Speak To The Past:

Speaking in the Past Tense Herb Wyile, 2006-12-15 Speaking in the Past Tense participates in an expanding critical dialogue on the writing of historical fiction providing a series of reflections on the process from the perspective of those souls intrepid enough to step onto what is practically by definition contested territory Herb Wyile from the Introduction The extermination of the Beothuk the exploration of the Arctic the experiences of soldiers in the trenches during World War I the foibles of Canada's longest serving prime minister the Ojibway sniper who is credited with 378 wartime kills these are just some of the people and events discussed in these candid and wide ranging interviews with eleven authors whose novels are based on events in Canadian history These sometimes startling conversations take the reader behind the scenes of the novels and into the minds of their authors Through them we explore the writers motives for writing the challenges they faced in gathering information and presenting it in fictional form the sometimes hostile reaction they faced after publication and perhaps most interestingly the stories that didn't make it into their novels Speaking in the Past Tense provides fascinating insights into the construction of national historical narratives and myths both those familiar to us and those that are still being written **Talking Past Each Other** Margaret Bain, 2010-08 **Talking Past Each Other** Joan Metge, 1984 Authors research cross cultural communication and identify the reasons that cause miscommunication between different cultures in New Zealand New Method of Learning to Read, Write, and Speak the French Language Heinrich Gottfried Ollendorff, 1851 **The Future of the Past** Tamara L. The Past Tenses of the Mongolian Verb Robert I. Binnick, 2011-11-25

In the Modern Mongolian language there are four verb forms which have traditionally been labelled as past tense markers differing primarily in aspect In the last two decades scholars have suspected that the past tenses endings may actually differ by marking evidentiality and inferentiality The present study not only confirms this but using 350 glossed and analyzed examples drawn from a variety of sources shows distinctions of degrees of remoteness as well and details significant differences between the spoken and written languages

Wachterhauser,1994-07-06

The claim that all human thought involves interpretation that all human thought is in some way relative to a contingent context of cognitive theoretical practical and aesthetic considerations has become widely accepted but what we understand by truth and how we should best pursue it are questions raised with renewed force once a hermeneutical starting point has been embraced Brice R Wachterhauser s collection *Hermeneutics and Truth* is an attempt to contribute to this conversation No thinkers have wrestled with the issue of truth and interpretation in more illuminating ways for the Continental tradition of philosophy than Heidegger and Gadamer *Hermeneutics and Truth* is a dual focus on Heidegger and Gadamer but it concentrates primarily on Gadamer s efforts to think through the issue of truth for hermeneutics and only secondarily on Heidegger s thought on this issue
