Speaking Listening Understanding:

Speaking, Listening, Understanding Heinz Zimmermann, 1996-05 This book results from many years of experience in a self administered Waldorf school During those years I watched the decision making process unfold through innumerable conversations and committee meetings It is my hope that this short text can serve as an aid for those seeking to increase their conversational ability Only such increased competence will enable us to raise the human interaction taking place in any conversation to a higher level Heinz Zimmermann All human activity whatever the size of the community whether in business the family schools or politics is group activity Such group activity depends upon the ability of human beings to work together consciously in language Speaking Listening Understanding is a book about group conversations especially those intended to arrive at decisions and or insights Various types of conversations are described In the process we learn how individual participants context and mood can affect the overall process Exercises both group and individual are provided for different kinds of conversations Rather than the dynamics of group psychology however the author starts from the artistic aspects of conversation namely language and consciousness Using examples and anecdotes drawn from many years of work with groups Zimmermann shows in a straightforward way what can go wrong and why Then through a step by step articulation of the processes involved in conversation speaking listening and understanding he shows what kinds of awareness and practices can strengthen the group processes that facilitate creative conversation This is a valuable resource for any group or community and it is directed especially toward Waldorf school communities
