From Slaving to Neoslavery I. K. Sundiata,1996 Fernando Po home to the Bantu speaking Bubi people has an unusually complex history Long touted as the key to West Africa it is the largest West African island and the last to enter the world economy Confronted by both African resistance and ecological barriers early British and Spanish imperialism foundered there Not until the late nineteenth century did foreign settlement take hold abetted by a class of westernized black planters It was only then that Fernando Po developed a plantation economy dependent on migrant labor working under conditions similar to slavery In *From Slaving to Neoslavery* Ibrahim K Sundiata offers a comprehensive history of Fernando Po explains the continuities between slavery and free contract labor and challenges standard notions of labor development and progress in various colonial contexts Sundiata s work is interdisciplinary considering the influences of the environment disease slavery abolition and indigenous state formation in determining the interaction of African peoples with colonialism *From Slaving to Neoslavery* has manifold implications Historians usually depict the nineteenth century as the period in which free labor triumphed over slavery but Sundiata challenges this notion By examining the history of Fernando Po he illuminates the larger debate about slavery current among scholars of Africa

The Dutch Slave Trade, 1500-1850 ,2006 Dutch historiography has traditionally

concentrated on colonial successes in Asia However the Dutch were also active in West Africa Brazil New Netherland the present state of New York and in the Caribbean In Africa they took part in the gold and ivory trade and finally also in the slave trade something not widely known outside academic circles P C Emmer one of the most prominent experts in this field tells the story of Dutch involvement in the trade from the beginning of the 17th century much later than the Spaniards and the Portuguese and goes on to show how the trade shifted from Brazil to the Caribbean He explains how the purchase of slaves was organized in Africa records their dramatic transport across the Atlantic and examines how the sales machinery worked Drawing on his prolonged study of the Dutch Atlantic slave trade he presents his subject clearly and soberly although never forgetting the tragedy hidden behind the numbers the dark side of the Dutch Golden Age which makes this study not only informative but also very readable

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2012-10-02 At times mirroring and at times shockingly disparate to the rise of traditional white American medicine the history of African American health care is a story of traditional healers root doctors granny midwives underappreciated and overworked African American physicians scrupulous and unscrupulous white doctors and scientists governmental support and neglect epidemics and poverty Virtually every part of this story revolves around race More than 50 years after the publication of *An American Dilemma* Gunnar Myrdal's 1944 classic about race relations in the USA *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race race relations and the African American medical and public health experience Beginning with the origins of western medicine and science in Egypt Greece and Rome the authors explore the relationship between race medicine and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment medical abuse and neglect of African Americans and other non white people Also included are biographical portraits of black medical pioneers like James McCune Smith the first African American to earn a degree from a European university and anecdotal vignettes like the tragic story of

the Hottentot Venus which illustrate larger themes An American Health Dilemma promises to become an irreplaceable and essential look at African American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system The Sailing Ships of New England George Francis Dow,1928 **The Right of Search and the Slave Trade in Anglo-American Relations, 1814-1862** Hugh Graham Soulsby,1933 **The Dutch in the Atlantic Slave Trade, 1600-1815** Johannes M.
