Between Truth and Trust Svend Erik Larsen, 2024-11-05 Radical wrongdoing can have devastating effects for entire communities beyond individual trauma Across cultures different coping strategies that help victims to get on with their lives range from individual therapy to collective rituals and ceremonies This new book distances itself from the predominantly individual take on forgiveness and concentrates on its collective and cultural dimensions in a broad historical religious and cultural context By developing forgiveness as a particular speech act based on a precarious mutual acceptance between victims and perpetrators the book suggests a new approach to forgiveness Framed by this challenging reciprocity forgiveness becomes an ongoing experiment in mutual understanding which to be successful requires the imagination of a shared future Literature as a creative and imaginary medium of expression is integrated throughout the book as a vehicle to explore a deeper understanding of the cultural practice of forgiveness The book draws on literary texts from different cultures and religions across the globe from antiquity and early Christianity to the present In looking at forgiveness through this lens the book offers a broader and more comprehensive approach than most of the existing scholarly literature and debates on forgiveness

**The Philosophy of Trust** Paul Faulkner, Thomas Simpson, 2017-02-23 Trust is central to our social lives We know by trusting what others tell us We act on that basis and on the basis of trust in their promises and implicit commitments So trust underpins both epistemic and practical cooperation and is key to philosophical debates on the conditions of its possibility It is difficult to overstate the significance of these issues On the practical side discussions of cooperation address what makes society possible of how it is that life is not a Hobbesian war of all against all On the epistemic side discussions of cooperation address what makes the pooling of knowledge possible and so the edifice that is science But trust is not merely central to our

lives instrumentally trusting relations are themselves of great value and in trusting others we realise distinctive forms of value What are these forms of value and how is trust central to our lives These questions are explored and developed in this volume which collects fifteen new essays on the philosophy of trust They develop and extend existing philosophical discussion of trust and will provide a reference point for future work on trust **Preserving the Public Trust** Michael S.

Simpson,2023-08-29 Trust and trustworthiness are core social phenomena at the heart of most everyday interactions Yet they are also puzzling while it matters to us that we place trust well trusting people who will not let us down both also seem to involve morally driven attitudes and behaviours Confronted by whether I should trust another this tension creates very practical dilemmas In Trust Thomas Simpson addresses the foundational question why should I trust Philosophical treatments of trust have tended to focus on trying to identify what the attitude of trust consists in Simpson argues that this approach is misguided giving rise to merely linguistic debates about how the term trust is used Instead he focuses attention on the ways that trust is valuable The answer defended comprises two claims which at first seem to be in tension One is a form of evidentialism about trust normally your trust should be based on the evidence you have for someone s

trustworthiness But second someone's word is normally enough to settle for you whether you should trust them Social norms of trustworthiness explain why both are normal Methodologically innovative Trust also applies the account addressing how cultures of trust can be sustained and the implications of trust in God While it is a philosophical essay the book is written in a way that presumes no prior knowledge of philosophy to be accessible to the scholars from the many disciplines also attracted and puzzled by trust American Indian Reservations and Trust Areas Veronica E.
