Brian Harrison, 2011-09-09 In 1970 the cold war was still cold Northern Ireland's troubles were escalating the UK's relations with the EEC were unclear and corporatist approaches to the economy precariously persisted. By 1990 Communism was crumbling world wide Thatcher's economic revolution had occurred terrorism in Northern Ireland was waning multi culturalism was in place family structures were changing fast and British political institutions had become controversial. Seven analytic chapters pursue these changes and accumulate rich detail on changes in international relations landscape and townscape social framework family and welfare structures economic policies and realities intellect and culture politics and government. The concluding chapter ranges chronologically even more widely to bring out the interaction of past and present then asks how far the UK had by 1990 identified its world role. Like Harrison's *Seeking a Role* The United Kingdom 1951-1970-2009 the immediately preceding volume in this series *Finding a Role* includes a full chronological table and an ample index of names and themes. This the first thorough wide ranging and synoptic study of the UK so far published on this period has two overriding aims to show how British institutions evolved but also to illuminate changes in the British people their hopes and fears values and enjoyments failures and achievements. It therefore equips its readers to understand events since 1990 and so to decide for themselves where the UK should now be going. **British Prime Ministers and Democracy** Roland Quinault, 2011-03-17 Today representative democracy is the dominant political system in the world. Britain played a prominent part in the democratization of the world through both its constitutional reforms at home and its power and influence abroad. In that process Prime Ministers played a prominent role through their power and influence in government. Parliament and the country more generally. Quinault examines the stance of ten leading Prime Ministers from the mid nineteenth century until the twenty first century on the theory and practice of democracy. The attitude of each Prime Minister is assessed by considering their general views on democracy and their use of that term and concept in their discourse and thereby their role in advancing or resisting democratic political change. Particular attention is paid to their role in electoral reform together with their stance on the composition and powers of the House of Lords and the role of the

monarchy in the governing process Their attitudes to the democratic aspects of some major international issues are also considered

The Guardians of Concepts Martina Steber, 2023-01-13 Since 1945 what conservative means has troubled intellectuals politicians and parties in the United Kingdom and West Germany In Britain conservatism was an accepted term of the political vocabulary denoting a particular tradition of political thought and practice In West Germany by contrast conservatism was a difficult concept for the young democracy to swallow It carried a heavy antiliberal and antidemocratic burden and led people to question whether there was a place for conservatism within democratic culture after all The Guardians of Concepts scrutinizes the debates about conservatism in the UK and the Federal Republic of Germany from the late 1940s to the early 1980s Informed by historical semantics it conceives of conservatism as a flexible linguistic structure and shows the importance of language for the self understanding of many conservatives who not by chance have regarded themselves as the guardians of concepts The intense national and transnational debates about the meaning of conservatism had far reaching consequences and continue to influence politics today *Britain, Europe and National Identity* J. Gibbins, 2014-10-05 This study patterns national identity over a number of important historical milestones and brings the debates over Europe up to date with an analysis of recent happenings including the referendum on Scottish independence the global economic crisis and the current crisis in Syria *Echoing Events* Tina van der Vlies, 2022-12-12 Echoing Events questions the perpetuation actualization and canonization of national narratives in English and Dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries The analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies This innovative and original study thus investigates from a new angle the resistance of national narratives to change

Ethics and Justice for the Environment Adrian Armstrong, 2012-05-31 Examining the issues of ethics and justice as they apply to the environment this book starts from the

observation that the parallel expositions of environmental ethics and environmental justice appear to have few points of contact Environmental justice is highly politicized and concerned with human access to the environment and the unequal exposure to environmental pollution It grew out of the US civil rights movement the liberal tradition of rights and Rawls description of justice as fairness It is thus almost exclusively anthropocentric and does not address the question of justice for the environment By contrast environmental ethical studies are a wide ranging collection of approaches that are concerned with caring for the earth and the justifications for it but rarely consider the issue of justice Although the two movements do not come together at the theoretical level they do so at the grass roots activist level An essential component of this study is thus to consider both the issues of grass roots action and the application of the methods to actual case studies This book finds a common ground between these two strands and so to develop a unified statement of justice for the environment that includes the insights of both approaches particularly based on the capability ideas of justice developed by Martha Nussbaum

Party and Government Jean Blondel, Maurizio Cotta, 2016-07-27 Party and Government is an eleven country study of the relationship between the governments of liberal democracies mainly from Western Europe but also including the United States and India and the parties which support these governments It examines this relationship at the three levels at which governments and parties connect appointments policy making and patronage The emphasis is on a two way relationship parties influence governments but governments also influence parties The extent and the direction of this influence varies from country to country In some cases governments and parties are almost autonomous from each other as in the United States in other cases on the contrary there is considerable power of one over the other sometimes the party dominates sometimes the government
