Kashatus, **Dissident Authorship in Mozambique** Tom Stennett,2024-02-16 This book is the first monograph on neglected Portuguese poet and painter Ant nio Quadros 1933 1994 It analyses the question of what it means to be an author in Mozambique through Quadros s quirky literary works which he published under three pennames and interrogates Barthes s and Foucault s influential theories on authorship On the Politics of the Living Federico Testa,2025-04-17 Bringing the

philosophies of Michel Foucault and Georges Canguilhem into dialogue Federico Testa examines the notions of life and norms underlying our modern experience of politics Today's global health crisis acts as a stark reminder that life is at the core of our political debates and dilemmas We can no longer think of forms of political organization citizenship and participation without considering the materiality and precarity of our own organic life Ours is a politics of the living Within this context this book examines Foucault's work on the politicization of life and biopolitics through the lens of Canguilhem's notion of norms Testa extracts from Canguilhem's philosophy the conceptual tools to re-interpret Foucault's ideas on power and reconceptualises normativity as a process of the creation of norms that provide tools for political and social analysis and for thinking resistance In so doing he uncovers new and important possibilities for biopolitical resistance Demonstrating not only Canguilhem's underexplored social and political concerns but also the intellectual osmosis between the two thinkers On the Politics of the Living is an urgent examination of the ever increasing significance of the concepts of life care and health in today's political discourse

Let There Be Light! Robert S. Dutch, 2017-06-16 Have you ever wondered what it is like to work on a nuclear power plant Robert Dutch worked in the UK's nuclear industry for many years as a scientist and then as a tutor at a nuclear training center He also holds degrees in theology Drawing upon his qualifications and experience Robert addresses the controversial issue of nuclear power from a Christian perspective In contrast to a negative nuclear narrative often portrayed he presents a positive nuclear narrative alongside other ways of generating electricity Be prepared to be challenged to think seriously about nuclear's merits in providing clean low carbon electricity

A Speaker's Treasury of Quotations Michael C. Thomsett, Linda Rose Thomsett, 2015-01-24 Every public speaker can benefit from an apt quotation to illuminate a speaking point This compilation of 2 116 quotations in 263 broad subject categories is useful for political motivational and other public speakers along with speech writers planners and researchers The topics range from Ability Out of my lean and low ability I'll lend you something Shakespeare to Youth I suppose it's difficult for the young to realize that one may be old without being a fool William Somerset Maugham Each entry is credited to its author the work in which it appeared when appropriate and the date of origin There are two indexes of authors to topics and their entry numbers and of highly detailed keywords in context to their entries

Indigeneity in the Mexican Cultural Imagination Analisa Taylor, 2013-09-25 Since the end of the Mexican Revolution in 1917 the state has engaged in vigorous campaign to forge a unified national identity Within the context of this effort Indians are at once both denigrated and romanticized Often marginalized they are nonetheless subjects of constant national interest Contradictory policies highlighting segregation assimilation modernization and cultural preservation have alternately included and excluded Mexico's indigenous population from the state's self-conscious efforts to shape its identity Yet until now no single book has combined the various elements of this process to provide a comprehensive look at the Indian in Mexico's cultural imagination Indigeneity in the Mexican Cultural Imagination offers a much needed examination of this fickle relationship as it is seen through literature ethnography

film and art The book focuses on representations of indigenous peoples in post revolutionary literary and intellectual history by examining key cultural texts Using these analyses as a foundation Analisa Taylor links her critique to national Indian policy rights and recent social movements in Southern Mexico In addition she moves beyond her analysis of indigenous peoples in general to take a gendered look at indigenous women ranging from the villainized Malinche to the highly romanticized and sexualized Zapotec women of the Isthmus of Tehuantepec The contradictory treatment of the Indian in Mexico s cultural imagination is not unique to that country alone Rather the situation there is representative of a phenomenon seen throughout the world Though this book addresses indigeneity in Mexico specifically it has far reaching implications for the study of indigenaety across Latin America and beyond Much like the late Edward Said s Orientalism this book provides a glimpse at the very real effects of literary and intellectual discourse on those living in the margins of society This book s interdisciplinary approach makes it an essential foundation for research in the fields of anthropology history literary critique sociology and cultural studies While the book is ideal for a scholarly audience the accessible writing and scope of the analysis make it of interest to lay audiences as well It is a must read for anyone seeking a deeper understanding of the politics of indigeneity in Mexico and beyond

Second World War Tim Luckhurst,2023-01-12 The decisive role of Britain s wartime newspaper journalism in shaping public opinion and government policy has been majorly overlooked Much of the existing historiography has framed Britain s newspapers as mouthpieces of state propaganda readily conforming to the wishes of the wartime coalition Tim Luckhurst challenges this through an analysis of illuminating and largely forgotten controversies which underscore the function the press held as guardians of democracy and propagators of dissenting opinion in British politics and society from the overseas evacuation of children to the Allies carpet bombing of German cities Reporting the Second World War is a timely and important intervention that duly recognises the place of national regional and specialist titles in speaking truth to power in a democracy at war **Bruno Latour** Graham Harman,2014-10-20 Bruno Latour the French sociologist anthropologist and

long established superstar in the social sciences is revisited in this pioneering account of his ever evolving political philosophy Breaking from the traditional focus on his metaphysics most recently seen in Harman s book Prince of Networks the author instead begins with the Hobbesian and even Machiavellian underpinnings of Latour s early period encountering his shift towards Carl Schmitt then finishing with his final development into the Lippmann Dewey debate Harman brings these twists and turns into sharp focus in terms of Latour s personal political thinking Along with Latour s most important articles on political themes the book chooses three works as exemplary of the distinct periods in Latour s thinking The
