Andersen,John Debenham,Roland Wagner,2005-09-14 DEXA 2005 the 16th International Conference on Database and Expert Systems

Applications was held at the Copenhagen Business School Copenhagen Denmark from August 22 to 26 2005 The success of the DEXA series has partly been due to the way in which it has kept abreast of recent developments by spawning specialized workshops and conferences each with its own proceedings In 2005 the DEXA programme was co located with the 7th International Conference on Data Warehousing and Knowledge Discovery DaWaK 2005 the 6th International Conference on Electronic Commerce and Web Technologies EC Web 2005 the 4th International Conference on Electronic Government EGOV 2005 the 2nd International Conference on Trust Privacy and Security in Digital Business TrustBus 2005 the 2nd International Conference on Industrial Applications of Holonic and Multi agent Systems HoloMAS 2005 as well as 19 specialized workshops These proceedings are the result of a considerable amount of hard work Beginning with the preparation of submitted papers the papers went through the reviewing process This process was supported by online discussion between the reviewers to determine the final conference program The authors of accepted papers revised their manuscripts to produce this fine collection DEXA 2005 received 390 submissions and from those the Program Committee selected the 92 papers in these proceedings This year the reviewing process generated more than 1000 referee reports The hard work of the authors the referees and the Program Committee is gratefully acknowledged   *Code Generation in Microsoft .NET* Kathleen Dollard,2014-07-08 Code generation has the potential to revolutionize application development Rather than handcrafting each piece of code developers are increasingly turning to code generation based on templates and applications of business logic to automatically perform a variety of tasks This book teaches the technical details of code generation in NET through a coherent series of steps that will help you to incorporate code generation into your own development efforts Veteran author Kathleen Dollard teaches code generation as a scripted repeatable process using templates you control so you re not tied to a particular framework or style Because you can regenerate code at any time you can incorporate changes including database changes throughout the life of your application The templates are flexible and designed to work smoothly with the handcrafted code youll use to customize your application The underlying fundamentals are explained along with three specific techniques outputting code to a stream using the Code DOM and using XSLT based code generation In addition to the text the tools in the book downloadable in both VB NET and C include a mechanism to extract information from SQL Server a tool for editing and running code generation scripts a simple flexible ORM tool that relates your database structure to your runtime class model and a set of templates you can use as the starting point for your adventures in code generation Generating repetitive sections of code frees you to focus on the features that make your application unique Code generation will turbo charge your development cycles by offering speed reusability agility and consistency Go forth and generate   Applied SOA Michael Rosen,Boris Lublinsky,Kevin T. Smith,Marc J. Balcer,2012-07-02 Endorsed by all major vendors Microsoft Oracle IBM and SAP SOA has quickly become the industry standard for building next generation software this practical guide shows readers how to achieve the many benefits of SOA Begins with a look at

the architectural principles needed to create successful applications and then goes on to examine the process for designing services and SOA implementations Each stage of the design process has an accompanying chapter that walks readers through the details and provides helpful tips techniques and examples The author team of SOA practitioners also provides two unique comprehensive end to end case studies illustrating the architectural and design techniques presented in the book

XML Schema Essentials R. Allen Wyke,Andrew Watt,2002-10-01 Replacing DTDs Document Type Definitions as the way in which XML documents are described and validated XML schemas are essential for ensuring the accuracy and security of information in B2B transactions and other XML applications This how to guide employs extensive examples and source code to help developers and programmers get quickly up to speed on the practical application of this important technology With in depth explanations for each example XML expert Mike Fitzgerald acquaints readers with coding structures then moves to more advanced topics including unique element and attribute values keys and how to use schemas with HTML Like the other books in the series this guide features comprehensive appendices listing all the datatypes and data facets code indexes and other time saving features   *OMDoc -- An Open Markup Format for Mathematical Documents [version 1.2]* Michael Kohlhase,2006-08-17 Open Mathematical Documents OMDoc is a content markup scheme for mathematical documents including articles textbooks interactive books and courses OMDoc also serves as the content language for agent communication of mathematical services and a mathematical software bus This book documents OMDoc version 1 2 the final and mature release of OMDoc 1 The system has been validated in varied applications and features modularized language design OPENMATH and MATHML for the representation of mathematical objects   *XML-Based Data Management and Multimedia Engineering - EDBT 2002 Workshops* Akmal B. Chaudhri,Chabane Djeraba,Rainer Unland,Wolfgang Lindner,2002-11-19 This volume comprises papers from the following three workshops that were part of the complete program for the International Conference on Extending Database Technology EDBT held in Prague Czech Republic in March 2002 XML Based Data Management XMLDM Second International Workshop on Multimedia Data and Document Engineering MDDE Young Researchers Workshop YRWS Together the three workshops featured 48 high quality papers selected from approximately 130 submissions It was therefore difficult to decide on the papers that were to be accepted for presentation We believe that the accepted papers substantially contribute to their particular fields of research The workshops were an excellent basis for intense and highly fruitful discussions The quality and quantity of papers show that the areas of interest for the workshops are highly active A large number of excellent researchers are working in relevant fields producing research output that is not only of interest to other researchers but also for industry The organizers and participants of the workshops were highly satisfied with the output The high quality of the presenters and workshop participants contributed to the success of each workshop The amazing environment of Prague and the location of the EDBT conference also contributed to the overall success Last but not least our sincere thanks to the conference organizers the organizing team was always

willing to help and if there were things that did not work assistance was quickly available
