*Navigating Computer Science Education in the 21st Century* Bosch, Chantelle, Goosen, Leila, Chetty, Jacqui, 2024-02-26. Students often face challenges in a swiftly advancing Computer Science Education (CSE) where technologies evolve rapidly and concepts unfold with overwhelming intricacies. As society becomes interwoven with technology, how essential is the integration of CSE into the educational framework to adequately equip future generations for the complexities of the digital era? *Navigating Computer Science Education in the 21st Century* advocates integrating CSE into curricula, underlining its crucial role in early childhood development. The book grapples with the challenge of introducing children to technology responsibly, addressing concerns about unmonitored screen time while emphasizing the necessity of evidence-based approaches for educators. Within these pages, effective teaching strategies are linked to successes in CSE. The book explores learner-centered teaching methodologies in computer science, emphasizing individualized instruction, active learning, and collaborative approaches. It evaluates the effectiveness of traditional lecture-based teaching against more innovative strategies such as game-based learning and collaborative approaches. By presenting studies that delve into the impact of these strategies on student engagement and motivation, the book equips educators with the insights needed to make informed decisions tailored to diverse learning environments.

**Capacity Building for Sustainable Development** Valentine Udoh James, 2018-04-02. This book presents over 40 cases of bamboo development across 22 major bamboo industry countries and explores the knowledge gained from their successes and failures. It synthesizes experiences and exchanges with country experts from international training courses and consultations, study tours, and seminars. Each case includes observations and summaries of discussions related to the development of bamboo-based industries in a healthy, sustainable way and the facilitation of strategic and balanced development of bamboo in different global regions. Industrial and artisanal bamboo growing and processing is expanding worldwide, and this book brings together key experiences to help inform future developments. This book provides an analysis of bamboo plant features, including strong renewability, fast growing, and high biomass production. It also reviews important ecological functions of bamboos, such as water and soil conservation, carbon sink, and storage, and adaptation to climate change, as well as addressing the diversified culture of bamboo and key issues affecting the sector. Highly illustrated and in full colour throughout, this book is an essential resource for all those interested in bamboo, from private sector investors to governmental and development agencies, academic researchers, and students. **ECRM 2018**
