The Archaeology of Slavery in Early Medieval Northern Europe Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e.g. shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three sections review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology

of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

Freedom in the Caribbean Lynsey A. Bates, John M. Chenoweth, James A. Delle, 2018-09-12 While the patterns of habitation and development are similar throughout the Caribbean, there was also a great deal of diversity. This Is Our Home Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth. A recent reckoning with the centrality of slavery to the US national story, however, has shifted the meaning of these sites. Plantations are no longer simply seen as places of beauty and grandiose hospitality; their reality as spaces of enslavement, exploitation, and violence is increasingly at the forefront of our scholarly and public narratives. Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them: plantations were Black homes as much as white. Insightfully reading the built environment of plantations, considering artifact fragments found in excavations of slave dwellings, and drawing on legal records and plantation owners' papers, Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners. By exploring the material remnants of the past, Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom, a fight that continues today in consequential confrontations over who has the right to call this nation home. **The**

Lombard Invasion (Premio Ottone d'Assia 2002) Irene Barbiera, 2005-03-01 I cimiteri longobardi utilizzati come fonti preziose di informazione sul passato e in particolare sull'uso simbolico della cultura materiale. Alla luce delle più recenti teorie sull'archeologia funeraria e dell'etnicità, l'autrice indaga nel dettaglio alcuni contesti funerari di ambito longobardo in Ungheria, Hagiko Szentendrei, Tamási e nel Friuli, Cividale del Friuli. I Longobardi migrarono nel 568. I risultati dell'indagine permettono di avanzare interessanti ipotesi sull'evoluzione delle pratiche funerarie e sul loro significato ideologico e sociale.

Slaves in the Family Edward Ball, 2014-04-22 Journalist Ball confronts the legacy of his family's slave-owning past, uncovering the story of the people, both Black and white, who lived and worked on the Ball's South Carolina plantations. It is an unprecedented family record that reveals how the painful legacy of slavery continues to endure in America's collective memory and experience. Ball, a descendant of one of the largest slave-owning families in the South,

discovered that his ancestors owned 25 plantations worked by nearly 4 000 slaves Through meticulous research and by interviewing scattered relatives Ball contacted some 100 000 African Americans who are all descendants of Ball slaves In intimate conversations with them he garnered information hard words and devastating family stories of precisely what it means to be enslaved He found that the family plantation owners were far from benevolent patriarchs instead there is a dark history of exploitation interbreeding and extreme violence Publisher description
