Speaking Passion:

Passion's Fictions from Shakespeare to Richardson Benedict S. Robinson, 2021-05-27 *Passion's Fictions* traces the intimate links between literature and the sciences of mind and soul from the age of Shakespeare to the rise of the novel. It chronicles the emergence of new sciences of the passions between the sixteenth and eighteenth centuries and it argues that this history was shaped by rhetoric that contained the most extensively particularized discourse on the passions offering principles for moving and affecting the passions of others in concrete social scenes. This rhetoric of the passions centered on narrative as the instrument of a non-theoretical knowledge of the passions in their particularity predicated on an account of passion as an intimate relation between an impassioned mind and an impassioning world. Rhetoric offers a kind of externalist psychology formalized in the relation of passion to action and underwriting an account of narrative as a means of both moving passion and knowing it. This volume describes the psychology of the passions before the discipline of psychology tracing the influence of rhetoric on theories of the passions from Francis Bacon to Adam Smith and using that history to read literary works by Shakespeare, Milton, Haywood, Richardson and others. Narrative offers a means of knowing and moving the passions by tracing them to the events and objects that generate them. The history of narrative practices is thus a key part of the history of the psychology of the passions at a critical moment in its development. *The Speaking Voice; how to Cultivate, Develop, Modulate, Manage, Strengthen, and Preserve It; with Passages for Practice, Etc* Charles HARTLEY, 1873

Rorty Amélie Rorty,1986 **Voice** David Appelbaum,1990-07-05 Drawing on clues from Aristotle Plato Hobbes Locke Jacobson Condillac and Diderot Appelbaum investigates the vocalized acoustical aspect of audible expression He analyzes the tendency to equate voice with speaking and speaking with writing the result being that vocalizing is equivalent to thinking aloud Appelbaum affirms the body's role in vocalizing expression by proposing a new and radical interpretation of the truth of voice that it is true if it provides a disclosure of our human contradictions Sound or the acoustical properties of a person's voice is able to bring about the revolutionary new set of conditions which reveal the truth of one's condition The author provides a unique account of the subjugation of voice by thought indicating means for reversing the authority of the sound and for freeing up the voice He concludes with the argument that poetic voice reconciles the search for semantic meaning with the raw acoustical effect that the free voice causes *Passion's Prey* A. Kierkegaard's God and the Good Life Stephen Minister,J. Aaron Simmons,Michael Strawser,2017-09-11 Collected critical essays analyzing Kierkegaard s work in regards to theology and social moral thought Kierkegaard s God and the Good Life focuses on faith and love two central topics in Kierkegaard s writings to grapple with complex questions at the intersection of religion and ethics Here leading scholars reflect on Kierkegaard s understanding of God the religious life and what it means to exist ethically The contributors then shift to psychology hope knowledge and the emotions as they offer critical and constructive readings for contemporary philosophical debates in the philosophy of religion moral philosophy and epistemology Together they show how Kierkegaard continues to be an important resource for understandings of religious existence public discourse social life and how to live virtuously All in all the editors of this volume have put together a thoughtful and sometimes provocative collection of essays by a number of

Kierkegaard scholars and philosophers for the reader's consideration. The volume undoubtedly makes a contribution to contemporary philosophical debates in the philosophy of religion, moral philosophy and epistemology, especially with regard to the importance of faith and love for leading a good and meaningful human life. *International Journal for Philosophy of Religion* invites the reader to think anew about what Kierkegaard was saying and what we can learn from him in the context of our time, particularly what it means to become a Christian in terms of the moral task of love and living a life worthy of a human being. Sylvia Walsh, translator of Kierkegaard's *Discourses at the Communion on Fridays*. [Perilous Passions: Ethics and Emotion in Early Modern Spain](#) Hilaire Kallendorf, *The Works of William Shakespeare: A midsummer-night's dream; The merchant of Venice; As you like it; The taming of the shrew* William Shakespeare, 1865 *The Works of William Shakespeare* William Shakespeare, Richard Grant White, 1863 *Body Language and Soulful Thoughts* Petey Parker, 2004-11-24 Parker helps readers on a personal as well as business basis by getting them to consider how the right body language, the right communication style or the right attitude can affect any situation. [The Vehement Passions](#) Philip Fisher, 2009-01-10 Breaking off the ordinary flow of experience, the passions create a state of exception. In their suddenness and intensity, they map a personal world, fix and qualify our attention and impel our actions. Outraged anger drives us to write laws that will later be enforced by impersonal justice. Intense grief at the death of someone in our life discloses the contours of that life to us. Wonder spurs scientific inquiry. The strong current of Western thought that idealizes a dispassionate world has ostracized the passions as quaint, even dangerous. Intense states have come to be seen as symptoms of pathology. A fondness for irony along with our civic ideal of tolerance lead us to prefer the diluted emotional life of feelings and moods. Demonstrating enormous intellectual originality and generosity, Philip Fisher meditates on whether this victory is permanent and how it might diminish us. From Aristotle to Hume to contemporary biology, Fisher finds evidence that the passions have defined a core of human nature no less important than reason or desire. Traversing the *Iliad*, King Lear, *Moby Dick* and other great works, he discerns the properties of the high-spirited states we call the passions. Are vehement states compatible with a culture that values private, selectively shared experiences? How do passions differ from emotions? Does anger have an opposite? Do the passions give scale, shape and significance to our experience of time? Is a person incapable of anger more dangerous than someone who is irascible? In reintroducing us to our own vehemence, Fisher reminds us that it is only through our strongest passions that we feel the contours of injustice, mortality, loss and knowledge. It is only through our personal worlds that we can know the world.
