Slavery And Race Relations In The Americas:

Slavery and Race Relations in the Americas H. Hoetink, 1973 Slave and Citizen Frank Tannenbaum, 2012-08-29
Slave Citizen deals with one of the most intriguing problems presented by the development of the New World the contrast between the legal and social positions of the Negro in the United States and in Latin America It is well known that in Brazil and in the Caribbean area Negroes do not suffer legal or even major social disabilities on account of color and that a long history of acceptance and miscegenation has erased the sharp line between white and colored Professor Tannenbaum one of our leading authorities on Latin America asks why there has been such a sharp distinction between the United States and the other parts of the New World into which Negroes were originally brought as slaves In the legal structure of the United States the Negro slave became property There has been little experience with Negro slaves in England and the ancient and medieval traditions affecting slavery had died out As property the slave was without rights to marriage to children to the product of his work or to freedom In the Iberian peninsula on the other hand Negro slaves were common and the laws affecting them were well developed Therefore in the colonies of Spain and Portugal while the slave was the lowest person in the social order he was still a human being with some rights and some means by which he might achieve freedom Only the United States made a radical split with the tradition in which all men even slaves had certain inalienable rights Slavery, Race and American History John David Smith, 2015-03-04 These essays introduce the complexities of researching and analyzing race This book focuses on problems confronted while researching writing and interpreting race and slavery such as conflict between ideological perspectives and changing interpretations of the questions Slavery & Race in American Popular Culture William L. Van Deburg, 1984 Spanning more than three centuries from the colonial era to the present Van Deburg s overview analyzes the works of American historians dramatists novelists poets lyricists and filmmakers and exposes through those artists often disquieting perceptions the cultural underpinnings of American current racial attitudes and divisions Crucial to Van Deburg s analysis is his contrast of black and white attitudes toward the Afro American slave experience There has in fact been a persistent dichotomy between the two races literary historical and theatrical representations of slavery If white culture makers have stressed the unmaning of the slaves and encouraged such stereotypes as the Noble Savage and the comic minstrel to justify the blacks subordination Afro Americans have emphasized a counter self image that celebrates the slaves creativity dignity pride and assertiveness ISBN 0 299 09634 3 pbk 12 50

Roots of American Racism Alden T. Vaughan, 1995 Equally important to understanding the racial dynamics of early America are essays on early English paradigmatic views of Native Americans the changing Anglo American perceptions of Indian color and character and frontier violence in pre Revolutionary Pennsylvania An extensive expose of slaveholder

ideology in seventeenth century Barbados is published here for the first time as well as the second half of an essay on Puritan judicial policies concerning Indians All previously published pieces have been revised to reflect recent scholarship or to address recent debates and new headnotes have been added to the essays A general introduction written for this volume links the essays together thematically

Unfree Labor Peter KOLCHIN, 2009-06-30 Two massive systems of unfree labor arose a world apart from each other in the late sixteenth and early seventeenth centuries The American enslavement of blacks and the Russian subjection of serfs flourished in different ways and varying degrees until they were legally abolished in the mid nineteenth century Historian Peter Kolchin compares and contrasts the two systems over time in this magisterial book which clarifies the organization structure and dynamics of both social entities highlighting their basic similarities while pointing out important differences discernible only in comparative perspective These differences involved both the masters and the bondsmen The independence and resident mentality of American slaveholders facilitated the emergence of a vigorous crusade to defend slavery from outside attack whereas an absentee orientation and dependence on the central government rendered serfholders unable successfully to defend serfdom Russian serfs who generally lived on larger holdings than American slaves and faced less immediate interference in their everyday lives found it easier to assert their communal autonomy but showed relatively little solidarity with peasants outside their own villages American slaves by contrast were both more individualistic and more able to identify with all other blacks both slave and free Kolchin has discovered apparently universal features in master bondsman relations a central focus of his study but he also shows their basic differences as he compares slave and serf life and chronicles patterns of resistance If the masters had the upper hand the slaves and serfs played major roles in shaping and setting limits to their own bondage This truly unprecedented comparative work will fascinate historians sociologists and all social scientists particularly those with an interest in comparative history and studies in slavery

Slavery and Beyond Darién J. Davis, 1995 The slave market in Seville while still relatively small became one of the most active in Europe Many called the city the New Babylon Northern and sub Saharan Africans comprised more than 50 percent of the inhabitants of several of Seville s neighborhoods The African populations became so socially and politically important that in 1475 the Crown appointed Juan de Valladolid its royal servant and mayoral to represent Seville s Afro Iberian community Churches and charities catered to its spiritual and material needs
