Unstoppable Mark Hughes,2023-09-07 SHORTLISTED IN THE INTERNATIONAL SPORTS BOOK OF THE YEAR CATEGORY AT THE 2024 SPORTS BOOK AWARDS WATERSTONES BEST BOOKS OF 2023 SPORT A definitive and intriguing biography of Max Verstappen Formula 1's superstar Lewis Hamilton's great rival and the three time winner of the World Drivers Championship No Hollywood scriptwriter could possibly have envisioned the breathless adrenaline pumping climax to the 2021 Formula 1 season On the very last lap of the final race of an unbelievably arduous and controversial season Red Bull's Max Verstappen nervelessly overtook the seven time World Champion Lewis Hamilton of Mercedes to clinch the first place that thrust the young prodigy to the narrowest of victories and to his first World Drivers title He followed up by taking the 2022 and 2023 titles as well Verstappen may only be 26 years of age but the Dutch motorsport sensation has an incredible record in F1 This young man has already left an indelible mark on the sport The son of F1 driver

Jos Verstappen junior quickly stepped out of his father's shadow his youthful charisma ferocious speed fearless driving style and refusal to back down mark him out as a true champion And the phenomenal success of Netflix's Drive to Survive documentary series has elevated his worldwide popularity still further Widely respected motorsport writer and F1 insider Mark Hughes is perfectly placed to write the most authoritative narrative on Verstappen's incredible rise through the ranks to F1 glory Hughes immaculate credentials and first rate access enable him to generate fresh and fascinating insights and to paint a fully rounded and richly textured portrait of one of the most exciting young sportsmen on the planet *On Slowness* Lutz Koepnick, 2014-10-07 Speed is an obvious facet of contemporary society whereas slowness has often been dismissed as conservative and antimodern Challenging a long tradition of thought Lutz Koepnick instead proposes to understand slowness as a strategy of the contemporary a decidedly modern practice that gazes firmly at and into the present's velocity As he engages with late twentieth and early twenty first century art photography video film and literature Koepnick explores slowness as a critical medium to intensify our temporal and spatial experiences Slowness helps us register the multiple layers of time history and motion that constitute our present It offers a timely and untimely mode of aesthetic perception and representation that emphasizes the openness of the future and undermines any conception of the present as a mere replay of the past Discussing the photography and art of Janet Cardiff Olafur Eliasson Hiroshi Sugimoto and Michael Wesely the films of Peter Weir and Tom Tykwer the video installations of Douglas Gordon Willie Doherty and Bill Viola and the fiction of Don DeLillo Koepnick shows how slowness can carve out spaces within processes of acceleration that allow us to reflect on alternate temporalities and durations **A Master of Deception** Robert Knuckle, 2007-06 **Hooked** Michael Moss, 2021-03-02 NEW YORK TIMES BESTSELLER From the author of Salt Sugar Fat comes a gripping The Wall Street Journal exposé of how the processed food industry exploits our evolutionary instincts the emotions we associate with food and legal loopholes in their pursuit of profit over public health The processed food industry has managed to avoid being lumped in with Big Tobacco which is why Michael Moss's new book is so important Charles Duhigg author of The Power of Habit Everyone knows how hard it can be to maintain a healthy diet But what if some of the decisions we make about what to eat are beyond our control Is it possible that food is addictive like drugs or alcohol And to what extent does the food industry know or care about these vulnerabilities In Hooked Pulitzer Prize winning investigative reporter Michael Moss sets out to answer these questions and to find the true peril in our food Moss uses the latest research on addiction to uncover what the scientific and medical communities as well as food manufacturers already know that food in some cases is even more addictive than alcohol cigarettes and drugs Our bodies are hardwired for sweets so food giants have developed fifty six types of sugar to add to their products creating in us the expectation that everything should be cloying we've evolved to prefer fast convenient meals hence our modern day preference for ready to eat foods Moss goes on to show how the processed food industry including major companies like Nestlé Mars and Kellogg's has tried not only to evade this troubling discovery about

the addictiveness of food but to actually exploit it For instance in response to recent dieting trends food manufacturers have simply turned junk food into junk diets filling grocery stores with diet foods that are hardly distinguishable from the products that got us into trouble in the first place As obesity rates continue to climb manufacturers are now claiming to add ingredients that can effortlessly cure our compulsive eating habits A gripping account of the legal battles insidious marketing campaigns and cutting edge food science that have brought us to our current public health crisis Hooked lays out all that the food industry is doing to exploit and deepen our addictions and shows us why what we eat has never mattered more
