SKYSCRAPER IN AMERICAN ART, ~1890-1931œ (EIGHTEEN HUNDRED AND NINETY TO NINETEEN HUNDRED AND THIRTY-ONE). Merrill Schleier, 1986 **The Image of the Skyscraper in American Art, 1890-1931** Merrill Schleier, 1983

The American Skyscraper Roberta Moudry, 2005-05-09 Publisher Description **The American Skyscraper, 1850-1940** Joseph J. Korom, 2008 The skyscraper is an American invention that has captured the public's imagination for over a century. The tall building is wholly manmade and borne in the minds of those with both slide rules and computers. This is the story of the skyscraper's rise and the recognition of those individuals who contributed to its development. This volume is unique; its approach, information, and images are fresh and telling. The text examines America's first tall buildings, the result of twelve years of in-depth research by an accomplished and published architect and architectural historian. Over 300 compelling photographs, charts, and notes make this the ultimate tool of reference for this subject. Biographies woven throughout with period norms, politics, and lifestyles help to place featured skyscrapers in context. Quite simply, there is no book like this. The text, carefully and insightfully written, is clear, concise, and easily digestible; the text being the product of well-documented original research written in an informative tone. *The American Skyscraper 1850-1940: A Celebration of Height* is a richly documented journey of a fascinating topic and it promises to be a superb addition to libraries, schools of architecture, students of architecture, and lovers of art. How Did Poetry Survive? John Timberman

Newcomb, 2012-03-20 *How Did Poetry Survive?* traces the emergence of modern American poetry at the turn of the nineteenth century. American poetry had stalled; a small group of recently deceased New England poets still held sway, and few outlets existed for living poets. However, the United States' quickly accelerating urbanization in the early twentieth century opened new opportunities as it allowed the rise of publications focused on promoting the work of living writers of all kinds. The urban scene also influenced the work of poets, shifting away from traditional subjects and forms to reflect the rise of buildings and the increasingly busy bustle of the city. Change was everywhere: new forms of architecture and transportation, new immigrants, new professions, new tastes, new worries. This urbanized world called for a new poetry, and a group of new magazines, entirely or chiefly devoted to exploring modern themes and forms, led the way. Avant-garde little magazines succeeded not by ignoring or rejecting the busy commercial world that surrounded them but by adapting its technologies of production and strategies of marketing for their own purposes. *Raymond Jonson and the Spiritual in Modernist and Abstract Painting* Herbert R. Hartel, Jr., 2018-02-21 This is the most thorough and detailed monograph on the artwork of Raymond Jonson. He is one of many artists of the first half of the twentieth century who demonstrate the richness and

diversity of an under appreciated period in the history of American art Visualizing the spiritual was one of the fundamental goals of early abstract painting in the years before and during World War I Artists turned to alternative spirituality the occult and mysticism believing that the pure use of line shape color light and texture could convey spiritual insight Jonson was steadfastly dedicated to this goal for most of his career and he always believed that modernist and abstract styles were the most effective and compelling means of achieving it

American Technological Sublime David E. Nye, 1996-02-28 American Technological Sublime continues the exploration of the social construction of technology that David Nye began in his award winning book Electrifying America Here Nye examines the continuing appeal of the technological sublime a term coined by Perry Miller as a key to the nation s history using as examples the natural sites architectural forms and technological achievements that ordinary people have valued intensely Technology has long played a central role in the formation of Americans sense of selfhood From the first canal systems through the moon landing Americans have for better or worse derived unity from the common feeling of awe inspired by large scale applications of technological prowess American Technological Sublime continues the exploration of the social construction of technology that David Nye began in his award winning book Electrifying America Here Nye examines the continuing appeal of the technological sublime a term

coined by Perry Miller as a key to the nation's history using as examples the natural sites architectural forms and technological achievements that ordinary people have valued intensely American Technological Sublime is a study of the politics of perception in industrial society Arranged chronologically it suggests that the sublime itself has a history that sublime experiences are emotional configurations that emerge from new social and technological conditions and that each new configuration to some extent undermines and displaces the older versions After giving a short history of the sublime as an aesthetic category Nye describes the reemergence and democratization of the concept in the early nineteenth century as an expression of the American sense of specialness What has filled the American public with wonder awe even terror David Nye selects the Grand Canyon Niagara Falls the eruption of Mt St Helens the Erie Canal the first transcontinental railroad Eads Bridge Brooklyn Bridge the major international expositions the Hudson Fulton Celebration of 1909 the Empire State Building and Boulder Dam He then looks at the atom bomb tests and the Apollo mission as examples of the increasing ambivalence of the technological sublime in the postwar world The festivities surrounding the rededication of the Statue of Liberty in 1986 become a touchstone reflecting the transformation of the American experience of the sublime over two centuries Nye concludes with a vision of the modern day consumer sublime as manifested in the fantasy world of Las Vegas

Cartoon Vision Dan Bashara, 2019-04-02 In *Cartoon Vision* Dan Bashara examines American animation alongside the modern design boom of the postwar era Focusing especially on United Productions of America UPA a studio whose graphic abstract style defined the postwar period Bashara considers animation akin to a laboratory exploring new models of vision and space alongside theorists and practitioners in other fields The links theoretical historical and aesthetic between animators architects designers artists and filmmakers reveal a specific midcentury modernism that rigorously reimagined the senses *Cartoon Vision* invokes the American Bauhaus legacy of L szl Moholy Nagy and Gy rgy Kepes and advocates for animation's pivotal role in a utopian design project of retraining the public's vision to better apprehend a rapidly changing modern world

The Black Skyscraper Adrienne Brown, 2017-11-15 A highly interdisciplinary work *The Black Skyscraper* reclaims the influence of race on modern architectural design as well as the less well understood effects these designs had on the experience and perception of race

Education and Politics in the 1990s Denis Lawton, 1992 Examines the ideological differences between the education policies of the two main political parties in the UK and discusses the emergence of these differences within the context of the 1988 Education Reform Act It also looks at the world wide influence of the New Right politics on education

Compelling Form J. Donald Ragsdale, 2011-08-08 Compelling Form Architecture as Visual Persuasion is an assessment of the visual persuasiveness of buildings It demonstrates that architecture is as capable of social influence as speeches or advertisements are and that an awareness of this influence provides an insight into buildings cultural roles The book considers a diverse array of structures ranging from museums to performance halls to universities to cathedrals to governmental buildings to palaces and to skyscrapers Compelling Form is an important extension of theories of persuasion and visual communication to architecture and engineering The book bases its assessments on the elements of visual literacy and then on the elements of architectural design to demonstrate that buildings monuments and even such means of commerce as bridges affect the viewer in such a way as to have social impact **Otto Kahn** Theresa M. Collins, 2014-03-01 In the early decades of the twentieth century almost everyone in modern theater literature or film knew of Otto Kahn 1867 1934 and those who read the financial press or followed the news from Wall Street could scarcely have missed his name A partner at one of America's premier private banks he played a leading role in reorganizing the U S railroad system and supporting the Allied war effort in World War I The German Jewish Kahn was also perhaps the most influential patron of the arts the nation has ever seen he helped finance the Metropolitan Opera brought the Ballets Russes to America and bankrolled such promising young talent as poet Hart Crane the Provincetown Players and the editors of the Little Review This book is the full scale biography Kahn has long deserved Theresa Collins chronicles Kahn's life and times and reveals his singular place at the intersection of capitalism and modernity Drawing on research in private correspondence congressional testimony and other sources she paints a fascinating portrait of the figure whose seemingly incongruous identities as benefactor and banker inspired the New York Times to dub him the Man of Velvet and Steel
