Slaying The Nimby Dragon:

Slaying the Nimby Dragon Herbert Inhaber, 2018-10-08 A mob scene erupted in April 1990 in the sleepy hamlet of Caneada a small town on the northern edge of the Allegheny Mountains In addition to riots and numerous arrests six senior citizens handcuffed to a heavy chain formed a human barricade across the steel bridge spanning the Genesee River Their purpose was to prevent the siting commission

Slaying the Nimby Dragon Herbert Inhaber, 1998 Advanced societies around the world are facing a dilemma What to do with all the facilities that everyone desires in principle but wants to keep out of their own block The phenomenon is called NIMBY Not In My Own Back Yard Herb Inhaber proposes a solution that combines environmental science and economics to wipe it out the reverse Dutch auction

Slaying the Nimby Dragon Elena Skrabina, Herbert Inhaber, 2017-10-12 A mob scene erupted in April 1990 in the sleepy hamlet of Caneada a small town on the northern edge of the Allegheny Mountains In addition to riots and numerous arrests six senior citizens handcuffed to a heavy chain formed a human barricade across the steel bridge spanning the Genesee River Their purpose was to prevent the siting commission of a low level radioactive waste dump from getting across the bridge In the past few decades finding sites for undesirable facilities such as prisons and garbage landfills has become ever more difficult The difficulty lies not in tracking down technically suitable sites but in the so called NIMBY syndrome People might agree that a facility is desperately needed just as long as it is Not In My Backyard The unfortunate results of this proverbial game of hot potato are ever mounting social and economic costs State and local governments will continue to spend small fortunes finding sites to facilities that everyone desires in principle but nobody seems to want on their block In Slaying the NIMBY Dragon Herbert Inhaber draws on the experience of many NIMBY cases He discusses new approaches to overcoming NIMBY such as the reverse Dutch auction Reverse because undesirable objects are being auctioned This market approach holds promise for meeting the objections of potential neighbors of a LULU Locally Unwanted Land Use as well as society's need to get the facilities built According to Inhaber a site auction works better than negotiation the community handles it on their own and when they are satisfied with a site they offer a bid The hefty bonus would go to the first county that agrees to have a site built in their backyard Psychological components of the NIMBY syndrome are also discussed logical objections and why people think as they do about LULUs Inhaber believes that the trick to handling this problem is to take account of these personal sentiments and accomplish the nation's work at the same time Inhaber adopts an optimistic approach to a problem that many believe has become a national fixture with no solution The nuclear industry has been trying without success to dispose of its waste for about four decades to take just one example Inhaber believes there is a way to assuage the fears of an affected community while simultaneously preserving the environment and the people This book will be of interest to environmentalists developers policymakers and those in the fields of waste industry nuclear and risk analysis

Nimby Is Beautiful Carol Hager, Mary Alice Haddad, 2015-03-01 NIMBY Not In My Back Yard protests are often criticized as parochial

and short lived generating no lasting influence on broader processes related to environmental politics This volume offers a different perspective Drawing on cases from around the globe it demonstrates that NIMBY protests although always arising from a local concern in a particular community often result in broader political social and technological change Chapters include cases from Europe North America and Asia engaging with the full political spectrum from established democracies to non democratic countries Regardless of political setting NIMBY movements can have a positive and proactive role in generating innovative solutions to local as well as transnational environmental issues Furthermore those solutions are now serving as models for communities and countries around the world

Facility Siting in the AsiaPacific Fung Tung,S. Hayden Lesbirel,Kin-che Lam,2011-07-18 This volume explores the management of conflicts arising from the siting of unwanted projects in the AsiaPacific a region inadequately explored by the relevant literature The work includes studies on a variety of locations including Hong Kong Japan Mainland China Taiwan Vietnam Singapore and others Contributions are drawn from several leading scholars intimately familiar with the locations under study and employ theoretical comparative and policybased approaches to analysis of environmental conflict risk management and public participation The editors also provide introductory and concluding sections in which the siting issues under discussion are summarized and contextualized The result is a collection that serves as an invaluable aid and source of information for policymakers environmentalists and scholars of the AsiaPacific and elsewhere

planning process and the way in which policy issues are identified defined and approached Controlling Technocracy Gregory E. McAvoy, 1999-11-01 Disputes over hazardous waste sites usually are resolved by giving greater weight to expert opinion over public not in my back yard reactions Challenging the assumption that policy experts are better able to discern the general welfare Gregory E McAvoy here proposes that citizen opinion and democratic dissent occupy a vital constructive place in environmental policymaking McAvoy explores the issues of citizen rationality the tension between democracy and technocracy and the link between public opinion and policy in the case of an unsuccessful attempt to site a hazardous waste facility in Minnesota He shows how the site was defeated by citizens who had reasonable doubts over the need for the facility Offering a comprehensive look at the policymaking process McAvoy examines the motivations of public officials the resources they have for shaping opinion the influence of interest groups and the evolution of waste reduction programs in Minnesota and other states Integrating archival material interviews and quantitative survey data he argues that NIMBY movements can bring miscalculations to light and provide an essential check on policy experts often partisan views This book will be of value to those who work or study in the fields of hazardous waste policy facility siting environmental policy public policy public administration and political science *Junkyards, Gearheads, and Rust* David N. Lucsko, 2016-05-15 The automotive salvage business in America 1900 2010 an overview Parts parts cars and car enthusiasts the art and practice of direct recycling Arizona gold enthusiast specialty salvage yards 1920s 2000s Junkyard jamboree hunting for treasure in the automotive past 1950 2010 Not in my neighbor s backyard either junkyards gearheads and zoning and eyesore ordinances 1965 2010 Of clunkers and Camaros policymakers enthusiasts and old car scrappage 1990 2009 Something old something new Under the Cap of Invisibility Lucie Genay, 2025-05-13 Pantex was built during World War II near the town of Amarillo Texas The site was converted early in the Cold War to assemble nuclear weapons and produce high explosives For nearly fifty years Pantex has been the sole assembly and disassembly plant for nuclear weapons in the United States Today most of the activities of the plant consist of the manufacture of high explosive components and the dismantlement or life extension of weapons including retrofitting aging warheads in the United States s arsenal Unlike the much more famous nuclear weapons production sites at Los Alamos Oak Ridge Hanford and Rocky Flats the Pantex plant has drawn little attention hidden under a metaphoric cap of invisibility Lucie Genay now lifts that invisibility cap to give the world its first in depth look at Pantex and the people who have spent their lives as neighbors and employees of this secretive industry The book investigates how Pantex has impacted local identity by molding elements of the past into the guaranty of its future and its concealment It further examines the multiple facets of Pantexism the reasons for embracing nuclear weapons production as a solution to economic woes the resulting dependence on this industry and the unconditional support for the facility through the voices of native and adoptive Panhandlers Public Responses to Fossil Fuel Export Hilary Boudet, Shawn Hazboun, 2022-01-29 Public Responses to Fossil Fuel Export provides wide ranging theoretical and methodological international contributions on

the human dimensions of fossil fuel export with a distinctive focus on exporting countries some of which are new entrants into the marketplace What do members of the public think about exporting fossil fuels in places where it is happening What do they see as its main risks and benefits What connections are being made to climate change and the impending energy transition How have affected communities responded to proposals related to fossil fuel export broadly defined to include transport by rail pipeline and ship Contributions to the work are presented in three parts The first part synthesizes the background of the project outlines major social science theories and relevant previous research and identifies global trends in energy production Regional and national case studies related to public opinion on fossil fuel export are included in part two of the manuscript Part three highlights community based case studies Implications for research and practice feature in the concluding chapter Serves as a definitive reference on the social dimensions of fossil fuel export bringing together case examples and public opinion research from around the world on this important but understudied issue Explores the broader implications for growing field of energy social science particularly those focused on public perceptions of energy development siting controversies and community impacts from energy development Provides practical and policy implications including the need for better community inclusion in export and transport facility siting decisions the changing status of certain fuels impacts on public awareness and the relevance of the movement of energy resources **Site Fights**

Daniel P. Aldrich, 2011-03-15 One of the most vexing problems for governments is building controversial facilities that serve the needs of all citizens but have adverse consequences for host communities Policymakers must decide not only where to locate often unwanted projects but also what methods to use when interacting with opposition groups In *Site Fights* Daniel P. Aldrich gathers quantitative evidence from close to five hundred municipalities across Japan to show that planners deliberately seek out acquiescent and unorganized communities for such facilities in order to minimize conflict When protests arise over nuclear power plants dams and airports agencies regularly rely on the coercive powers of the modern state such as land expropriation and police repression Only under pressure from civil society do policymakers move toward financial incentives and public relations campaigns Through fieldwork and interviews with bureaucrats and activists Aldrich illustrates these dynamics with case studies from Japan France and the United States The incidents highlighted in *Site Fights* stress the importance of developing engaged civil society even in the absence of crisis thereby making communities both less attractive to planners of controversial projects and more effective at resisting future threats **Arguments and Fists**

Mika LaVaquerie, 2002-03-22 Many theorists have addressed a central concern of current political theory by contending that the dithering intellectualism of left politics prevents genuine political action *Arguments and Fists* confronts this concern by refuting these arguments and reconciling philosophical debates with the realities of current activism By looking at theorists such as Montesquieu Kant Rousseau the book contradicts current academic debates and also goes against contemporary theory's image of the liberal political agent as a narrowly rational abstraction Mika LaVaquerie also argues that

progressive political philosophy and political action go hand in hand He then ventures past Kant and Rousseau to talk about specific environmental activism finding middle ground between the two while asserting that the liberal urge for political reform stems from sound philosophical considerations about the nature of politics and isn't the cowardly afterthoughts some theorists have called it Arguments and Fists then puts these theoretical insights to use examining environmental justice movements and varieties of environmental radicalism showing how liberal theory illuminates concrete contemporary political practices
